How Indiana's Economy Benefits from International Trade & Investment

Overview

With more than 95 percent of the world’s population and 80 percent of the world’s purchasing power outside the United States, future economic growth and jobs for Indiana and America increasingly depend on expanding U.S. trade and investment opportunities in the global marketplace.

The following pages feature key facts and figures drawn from new Business Roundtable research, U.S. government data, and other data sources that demonstrate the benefits of international trade and investment to economic growth and jobs in Indiana.

Why is International Trade & Investment Important to Indiana?

• **International trade, including exports and imports, supports 812,600 Indiana jobs — more than 1 in 5.** These trade-related jobs grew 7.2 times faster than total employment from 2004 to 2014 and are at large and small companies, on farms, in factories, and at the headquarters of Indiana's globally engaged firms. *(See Indiana Jobs Depend On Two-Way Trade)*

• **Indiana exported $38.0 billion in goods and $8.9 billion in services in 2014,** including pharmaceuticals & medicines, motor vehicle parts, oilseeds & grains and royalties from industrial processes. Of Indiana's 8,258 exporters, 85 percent are small- and medium-sized companies with less than 500 workers. *(See Indiana Businesses Grow With Exports)*

• **Customers in 198 countries and territories buy Indiana-made goods and services,** including billions of dollars in annual exports to top markets like Canada, Mexico and China. Indiana's goods exports have grown nearly two and a half times faster than state GDP since 2004. *(See Indiana Companies Export Throughout The World)*

• **Imports lower prices and increase choices for Indiana companies and families.** Lower raw material and input costs help Indiana companies stay competitive in global markets, while families can stretch paychecks further as trade agreements reduce the cost of products by eliminating costly barriers to trade. *(See Indiana Companies And Workers Use Imports To Compete)*

• **Free trade agreements (FTAs) have helped fuel rapid export growth from Indiana to partner countries.** In 2014, $20.4 billion of Indiana's goods exports, or 53 percent, went to FTA partners. This represents a 64 percent increase since 2004. *(See Indiana Needs Trade Agreements To Grow)*

• **Foreign-owned companies invest and build facilities and employ 160,200 workers in Indiana.** *(See Foreign Investment In Indiana Creates Jobs)*

Overview

Creating and preserving quality U.S. jobs is a goal shared by all Americans. With more than 95 percent of the world’s population and 80 percent of the world’s purchasing power outside of the United States, future American economic growth and job creation depend on open markets abroad.

Trade Creates & Supports Jobs in Indiana

- Export growth increases jobs by generating new business for Indiana's manufacturers, service providers and farmers. Imports support jobs and keep costs low, helping Indiana businesses compete and saving Indiana families real dollars at the cash register.
- More than one in five Indiana jobs depends upon international trade.
- Indiana's trade-related employment grew 7.2 times faster than total employment from 2004 to 2014.
- Jobs in more export-intensive industries pay about 16 percent more than jobs in less export-intensive industries.
- U.S. exporting plants increase employment 2 to 4 percent faster annually than plants that do not export. Exporting plants also are less likely to go out of business.
- Trade-supported jobs are not just at companies that export and import. Trade supports higher wages for workers and lower costs for companies and consumers, providing them with more money to spend on other things. This spending supports additional jobs throughout the U.S. economy in sectors like entertainment, education and construction.

Indiana Businesses Grow with Exports

Overview

Indiana exported an estimated $38.0 billion in goods and $8.9 billion in services in 2014. Between 2009 and 2014, Indiana goods exports have increased by 54 percent and services exports by 36 percent. Large companies now account for 85 percent of the value of Indiana's goods exports, with the rest provided by small- and medium-sized enterprises (SMEs).

Small & Large Employers Partner to Export

In addition to exporting directly themselves, thousands of American SMEs export indirectly when they sell goods and services to large U.S. exporters. Based on their direct and indirect export activity combined, SMEs represent more than 40 percent of the value of U.S. exports.

Top Indiana Exports

- Indiana ranks among the top five state exporters in 10 industries, including second in pharmaceuticals & medicines ($7.1 billion) and motor vehicle bodies & trailers ($1.9 billion), third in engines & turbines ($2.3 billion), and fourth in motor vehicle parts ($4.1 billion).

