

# CREAMEDIC

Premium Hand, Bath & Body Soap

## DESCRIPTION

Creamedic® hand & bath soap is more than just the highest quality soap. It is made from rich lathering coconut oil and natural glycerin which is very gentle to the skin. In addition, CREAMEDIC contains PCMX, which is a proven anti-microbial agent.

## BENEFITS

**PREMIER QUALITY:** In every respect, this is the finest quality liquid hand & bath soap available, whether chosen for its hygienic effectiveness, or just because it is so nice to use.

**RICH LATHER:** Made with natural coconut oil, still recognized as producing the most copious, most stable suds of all soap ingredients.

**IT'S LOTIONIZED:** Coconut oil contains glycerine that is often extracted and sold separately. The glycerine is left intact in Creamedic soaps for their skin softening ability.

**HIGHER SOLIDS:** Liquid hand soaps typically are 12 to 15% solids. Our premier Creamedic brand is 22% solids.

**PLEASANT FRAGRANCE:** Made with cosmetic grade fragrance that appeals to both men and women but dissipates so not to linger or overpower.

## HOW TO USE

1. Wet hands and apply soap. 2. Rub hands together vigorously to develop lather. Cover and scrub all surfaces including under finger nails. 3. Continue as above for 10-15 seconds. 4. Rinse hands under running water. 5. Dry hands with a clean, single use towel.

Avoid touching fixtures with clean hands. 6. Cover hand with towel to turn off faucet. Dispose of towel..

## SPECIFICATIONS

BASIC COMPONENT.....	Coconut oil
LOTIONIZING COMPONENTS....	Glycerin & lanolin
NON-AQUEOUS TOTAL.....	22% ± 0.5
pH.....	10.5 ± 0.5
COLOR.....	Pearlized pink
