Wiring for 1961-1967 VW Beetle Windshield Wiper Switch

141955517 Windshield Wiper Switch, Two Speed: (product/141955517.html)

VW Bug 1961-1967

The two speed wiper switch can be used on any 1 speed motor. Use the information below to assist with the wiring. Replacement Wiper Switch Terminal Definitions:

- 30 - POWER FROM FUSE BOX
- 31 - CHASSIS GROUND
- 31B - SWITCHED GROUND TO WIPER SWITCH
- 53A - PARK POSITION (54 on early model wiper motors/switches)
- 53 - SPEED 1 (54D on early model wiper motors/switches)
- 53B - SPEED 2

(graphics/00000001/Terminal-ID-141955517.jpg)

Some wiper switches or motors may have only 2 or 3 terminals. Wire up your original motor to the terminals or their cross over number listed above.

VW Bug Windshield Wiper Parts 1958-1964

JBUGS is proud to offer a complete selection of 1958-1964 VW Bug Windshield Wiper Parts. Our Windshield Wiper Parts feature wiper arms and blades, rubber refill inserts, wiper shafts, motors and windshield wiper switches.

Our early VW replacement windshield wiper blades are made in Brazil and should be replaced every 6 to 12 months. If your current wiper blades leave streaks or gaps of water on your windshield, or if you hear a squeaking or chattering noise, it may be a sign that your wiper blades need to be replaced.

Our rebuilt Volkswagen wiper motors are cleaned, re-wired, and built to work just like brand new. A refundable core charge will be applied to ALL wiper motor rebuilds. This charge is refunded once your core is received. In some cases, we will need to rebuild your existing motor due to a lack of cores.
