How To Study The Bible

We often talk about the importance of knowing God's word. We know that we should read and study the Bible, but when we are honest, we don't know how to go about studying it for ourselves. It can be good to read books and commentaries about what others say regarding the Bible, but that never leads to it becoming yours. Wednesday night October 11 we will offer a six week study teaching how to study scripture. We will journey through the book of Philippians teaching Bible Study principals that can make scripture come alive.
