FW RELEASE NOTES

Version 7.1.113

XDx22, HDx22

Changes Since 7.1.95

Bug Fixes

- 32365: HTTP TS video now plays audio correctly.
- 32156: Switching between files in a Mosaic Mode window no longer causes playback to fail.
- 31931: Tracking of the audio-sample rate on the HDMI input has been fixed.
- 32002: The *rolmagePlayer.DisplayBuffer()* method now displays JPEG images correctly.
- 32314: The CVE-2018-16890 and CVE-2019-3822 vulnerabilities in the curl library have been patched.
- 32330: Bounds-checking vulnerabilities in the JavaScript object bindings have been fixed.
- 32139: The Magellan vulnerability has been patched.
