To customize a Keynote template, follow these steps: This tutorial uses the Pitch Werk keynote template. This is a modern and elegant template with more than 100 unique slides that are perfect for any type of presentation. 1. The first tip to select a slide is how to select the slide you want to use. As mentioned earlier, pitch werk templates provide more than 100 slides. Lots of pitch decksThe templates available in the Envato element offer this wide choice. You probably don't need to use all of these slides. Therefore, selecting the items you want to use and deleting the rest will make the rest of the editing process easier. To remove unwanted slides, right-click the slide and select Delete. 2. Enter content Once you've got all the slides you're going to have, enter the content. All you have to do is double-click on the text area, press CMD+A to select all the existing demo text, and start typing. 3. Customizing fonts It is easy to edit fonts with keynotes. You don't have to do it separately for each slide and text area. Click any text area on the slide to start. A window opens in the Inspector window where you can change the font and size of the text. Make the necessary changes, and then click the Update button next to the paragraph style that you want to update. The paragraph-style font is updated throughout the presentation. For example, as you can see in the screenshot below, I updated the title small 2 of slide 12 from Montserrat to Lora. Click the Update button to change the entire presentation. 4. Change colors Once you've customized your fonts, it's time to spice up your presentation and customize and brand your colors. To change the color, click the colored element and select another color from the Styles tab in the Inspector panel on the right. Choose from keynote's built-in colors and enter your own HEX code using the color picker, as you did on Slide 4. 5. Add an image The last step is to add an image. The pitch werk template comes with a placeholder for the image, so make this easy. You need to drag the image from your computer and drop it into one of the placeholders, as you did on slide 6. What is the best pitch deck template slide to use in keynotes? Let's take a look at these five from the Envato Elements library of pitch presentation templates: 1. Team Introduction Slides really tell potential investors what your team can do when throwing your company. The Unbeas pitch presentation includes a stunning team intro slide. So it's a great idea to start a pitch presentation on your team's intro slide. Names, easy biographies and photos go a long way to building personal connections. 2. SWOT slide for competitive analysis chance, your company will work in a competitive environment. Potential investors need to know to look at the competitiveness around you - both good and bad. This pitch presentation Keynote will help you map your competitive environment. SWOT slides show strengths, weaknesses, opportunities, and threats. Take a look. And don't forget to visit the Envato elements for the best keynote pitch presentation templates available today! 5 Quick tips for better keynote pitch decks Once you've selected your favorite Keynote pitch deck template, it's time to customize it for your business. Here are some tips to help you create slides. They will help you inspire the audience and get you back on track. 1. Hit your goal early with a slide like this from Pitch Werk early to advance your best foot. You need to share hundreds of accurate data points. But if your audience doesn't know your purpose (the driving force behind your business), why are they encouraged to join the journey? 2. Customize the font each keynote template uses various fonts. However, these can be easily changed with keynotes. Draw attention to words very easily by changing the design of your text. And don't forget the Envato element offers a great font that you won't find elsewhere. Use custom fonts to make your business pitch presentation stand out. Use these Keynote business templates to show data that shows your data and actually drive your goals to the market. There is nothing duller than writing numbers in text. Even simple data has the advantage of illustration. That's where infographics come in. Infographics are a visual representation of data and ideas. Use them to paint with information to inspire and inform your audience. 4. Regardless of which pitch deck template you use for keynotes that use different layouts, it may have a different layout for each type of slide. You can take advantage of this to add visual appeal to your pitch deck and continue to captivate your audience throughout your presentation. Use the layout from the template in your pitch presentation for a simple design. Accept blanks Make a blank for your friends. Leaving enough white space around elements such as images and text will make your presentation look better. In addition, it makes it easier for viewers to focus on the message they're trying to convey. Use white space (sufficient margins between items) in your business pitch presentation to make it easier to read.
