

RINZ-FREE

No Film Neutral Floor Cleaner

DESCRIPTION

A highly concentrated liquid cleaner made especially to maintain “wet look” floors. Rinz-Free has a neutral pH to clean without penetrating the floor finish or even hurting its gloss. Special detergents leave no dulling film or haze but actually restore the luster of floors that have started to dull.

BENEFITS

NO FILM CLEANING: Special detergents lift and suspend soil so that it will not redeposit and thus requires no rinsing.

ECONOMICAL: Highly concentrated, just an ounce or two per gallon of water removes heavy soil, therefore saving you money.

ENHANCES GLOSS: Not only does Rinz-Free not dull “wet look” floors and other shiny surfaces, but actually restores the luster to surfaces that have begun to dull.

NEUTRAL pH: Safe on any surface not harmed by water alone. A true all purpose cleaner.

HARD WATER TOLERANT: Effective in hot or cold, hard or soft water.

HOW TO USE

FOR DAMP MOPPING: Mix approximately 2-4 ounces of Rinz-Free per gallon of water. Apply as you would an ordinary cleaner, but there’s no need to rinse.

FOR AUTOMATIC SCRUBBING MACHINES: Mix approximately 1-2 ounces of Rinz-Free per gallon of water in the solution tank. Apply, scrub and pick-up as you would ordinary low-foam cleaners. No need to rinse.

FOR GENERAL CLEANING: Depending on the level of soil, mix two to four ounces of Rinz-Free per gallon of water. Apply liberally with a mop, cloth, sponge or sprayer, but do not flood. Allow solution to stand a minute or two, then remove. Rinsing is not necessary.

SPECIFICATIONS

APPEARANCE.....	Turquoise blue liquid
ODOR.....	Pleasant
SPECIFIC GRAVITY.....	1.010 ± 0.005
DENSITY.....	8.43 ± 0.05 lb/gal
BOILING POINT.....	Near 212°F
pH.....	7.0 ± 0.5
Flash Point.....	None to boiling
STABILITY.....	One year minimum
USDA RATING.....	C1

PRODUCT CODE.....NUC
