

C35

Model Name: Q

Model Reference: C35

Designer: Sal Glesser

MSRP: \$49.95

Description: The Spyderco Q was made as a affordable and lightweight knife with a laster cut blade that was made from 440C stainless steel. The Blade was available to be custom cut with your company logo on it or other design if you comissioned a certain number of blades produced. There exist at least 50 different cutout variations for the blade, not including blade edge variations and handle color variations. The spring lock is unique and patented, though not very reliable. The knife was originally called the Silhouette.

Blade Length: 2 1/2"
