**Increasing investment in the nation’s public infrastructure systems to return them to a state of good repair, expand capacity to meet future demand, and support innovative solutions to future challenges is good for the country and for Utah. Renewing infrastructure investment will put thousands of dollars into the pockets of American households, drive productivity and boost growth, and support expanded private investment.**

**THE COSTS OF INACTION**

Failure to take action to renew investment in the nation’s infrastructure imposes real and painful costs on Utah and the country.

### Failure to invest in infrastructure hurts system performance

- **44%** of the country’s major roads are in *poor or mediocre condition*.
- **23%** of bridges in the national highway system are either *structurally deficient* or *functionally obsolete*.
- **144k** hours of *lock shutdowns* along U.S. waterways occurred due to maintenance and unexpected delays in 2016.

### Failure to invest in infrastructure costs households + businesses

- **$960** cost of congestion on major urban roadways to the *average commuter*.
- **$27 B** additional annual transportation costs to *American businesses* from inadequate infrastructure.
- **$36 B** cost to the *U.S. economy* of domestic plane travel avoided due to prior air travel complications.
- **3.8 B** gallons of *wasted fuel* in 2020 if infrastructure policies and funding remain at their recent levels.

⚠️ The time to renew investment in the nation’s infrastructure is now.
