

PREMIER

Best Quality Liquid Dishwashing Detergent

DESCRIPTION

A truly premier detergent. Produces long lasting suds and continues its superior cleaning in hot or cold water in the presence of heavy, greasy soil. Yet, it is gentle enough to wash delicate fabrics and is kind to the hands with long exposure. A little Premier goes a long way.

BENEFITS

ECONOMICAL: Premier detergent has superior ability to emulsify and rinse away greasy deposits from pots, pans, dishes, etc. and to maintain its suds to do more cleaning.

BUILT-IN RINSE AID: Hand drying is not necessary. Washed articles drip dry without spotting or streaking.

MULTI-PURPOSE: Not just for washing tableware. Premier is excellent also for hand washing of clothing, windows, vehicles, etc.

KIND TO HANDS: Neutral pH so as not to harm the skin or delicate fabrics.

BROAD EFFECTIVENESS: Works well in hard or soft, hot or cold water.

HOW TO USE

For best results, pour the amount of liquid detergent needed into the sink or pan and fill with water at full force to produce billowy, quick cleaning suds.

Sponge items clean, rinse thoroughly with clear water and allow to dry.

DISH WASHING: Dilute 1 ounce per 2 gallons of water.

GLASSWARE: Dilute 1/2 ounce per gallon of water.

POTS AND PANS: Use 1/2 ounce in each pan, fill with hot water, let stand while washing other items.

DELICATE FABRICS: Use 1/2 ounce per gallon of water, soak and rinse with cold water.

WINDOWS: Dilute 1/2 ounce per gallon of water.

AUTO WASH: Dilute 1/2 ounce per pail of water, wash small sections and rinse thoroughly.

SPECIFICATIONS

APPEARANCE.....	Slightly viscous liquid
ODOR.....	Mild citrus
SPECIFIC GRAVITY.....	1.100 ± 0.005
DENSITY.....	9.18 ± 0.05 lb/gal
BOILING POINT.....	Near 212°F
pH.....	7.0 ± 0.5
Flash Point.....	None to boiling
STABILITY.....	One year minimum

PRODUCT CODE.....PRD
