Information We Collect from Children:

While children can access certain parts of Buncee without providing us with personal information, most content and features are available only to registered users and require us to collect certain information, including personal information, from them. In addition, we use certain technologies, such as cookies, to automatically collect information from our users (including children) when they visit or use Buncee.

We only collect as much information about a child as is reasonably necessary for the child to participate in an activity, and we do not condition his or her participation on the disclosure of more personal information than is reasonably necessary.

Information We Collect Directly:

A child must provide us with the following information to register for Child Accounts: the child's first name, last name, date of birth, and a parent's email address. We also require the child to create a username and password. We may request additional information from your child, but this information is optional. We specify whether information is required or optional where we request it.

When an educator registers a child under a Student Sub-account, the following information will be provided about the child by the educator: the child's first name and last name, as well as a username and password. When a district or school administrator registers for a Buncee Schools & Districts account, student accounts are created by syncing Google Classroom roster data with Buncee, or by manual upload via CSV, and automatically pulls in the child's first name, last name, username, and password.

Parents must complete the registration process for their children with respect to Child Accounts, and educators must complete the registration process for their students with respect to Student Sub-accounts. When we receive a request from a child to register for a Child Account or from a district/school or an educator to register a child for a Student Sub-account, we will provide direct notice (the "COPPA Notice") to the parent, administrator, or educator, as applicable, via email in accordance with COPPA to, among other things, notify the parent/administrator/educator of the following:

(a) that, with respect to Child Accounts, we have collected the parent's online contact information and the child's name from the child for the purpose of getting the parent's consent to collect, use or disclose personal information from the child;

(b) that verifiable consent from the parent is required for Buncee's collection, use or disclosure of the child's personal information;

(c) that Buncee will not collect, use or disclose personal information from the child if the parent does not provide consent;

(d) what additional personal information we intend to collect from the child and how we may disclose the information to others;

(e) how the parent/educator can access this Privacy Policy;

(f) how the parent can give verifiable consent; and

(g) that if the parent does not give consent within a reasonable time, we will delete the parent's and child's online contact information from our records.

Before the collection, use or disclosure of personal information from children, we will request verifiable consent from parents. To provide us with verifiable consent, the parent must, among other requirements,

(a) click on the registration verification link contained in the COPPA Notice;

(b) provide or confirm information, including limited, basic, personal information about themselves and their children, as prompted by our registration processes;

(c) agree to abide by our Terms and Conditions and to ensure that any use of Buncee by their children does not violate our Terms and Conditions;

(d) review and edit their child's username to ensure that no personally identifiable information is present in the child's username;

(e) review and consent to Buncee's practices with respect to collecting and using personal information from children under 13 as specified in the COPPA Notice and this Privacy Policy; and

(f) print and sign our consent form and return it to us by (1) mailing the signed consent form to Buncee LLC, SBU Calverton Business Incubator, 4603 Middle Country Road, Calverton, NY 11933, (2) faxing the signed consent form to 631-591-1389, or (3) scanning and emailing the signed consent form to privacy@buncee.com.

Children may not use Buncee until we receive and process this verifiable consent. If we determine that a user is under 13 and we have not received a signed consent form from this child's parent, we will take steps to delete all or virtually all content posted by the user and take reasonable technical measures to delete all or virtually all stored user information about the user from our records, in compliance with applicable laws.

Please Note: Where a district/school administrator or an educator registers its students for Student Sub-accounts, we will not obtain verifiable consent directly from parents, and will presume that the district/school administrator's or educator's registration for such accounts and authorization for the collection, use and disclosure of students' personal information is based upon the district/school administrator or educator having obtained the parents' consent. In this regard, the district/school administrator or educator will act as the parent's agent and consent to the collection, use and disclosure of children's personal information on the parent's behalf.

Further, before sharing, publishing, or allowing a student to share information such as personal photos, videos, or audio of the class, individuals, or groups of students, the district/school administrator or educator represents and warrants that the school has acquired parental consent to use his/her child's images/voice. In addition, it is the responsibility of the district/school administrator or educator to comply with its obligations under COPPA, the Family Educational Rights and Privacy Act ("FERPA") and the Protection of Pupil Rights Amendment ("PPRA"), as well as all relevant state laws, with respect to its collection, use and disclosure of personal information from children. For more information on COPPA, please click [here](#), and for more information on FERPA and PPRA, please click [here](#).
