Safer Charging and Storage Solutions.
CellBlock Battery Cabinets
Store Batteries with Confidence
CellBlock cabinets are a superior solution for the safe storage of lithium-ion batteries and devices containing them. This robust cabinet is manufactured from aluminum and lined with CellBlock’s proprietary fire proof composite and patented fire panel. CellBlockEX technology ensures both insulation and fire-suppression capabilities.

Enhance Workplace Safety
CellBlock cabinets can accommodate damaged, defective or prototype batteries. With the addition of optional 110V outlets, the cabinets will also provide a secure means to charge tool and equipment batteries.

Simply Brilliant Extinguishing System
- Gravity-fed CellBlockEX extinguishing system is built into the shelf construction
- Constructed with CellBlock’s high-temperature composite liner within an aluminum frame
- Extinguishing system is rechargeable

What is CellBlockEX?
CellBlockEX® is a proven dry fire-suppressant granulate capable of halting thermal propagation in devices, batteries, and cells.
- Environmentally-friendly and sustainable — made from 100% recycled glass
- Lightweight and absorbent
- Free from crystalline silicate and asbestos
