LivingStone International University seeks to transform Africa through quality, Christ-centered higher education. Set in Mbale, Uganda, the institution offers 5 degree programs and draws students from 8 East African countries. It has grown from 32 students to more than 200 in the last 5 years, with 2 graduating classes included.

The school is looking forward to moving from rented facilities to a newly built campus by August 2017. Please pray that God will guide each step of this development.

Roger has served in many areas of LivingStone and is currently the Director of Academic Development. He and Joey spend 4 months of the year in Uganda and the other months visiting supporting churches and raising funds to continue the ministry.
