Contains Airicide®

AIRx[®]

DISINFECTANT CLEANER & ODOR COUNTERACTANT

Mildewstat, Fungicide, Virucide*

RX78PLUS is a one-step neutral disinfectant cleaner that is NOW effective against a broad spectrum of bacteria, is virucidal, is fungicidal and inhibits the growth of mold & mildew and their odors when used as directed.

Cross-contamination is a major concern, not only in hospitals, but also in prisons, institutions, schools and pet care facilities. RX78PLUS has been formulated to aid in the reduction of cross-contamination on treated surfaces. It is EPA registered to

kill HIV-1 (virus associated with AIDS), Hepatitis B & C, MRSA, CA-MRSA, Avian Flu strains and Acinetobacter bacterium. RX78PLUS is recommended as a precleaner and disinfectant where there is a high probability of blood or body fluid exposures with the potential for transmission of HIV-1, HBV and HCV.

RX78PLUS is very concentrated and thus lends itself to convenient packaging, handling, storage and use.

Description

A Concentrated Disinfectant, Cleaner, Mildewstat, Fungicide, Virucide and Odor Counteractant for Hospitals, Nursing Homes, Households and Veterinary uses.

Germicidal Efficacy

When tested at 1 oz. per gallon on hard inanimate surfaces modified in the presence of 5% organic serum and 400 ppm hard water with a 10 minutes contact time, RX78Plus is effective against: Acinetobacter baumannii, Acinetobacter Iwoffii, Enterobacter agglomerans, Enterobacter aerogenes, Enterobacter cloacae, Escherichia coli, Tetracycline Resistant Escherichia coli, Enterococcus faecalis, Listeria monocytogenes, Micrococcus luteus, Tetracycline Resistant Pseudomonas aeruginosa, Salmonella enterica, Salmonella enterica serotype pullorum, Salmonella typhi, Salmonella typhimurium, Staphylococcus aureus, Community Associated Methicillin Resistant Staphylococcus aureus, Methicillin Resistant Staphylococcus aureus, Staphylococcus epidermidis, Antibiotic resistant Staphylococcus epidermidis, Streptococcus agalactiae, Staphylococcus haemolyticus, Streptococcus pneumoniae Penicillin Resistant, Streptococcus pyogenes, Streptococcus mutans, Vancomycin Resistant Enterococcus faecalis, Vancomycin Intermediate Resistant Staphylococcus aureus, Avian Influenza A (H3N2) virus (Avian Reassortant), Avian Influenza A (H5N1) virus, Cytomegalovirus, Hepatitis B Virus, Hepatitis C Virus, Herpes Simplex Virus Type 1, Human Coronavirus, Human Immunodeficiency Virus type 1 (HIV1), Influenza A virus, Respiratory syncytial virus.

Fungicidal Performance: Aspergillus niger, Candida albicans, and Trichophyton mentagrophytes.

DISINFECTANT CLEANER & ODOR COUNTERACTANT

Mildewstat, Fungicide, Virucide*

Benefits

KILLS HIV (virus associated with AIDS) and Hepatitis B & C on pre-cleaned hard surfaces contaminated with blood or body fluids.

KILLS MRSA, CA-MRSA, Avian Flu strains, and Acinetobacter bacterium.

PET CARE - Effective against: Canine Parvovirus - at 4 oz. per gallon, Feline Picornavirus, Canine Distemper Virus, Bronchitis Virus, Canine Coronavirus, Infectious Bovine Rhinotracheitis Virus, Porcine Parvovirus - at 4 oz. per gallon, Pseudorabies (PRV), Transmissible Gastroenteritis Virus (TGE) and Vaccinia Virus.

NEUTRAL pH - Especially formulated to avoid a film on or dulling of high gloss floors.

PORTION CONTROL - Each carton of RX78PLUS contains an Airx MeaSURE device that insures the exact dilution required.

DEODORIZING - Eliminates odors from mold, mildew and decomposition by killing putrefactive bacteria. Neutralizes odors with special Airx Odor Counteractants.

DETERGENCY - Superior wetting and detergency assures excellent cleaning. Cuts through soils that surround bacteria to assist the germicides in reaching the cell wall.

Directions

GENERAL CLEANING AND DISINFECTING - Mix one ounce of RX78 PLUS per gallon of water. Apply liberally with a cloth, mop or sprayer. When removing heavy soil or organic matter, use as above, pick up dirty solution and reclean. Prepare a fresh solution daily or as solution becomes visibly dirty.

For specific applications, follow Use Directions on the product label.

Specifications

ACTIVE INGREDIENTS:

Didecyl Dimethyl Ammonium Chloride5.07%

n-Alkyl (C14 50%, C12 40%, C16 10%)

dimethyl benzyl ammonium chloride.....3.38%
