

MENSA HEATING®

MAKES YOU WANT TO STAY

Statio

Standing table

Season Extender

Specification Sheet

Statio - Standing table

Unique design and space saving

The new outdoor heater Statio is built as a standing bar table, that can be bolted to the pavement/floor for a stationary position. Statio creates a nice relaxed station for a short outdoor break to enjoy a cup of coffee or a drink. With Statio you have an outdoor heater that radiates a pleasant heat and at the same time a beautiful standing bar table.

Thoughtful

Statio creates a comfortable "rest stop", outside the restaurant. Statio can be free standing or bolted directly into the subfloor.

Plug and Play

Statio requires no preparation. Simply connect the product to a power outlet and you have instant heat.

Heat Radiation - 700 watt

Measurements in, windless conditions with a surrounding temperature of 16,5°C

Specifications - Statio standing table

- **Design**
Mikael Mammen
- **Description**
Statio standing table with integrated electrical powered infrared heat. Intended to extend your outdoor season from spring to fall. Statio is fitted with an On/Off switch, and 5 meter power cable. Aluminium feet and high temperature plastic tube (heat protective). Available in black and white.
- **Heat specification**
Statio is designed to heat up to 3 persons standing around the table, using a 700 watt short wave infrared heating bulb. The bulb is placed inside the leg of Statio, in a aluminium tripolar lamp house.
- **On/Off switch**
Placed on the side of the table leg (1)
- **Heat protective grid**
The grid in front of the heating lamp, is designed to be safe to touch (2)
- **Adjustable feet**
Fitted with adjustable feet (3), which levels out the table when placed on uneven ground
- **Ventilation holes**
In the top of Statio (4) there are ventilation holes which keep Statio cool when in use
- **Power Supply**
Statio is powered with 230 ~ AC 50 HZ
- **Cables**
Statio is fitted with a 5 m power cable
- **Power outlet requirements**
Mensa Heating's products must be connected to a power outlet with ground (GND)

- **Weight**
11 kg without tabletop
- **Measurements**
110 cm x 55 cm
- **Power consumption**
700 watt
- **Bulb Rated lifetime**
5-7000 hours
- **Surface finish**
Colors Powdercoated (foot) full dyed plastic (tube) Chrome (grill)
- **IP Rating**
IPX4

**- Tabletops**

Vireoo can be fitted with most kinds of tabletops following these guidelines

- Maximum size 70 cm x 70 cm / Ø70 cm
- Maximum weight 15 kg
- Resistant to heat minimum 80°C (bottom side against top bracket, warm air)

- Important instructions / Warning

Read all instructions before using this heater

- Keep combustible materials like furniture, pillows, papers, clothes away from the heater
- To disconnect heater, turn controls to off, then remove plug from outlet.
- Always unplug heater when not in use
- To prevent a possible fire, do not block air intakes or exhaust in any manner. Do not use on soft surfaces, like a bed, where openings may become blocked. (2),(4)
- Do not use with a tablecloth that extends more than 5 cm over the table edge.
- Do not place bags or other objects in such a way that they block the grid. (2)
- Do not insert or allow foreign objects to enter any ventilation or exhaust opening as this may cause an electric shock or fire, or damage the heater. (2),(4)
- Connect the product only to outlets with ground.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capacity unless they are supervised and instructed by a person who is responsible for their safety.
- Do not place the heater directly below a power outlet
- This heater is not intended for use in bathrooms, laundry areas and similar indoor locations. Never locate heater where it may fall into a bathtub or other water container.
- Do not operate heater with a damaged cord or plug or after the heater malfunctions, has been dropped or damaged in any manner. Discard heater, or return to authorized service facility for examination and/or repair if this occurs
- Do not run cord under carpeting. Do not cover cord with throw rugs, runner, or similar covering. Do not route cord under furniture or appliances. Arrange cord away from traffic areas.
- Do not use it in areas where gasoline, paint, or flammable liquids are used or stored
- Always plug heater directly into a wall outlet/receptacle. Never use with an extension cord or relocatable power tab (outlet/power strip)
- This heater includes an overheat protector that turns off the heater if it is getting excessively hot. If the overheat protector turns off the heater, immediately turn the heater off and inspect for any objects on- or adjacent to the heater that may cause high temperatures.
DO NOT OPERATE THE HEATER WHEN OVERHEAT PROTECTOR IS ACTIVATED.
- Use this heater only as described in this manual. Any other use not recommended by manufacturer may cause fire, electric shock, or injury to persons.
