

IS THERE A SPIRITUAL REVOLUTION CHANGING HOW PEOPLE EXPERIENCE LIFE?

Free Talk and Discussion for the Orange County Community

LAGUNA NIGUEL, CA (July 1, 2018) Have you ever asked yourself, Is there more to life than what I am experiencing? Is there a deeper, lasting, and more satisfying peace or happiness that might fill the emptiness inside?

A free talk and discussion, **A Spiritual Revolution: The Quest to Experience God**, explores the search for individual meaning. Speaker Giulia Nesi has spent years studying the subject of life and identity for herself and others, first as a psychotherapist and subsequently through cultivating an understanding of spirituality, as a spiritual healer and teacher of Christian Science.

"Despite professional accomplishments and having achieved everything I had been told would make me happy, I still had this empty feeling inside, and felt dissatisfied and restless," Giulia shared recently. "I wanted to feel and actually experience a power or influence that was larger than what I knew, and that I could lean on this power no matter what I was dealing with."

In the talk, Giulia will share how she experienced the "spiritual revolution" in her own life by reading the book, *Science and Health with Key to the Scriptures*. The ideas in the book gave her an entirely new perspective on life that resulted in deeper meaning and even physical healings, not only for herself but to help others. In this role she served on the faculty and conducted seminars at Harvard Medical School's Conference *Spirituality and Healing in Medicine*.

"A Spiritual Revolution: The Quest to Experience God" talk and discussion is free and open to the Orange County community on Saturday, August 11 at 10:30 am; location is 29012 Aloma Drive, Laguna Niguel, CA at the First Church of Christ, Scientist, Laguna Niguel.
