

TIDY TIM

Bathroom Cleaner For Porcelain, Tile, Enamel & Metal

DESCRIPTION

A high-powered combination of deep cleaning detergents fortified with safe to handle acids for the removal of soil and scum too tough for ordinary cleaners. It restores luster and brightness to shower stalls, bathroom tile, grout, drinking fountains, glass, bathtubs, sinks, toilet bowls, urinals, quarry tile, chrome, brass, stainless steel, etc. This product powers through hard water stains, lime deposits, soap film, rust stains, mildew, oxidation, corrosion, etc.

BENEFITS

- Eliminates film, lime deposits, etc.
- Restores luster and brightness.
- Safe for fittings & ceramic tile.
- Makes drinking fountains shine.
- Removes oxidation & rust stains.
- Use full strength or dilute.
- Fortified with safe to handle acids.

HOW TO USE

Use full strength to remove heavy accumulations of grime. Once a surface has been restored to a like new appearance, the cleaner may be diluted with up to five parts of water for regular use. Sinks, fittings, drinking fountains, supply pipes - Spray on, wipe with a damp cloth or sponge. Polish with a dry cloth or a paper towel. Toilet bowls & urinals - Spray inside & out, paying special attention to the area under the flush ring. Wipe with a bowl mop or clean cloth. Flush toilet or urinal for complete rinsing.
