

Professional Grade
SUB-SURFACE
Odor Counteractant

FORMULA

#85

Contains Airicide®

AIRx

CARPET & ROOM DEODORIZER

Contains Airicide® For Immediate
And Long-Lasting Odor Control.

RX85 is a crystalline compound treated with AIRICIDE®, made primarily to deodorize carpets and to freshen the air around them. It is packaged in convenient shaker cans. Also can be used to sprinkle in cigarette urns, under the cushions of upholstered furniture, etc. RX85 works immediately and because it contains AIRICIDE® Odor Counteractant, it's not just a perfume, you use less and it has staying power for days. It is truly a commercial, institutional grade product and it safeguards

expensive commercial vacuum equipment. It contains no baking soda or cornstarch (as in household products) that can infiltrate and damage the bearings and other mechanical or electrical parts of expensive vacuum cleaners. Unlike household products, the RX85 crystals are colorless and need not be vacuumed up immediately, thus saving considerable time and unnecessary effort.

Description

RX 85 is a non-staining, crystalline compound, treated with AIRICIDE® Odor Counteractant, to be sprinkled on carpets and in other areas harboring unpleasant odors.

Uses

Eliminates unpleasant odors in carpets, upholstered furniture, sand urns, ash trays, smoke filled rooms, automobiles, vans, campers, trucks, taxis, buses, airplanes, boats, refuse containers, compactors, dumpsters, trash chutes, crawl spaces, closets, floor drains, animal quarters, vacuum bags & tanks, etc.

CARPET & ROOM DEODORIZER

Contains Airicide® For Immediate And Long-Lasting Odor Control.

Benefits

- CONTAINS AIRICIDE® - Eliminates foul, musty odors from stale air, from sickness, cigar and cigarette smoking, fire, cooking, animals and pet accidents, etc. A true odor counteractant, not just a mask.
- TIME RELEASE ODOR CONTROL - The AIRICIDE® in RX85 works instantly and is effective for days. First it eliminates odors in carpets and other places where used. Then it cancels odors in the vacuum tank. And finally, the exhaust from the vacuum deodorizes and freshens the air in the entire room.
- COMMERCIAL/INSTITUTIONAL GRADE - Safer for expensive vacuum cleaners. RX85 is not a light powder. It is a heavier crystalline product that contains no baking soda or cornstarch to infiltrate and damage bearings or other mechanical or electrical parts of your vacuum.
- SAVES TIME - Virtually invisible as it immediately settles below the surface of carpet. Need not be vacuumed until much later, if at all. Competitive powders require vacuuming every time used.
- STAYS DRY - Will not "cake" on damp carpets or if walked on with wet shoes.
- MULTI-PURPOSE - In addition to its use on carpets, RX85 is excellent in eliminating foul odors when sprinkled in automobiles, under cushions of upholstered furniture, in cigarette urns, trash and garbage containers, lockers, etc.
- REDUCES STATIC CHARGE - Helps prevent static electrical charge that otherwise can build up in carpeting in cold, dry weather.
- NON-COMBUSTIBLE - Will not support fire. It's safe in storage and safe in use.

Directions

- CARPETS - Sprinkle RX85 over the surface lightly. No need to vacuum immediately.
- UPHOLSTERED FURNITURE - Sprinkle under cushions.
- CIGARETTE URNS - Mix a small amount with sand in the urn.
- REFUSE CONTAINERS - Sprinkle RX85 in waste containers while they are empty, then add a small amount with each deposit of refuse.

Specifications

APPEARANCE.....	crystalline powder
COLOR.....	light gray
PARTICLE SIZE.....	40 mesh or smaller
BULK DENSITY.....	90 lbs. per. cu. ft.
CORN STARCH	none
BAKING SODA	none
SOLUBILITY IN WATER.....	not soluble
FIRE HAZARD.....	none, non-flammable
STAINING.....	none
FRAGRANCE.....	fresh, pleasant
ODOR COUNTERACTANTS	AIRICIDE®
TRACKING WHEN DAMP.....	none
CAKING IN CONTAINER	none
COVERAGE (2 lb. container).....	approx. 2000 sq. ft.
SHELF LIFE	min. 1 yr. in closed container
