

During the week we have 20 - 25 class sessions, and a major field trip to historical sites such as the Lexington Green where the "shot heard 'round the world" was fired, or the Concord Bridge and its famous sculpture of the Minuteman just at the instant where he lets go of his plow to shoulder his rifle.

Recreational activities range from chess to sports, plus swimming, canoeing, and kayaking on the lake, optional field trips, and hikes. The camp newspaper, by and for the campers, is normally distributed at the last break of the day.

Nightly campfires typically involve lots of good humor, instrumentals, group and solo songs, recitations and skits down on the beach or overlooking forested hills....

We exist... that the knowledge and blessings of liberty be passed on...

Our camp was established to assure that the principles of liberty are learned and passed on from generation to generation. To that end, we bring together dedicated and inspiring speakers to hold a week-long summer camp for whole families as well as for individual campers ages 12 to 20.

Camp Constitution was formed in 2009 on a 39-year-old foundation. We are volunteers in unincorporated association.

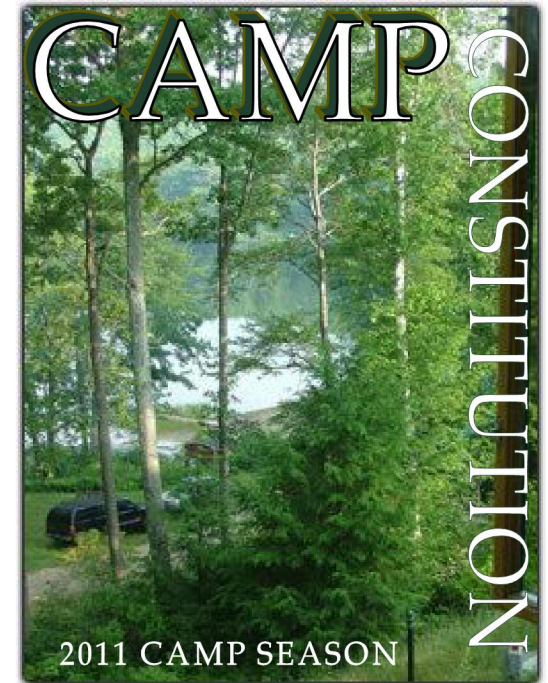

We continue a long tradition of meeting at the beautiful Toah Nipi Christian Retreat Center among the birch and pine woods of Rindge, in southern New Hampshire near Mount Monadnock.

The motto here is "Live Free or Die!"

WE LEARN HOPE THROUGH HISTORY...

Following the ratification of our Constitution in 1788, free enterprise and sound money worked to create the greatest expansion of wealth and progress the world has ever known!

Now, the world suffers from what appears to be engineered economic instability - enabled by foreign aid and foreign policy from our country.

Multinational corporations, banking, and government bureaucrats involved in the affairs of other nations are changing the American Dream into a world-wide nightmare.

We expose abuses that have brought our nation and its economy so far down. We offer logical solutions to restore basic morality and build understanding of the principles of law and good governance needed to reclaim America!

We use real-life examples from history to give hope, and discussion to counteract negative influences from the world around us.

STAMINA AND AGILITY from recreation, and...

Afternoon recreation times allow for assorted activities to build physical and mental stamina and agility. We also encourage intelligent conversation among campers of all ages.

We enjoy our natural surroundings during the day, from flag-raising as the sun comes over the trees, to afternoon contests, sports, and hikes, to evening starlight.

"WE HAVE FUN, MAKE FRIENDS AND LEARN THINGS..."

"It's one week out of the year where I'm surrounded by intelligent people. I wouldn't want to miss it!"

"My parents met at Camp, and I've made some really great friends since I've been coming here!"

"Thank you for helping me to learn so much in a short time. I want to be a counselor when I'm old enough!"

"I really like the food! And my friend who has a special diet can bring his own and nobody makes fun of him."

We publish a daily newspaper featuring the many and diverse talents of our campers. We both document and spoof what we do.
