All Buncees created by the educator can be set as "Copyable". A Copyable Buncee gives other Buncee Schools & Districts users within the school or district, complete permission to copy such Buncees into his or her own profile, edit this Buncee copy along with its contents and information, and / or alter its Post Settings including Privacy, Comments and Copyable. Buncee Schools & Districts subscribers within the school or district will not be able to alter or edit the educator's original Buncee creation; they will only be able to alter or edit the duplicated copy of the educator's Buncee. Buncees that are set as Copyable can also be used under our Clip & Stitch feature. Buncees set as Copyable can be Clipped & Stitched by other Buncee Schools & Districts subscribers within the school or district. Your private Buncees set as Copyable can only be Clipped & Stitched by you - the creator of the Buncee - by the student sub-accounts if submitted by the educator as an assignment, or any Buncee Schools & Districts subscribers within the school or district whom have received a copy of your Buncee via email. You can turn off and on the Copyable setting at any time, but any copies that were created during the time which it was set as Copyable cannot be revoked, unless provided herein.

Buncee Boards: Buncee Schools & Districts users have the ability to create Buncee Boards. A Board is a collection of Buncee resources in one place, and allows for class collaboration and interaction. The creator of the Board can choose the privacy settings of the board: which users, if any, can Subscribe to the Board, which users, if any, can add Buncees to the Board, which users, if any, can add comments and/or reactions to Buncees within the

Board, and if other Buncee users can copy the Board. These users can Subscribe to the Buncee Board to then be notified of any new Buncees added, comments made, or reactions shared on the Buncee Board. Students and teachers can subscribe to Boards to keep up to date on any changes made.

Additionally, the Board creator can moderate comments by enabling the Require Approval feature in order to review and approve comments prior to them posting. Comments and reactions are specific to the Board. Comments and reactions posted on Buncees within the Board will not carry over to the individual Buncees in a user's account.. Buncee Boards can be made public or private, as desired. A public Board can be viewed when shared via email, social media, or URL,