- Indiana is America’s eighth largest exporter of agricultural products. It is the fourth largest exporter of soybeans, the fifth largest exporter of corn, the 10th largest exporter of poultry and eggs, and the 12th largest exporter of misc. agricultural products.

- One of Indiana’s fastest growing export categories is misc. foods, which have increased by 28 percent per year since 2004. In 2014, exports of these products reached $183 million.

Indiana Companies Export throughout the World

In 2014, Indiana companies sold their products in 198 countries and territories.
Top export markets include:

**CANADA**
- Goods Exports: $12.2 billion
- Services Exports: $676 million

**GERMANY**
- Goods Exports: $1.7 billion
- Services Exports: $292 million

**CHINA**
- Goods Exports: $2.6 billion
- Services Exports: $739 million

**MEXICO**
- Goods Exports: $5.3 billion
- Services Exports: $318 million

**FRANCE**
- Goods Exports: $1.3 billion
- Services Exports: $213 million

**JAPAN**
- Goods Exports: $1.9 billion
- Services Exports: $535 million

**Fast Facts: How Exports Help the Indiana Economy Grow**

- Goods exports accounted for 12.0 percent of Indiana's state GDP in 2014.
- Indiana's goods exports have grown nearly two and a half times faster than state GDP since 2004. The average annual export growth during this period was 6.9 percent, while the average annual state GDP growth was 2.9 percent.
- Indiana's top export markets for goods are Canada, Mexico, and China. Its top market for services is Ireland.
- Indiana's goods exports to Italy have grown by 23 percent per year since 2004. Exports to Colombia grew by 22 percent per year, while exports to China grew by 18 percent per year.

www.brt.org/trade
Overview

In 2014, 60 percent ($1.3 trillion) of the products imported into the United States were inputs and components used by American producers. Lower cost inputs keep U.S. manufacturing competitive in international markets. Imports frequently contain components (like cotton or semiconductors) and services inputs (like design) provided by U.S. companies and farmers, including companies and farmers in Indiana.

- Services such as transportation, finance and insurance, marketing, and legal services, are needed to bring imported goods to Indiana’s manufacturers and households.
- In 2013, about 75 percent of identified U.S. importers were very small businesses with less than 20 employees.
- Trade and investment liberalization policies save the average Indiana family of four more than $10,000 per year.
- Imports help keep prices down for Indiana families while increasing their choices for goods and services. Prices for imported consumer goods tend to drop year after year.

Imports Decrease Prices for Goods & Services

-87.0%  Decrease in the Price of Televisions Between 2004 and 2014.
-69.2%  Decrease in the Price of Computers Between 2004 and 2014.
-42.9%  Decrease in the Price of Toys Between 2004 and 2014.

Imports Increase Choices for Goods & Services

www.brt.org/trade
Overview

The United States has some of the lowest trade barriers in the world. Overall U.S. trade with our free trade agreement (FTA) partner countries supports more than 17.7 million American jobs. Trade agreements level the playing field by lowering other nations’ trade barriers, opening up foreign markets to U.S. exports and setting strong, enforceable rules for trade between the United States and those other countries. Indiana has increased its exports to FTA partners following implementation of the U.S. FTAs with those countries.

- In 2014, $20.4 billion of Indiana's goods exports, or 53 percent, went to FTA partners.
- Since 2004 Indiana's goods exports to countries with FTAs in effect with the United States in 2014 have increased by 64 percent.
- Indiana's exports to Canada and Mexico have increased by $13.2 billion (307 percent) since NAFTA went into effect in 1994.
- Indiana's exports to Chile have increased by 522 percent since the U.S.-Chile FTA took effect in 2004.
- Indiana's exports to South Korea of pharmaceuticals & medicines have increased every year, from $275 million to $563 million, since the FTA with South Korea went into effect in 2012.
- Canada bought 92 percent of Indiana's exports of motor vehicle bodies & trailers in 2014.
- Countries negotiating the Trans-Pacific Partnership (TPP) and Transatlantic Trade and Investment Partnership (TTIP) agreements purchased $29.1 billion, or 76 percent, of Indiana's goods exports in 2014.
