

Core Value: Emotional Health

We believe the depth of one's spiritual life cannot supersede their level of emotional health. It is important to learn from the past in order to change the present. The goal will always be to uncover the lies and become covered in truth.

Recognizing our present feelings and learning to work through them with God's truth, as well as how to successfully navigate conflict, will unlock relationships and revolutionize family units. Counseling is a huge part of who we are. Every time we hear of someone taking advantage of coaching or counseling, we celebrate that at Wyandotte Family.

A message from our Pastoral Staff:

If you have any areas of concern regarding your emotional health, members of our Pastoral Staff are available to meet with and assist you in navigating how best to pursue life coaching and/or counseling. These casual conversations are intended solely to help identify and articulate your areas of need, so that you can make productive and confident choices in working toward and securing your emotional health. This result is typically accomplished with one, but no more than three meetings.

Please arrange to contact our staff through the Wyandotte Family Office.
