

# CONNECT GROUP DISCUSSION

1) There are more atheists in America today than ever before. Do you think this is in part due to Christians living worldly lives or is it due to something else?

2) What comes to mind when you think of living a holy life?

3) How has reverence for God helped you stay on the straight and narrow? What would convince you to be more reverent in your conduct?

4) Each of us is commanded to love our brothers and sisters in Christ. Who are, for you, the most difficult people to love? Are you seeing victory in loving them or is it still a huge struggle to do so?

5) What areas among Christians today need to change the most so as to conform to a biblical lifestyle?
