

Professional Grade
AIRBORNE
Odor Counteractant

FORMULA

#99

Contains Airicide®

AIRx
®

ALL PURPOSE WATER SOLUBLE DEODORIZER

With Odor Counteractant
Water Miscible • Highly Concentrated

RX99 is fortified with 15% AIRICIDE® to truly erase foul odors, not just mask them. The finished products are highly effective odor counteractants that mix readily with cleaning solutions, rug shampoos, rinse water, etc. or dilute with water for spray applications. The AIRICIDE® changes the size and shape of odorous molecules in the air so they will not be recognized as foul odors when they reach the nose. 15% AIRICIDE® is enough

to freshen stale air and to erase unpleasant odors from cigarette, cigar and pipe smoke and odors from cooking, painting, beer, liquor, etc. The remaining 85% of RX99 formulation is a complex of special cosmetic grade fragrances that leaves a clean, pleasant aroma that lasts long after application. This makes the areas in which the RX99 is used a more pleasant place to stay, to shop or to work.

Description

RX99 odor counteractant is a highly concentrated liquid that erases foul odors and then leaves a fresh natural aroma for all to enjoy. RX99 acts to remove the source of bad odors, while AIRICIDE® merges with odorous molecules already in the air to change their size and shape and make them unrecognizable as foul odors when they reach the nose.

Uses

Counteracts malodors from cigarette, cigar and pipe smoke, from liquor and beer, from cooking, paints, perspiration, stale air, etc. For use in hospitals, nursing homes, office buildings, hotels, motels, clubs, stores and schools.

ALL PURPOSE WATER SOLUBLE DEODORIZER

With Odor Counteractant
Water Miscible • Highly Concentrated

Benefits

PLEASANT ODOR - Leaves a pleasant, fresh, long lasting aroma as evidence that the area has been cleaned.

CONTAINS 15% AIRICIDE® - Not just a pleasant masking agent. Contains enough true odor counteractant to erase common unpleasant odors.

HIGHLY CONCENTRATED - Double the strength of most competitive products.

AN ADDITIVE FOR CLEANING SOLUTIONS - Add 1/2 ounce per gallon of mixed cleaning solutions, rug shampoos, rinse water, etc., to deodorize as you clean.

A SPACE SPRAY - Mix 4 ounces per gallon of water, then spray in the air in a fine mist to deodorize hotel and motel room meeting rooms, offices, etc.

FRESHENS LAUNDRY - Add to your final rinse water to give washables a fresh clean smell. Home washer 1/4 ounces per load; commercial 2 ounces per load.

NON-STAINING - RX99 won't discolor, bleach or harm any fabric, fiber or surface not affected by soap and water.

Directions

AS AN ADDITIVE TO CLEANING SOLUTIONS: Add appx. 1/2 ounce of RX99 per gallon of mixed solutions of floor cleaners, rug shampoo or rinse water.

AS A SPACE DEODORIZER: Mix appx. 4 ounces per gallon of water and spray in air, waste receptacles, cigarette urns, etc.

FOR SICKNESS, HUMAN INCONTINENCE, PET ACCIDENTS, ETC.: Squirt concentrated RX99 directly on source of the odor.

AS A LAUNDRY DEODORIZER: Add to final rinse. In home size washers, use appx. 1/4 ounce per load. In commercial washers add appx. 2 ounces per 100 lbs. of original dry weight of the load.
