

ISSUE 28 | JULY 2023

Ministry Update

School Ministry:

In our last newsletter we asked for you to be praying for our Seniors. School was about to be over and we felt burdened for many of them that still did not have a personal relationship with Jesus. Your prayers were heard, two more seniors got saved. Francelis and Rosa. Thank you for your faithful prayers.

30 Seniors graduated and are off to impact our world. We pray the Biblical truths learned at Las Palmas stay with them and guide them. Veronica teaches science and for Senior science club they completed their project: a solar powered charging station. As with all that we teach at Las Palmas, this project included a foundational Biblical truth (Son Powered). This is not a misprint... students were taught that Christians are powered by Jesus (the Son of God) through the Holy Spirit and all that we do is because of Him and for Him.

We also rejoice because Sayleh (another Senior who was saved earlier this year) got baptized.

Friday Night Youth Ministry

Youth ministry has continued despite school being finished.

Many kids come eager to hang out with their friends but also to learn about Jesus. We just got back from WOL youth camp. 49 of our youth went to camp this year.

We want to extend a special thank you to Iglesia Bautista Calvario in West Melbourne who helped sponsor our Bible competition winners with scholarships to camp. Camp was incredible. We praise God for salvation decisions in other youth groups. Despite none of our kids accepting Jesus, several rededicated their life to the Lord. Please pray as we disciple these kids

Seminary:

Many of you know that I am in seminary at Carolina University. I am happy to announce that I have reached the half way mark in graduating with my degree in Biblical studies with minors in sports ministry and missions. It has been hard work, as I juggle family and ministry responsibilities, but God is faithful.

We finished the school year strong and the boys did well. To say they are excited for summer is an understatement. They flew to Florida to spend the summer with family. They have been busy fishing, swimming, catching animals and enjoying loved ones.

JT passed his driving test and is getting his learners permit. He is hoping to intern with a photographer to improve his God given talent. He was able to serve at Word of Life here in the Dominican as a photographer for an evangelistic event in our city.

We also celebrated 3 birthdays in June, Jorge turned 13, Jonathan 11 and Veronica 47.

Veronica and I are in the Dominican as many of our ministries continue through the summer. We plan on returning to the States to bring our boys home in mid Aug.

On the way to the airport - Going to see Family

Meet Rosa & Francelis

This is Rosa and Francelis, the last 2 senior girls that got saved the last few weeks of school.

Pray for them as they are disciplined and as they start college. Both of these girls are very bright. Francelis wants to study medicine. Pray for her to get the scholarship she applied for. Rosa wants to study Business and help in her family business. Looking forward to see how God continues to work in their lives.
