

# Ministry Impact Report 2017

*Record Breaking Year*

It has been a record breaking year for RMI. Through your support and financial partnership with us we have been able to have a significant and life transforming impact in Southern Haiti.

The following is just a sample of what has been going on this past year.

## C3 Partnerships

RMI Haitian Staff facilitated 40 team trips - the highest number of teams in one year ever  
Our Haitian Partner churches and RMI teams registered over 520 salvations  
Many hurricane damaged roofs were either repaired or replaced. This includes churches, schools, parsonages and homes.  
163 water filters were distributed improving the health of those families and their neighbors  
963 goats were distributed to provide sources of income for those families  
3 new C3 partnerships and 2 new associate partnerships were begun

## Hope for Kidz & School Education

2,366 children are now sponsored through Hope for Kidz  
5,700 children received a daily hot lunch  
16,796 children's health were improved through the Hope for Kidz de-worming program

## Haiti Operations Team

Processed 15 food containers - that is 310 tons of food (which is 18,260 boxes of food - each one of which were handled at least 3 times, or 3,944,160 meals)  
6 new Haitian employees were hired covering areas such as partnership facilitator, Hope for Kidz, mechanics and guard duty  
Maintained 12 vehicles and 7 motorcycles to keep the ministry up and running  
Acquired 4 "new-to-us" vehicles to augment our aging fleet

## RMI USA

5 new missionaries: Joslynn Stakes and Janae Stork are teachers at the missionary children's school and have been there since late August; Dawn Shoemaker will be going in March; Jeff and Christina Speel are on target to go in September; and Jim and April Starkey are just starting to raise their support, hoping to go in 2019.

Who are RMI's "boots on the ground"? Who is on the front lines, carrying out all these ministries? These folks. They are leaders, translators, guards, cooks, do cleaning and laundry, mechanics, chauffeurs, data entry, teachers, "go-fers", IT specialists, gardeners, agronomists, veterinarian techs, menu planners, purchasers, and photographers. They are multi-taskers and multi-talented servants of God.
