

COMET EXECUTIVE

TABLE LINEN/NAPKIN/
PILLOWCASE IRONER

 IRONING

COMPACT IRONER SERIES

HOW IT WORKS

There is no substitute for the appearance and feel that only crisply ironed linen can provide; that an establishment is professional and first class. Comet Executive is designed for a wide variety of restaurant, club, and banquet operations looking for a high output and quality finish of table linen, napkins, and other smaller linen types. Comet Executive's heated roll produces 15 to 20% more finished linen per hour with the highest BTU/heat generation capacity of any compact ironer.

CHICAGO

STANDARD FEATURES

- Oversized heated 14" (350 mm) diameter polished steel cylinder available in 56" (1400 mm), 66" (1600 mm), or 80" (2000 mm) usable width.
- Choice of gas, steam or electric heated cylinder.
- Environmentally safe, temperature resistant Nomex® ironing textiles for long service life.
- Dries and irons tabletops, pillowcases, napkins, and other linen—including 100% polyester, polyester/cotton blends or all-cotton fabrics.
- 10-35 FPM speed range — fastest in its class.
- Input feed conveyor with compression roll.
- Full exhaust canopy with wraparound insulated heat shield and 1/4 HP blower and motor to properly exhaust ironer, meet code requirements, and improve operator comfort in the laundry room.
- Optional premium model with heavy duty chrome plated cylinder and Chicago exclusive OEM upgraded Hy-Lyfe® ribbons for substantially less frequent waxing and longer textile life.
- Offers the same rugged construction, high quality finish, and local support for which Chicago ironers have been known for almost 100 years.

INDUSTRIES

When choosing a flatwork finishing partner, you want a company that has direct experience working with a business like yours. Chicago is that partner. Chicago's machines are designed to save energy, fit within a specific footprint and produce the highest quality linen.
