EQUAL HOUSING OPPORTUNITY. Renderings are artist's concept only and elevation illustrations may include optional features. It is recommended that the architectural blueprints be reviewed for clarification of features. Window sizes, window locations, and room sizes vary per elevation and all dimensions are approximate. Actual product and specifications may vary in dimension or detail from these drawings and are subject to change without notice. Standard features vary by community and some features may not be available at all communities. Please consult a Neighborhood Sales Manager for more detailed specifications. Floorplan images are for illustrative purposes only and are not part of a legal contract.

A note on square footage: Square footage shown is approximate finished living area, measured to the interior face of exterior walls. Totals include finished main and upper levels, and the finished basement where shown. Garages, porches, decks, patios, unfinished storage and mechanical areas are not included. Because this method measures inside the walls, figures may be lower than those calculated by other methods (such as ANSI Z765, which measures to the exterior of the walls) and may differ from appraisal or tax records. Actual square footage varies with elevation, options selected and field conditions. Plans, dimensions, features and availability are subject to change without notice. See a Sales Manager for details
