

Jeff Smuck CF
2487 Knoll Ridge Trl
Winterset, Iowa 50273

I've been working on JJ for almost a year. When I 1st worked on her, she had come home from trainer sore. Was just trimmed too short. She bounced back pretty quick. What I have found to help her stay comfortable is an Aluminum shoe with a wedged leather pad w/section cutout to leave her frog exposed. Kept her setup with that since last summer and she has been very comfortable.
