WE LEARN HOPE THROUGH HISTORY...

Following ratification of the United States Constitution in 1788, free enterprise and sound money served to create the greatest expansion of wealth and progress the world has ever known!

Now the whole world suffers from engineered economic instability – enabled by U.S. foreign aid, and bad foreign policy notions coming from our country.

Multinational corporations, big banking, and government meddling with other nations have changed hope, and the “American Dream,” into a world-wide nightmare.

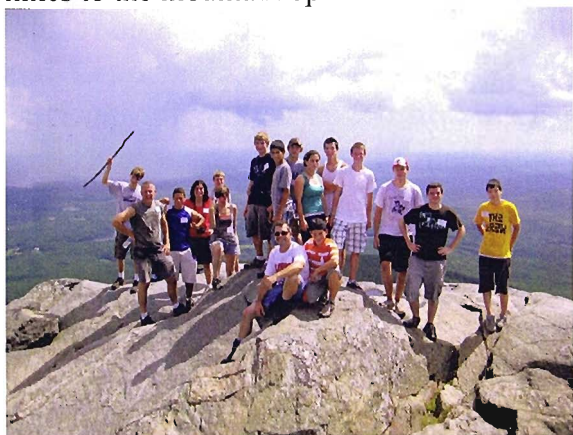

We expose the abuses that have brought our nation and its economy so far down.

We offer logical solutions, ways to restore basic morality and to build understanding of principles of law and good governance which are needed to reclaim America!

We use real life examples from history (Horatius at the Bridge, Valley Forge; Corrie TenBoom’s amazing mission during WWII – and afterward; Victor Herman’s survival of Soviet death camps to his speaking out in America; and the widespread rise of true Americans today...) **to offer hope.** Our discussions bolster us against the negativity of the world, and inspire us to seek truth and a greater devotion to freedom under God.

STAMINA AND AGILITY FROM RECREATION...

We enjoy our natural surroundings all day – from flag-raising as the sun comes over the trees, through afternoon sports or hikes to the mountaintop.

We also encourage campers of all ages to join together for intelligent discussion, to write articles or do artwork for the paper, and take lots of photos to hold treasured memories!

Evening campfire makes the perfect transition from the rigors of the day, expressed in song and skit, to the quiet of night, foreshadowed by devotions and the haunting rendition of *Taps* as our final song.

WE HAVE FUN, MAKE FRIENDS, AND LEARN THINGS....

“It’s one week out of the year where I’m surrounded by intelligent people. I wouldn’t want to miss it!”

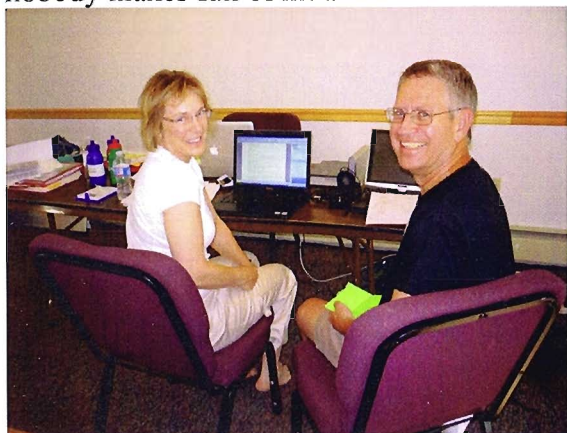

“My parents met at Camp, and I’ve made some really great friends since I’ve been coming here!”

“Thank you for helping me to learn so much in a short time. I want to be a counselor when I’m old enough!”

“We need a two-week camp! I learn so much here compared to the public school I go to, it’s like I have to wait all year to learn anything!”

“What we learned here, we’ll remember all our lives!”

“I really like the food! And my friend who has a special diet can bring his own and nobody makes fun of him.”

“We publish a daily newspaper to feature the many talents of our campers. We both document and spoof what we do here.”

During the week we have 20 - 25 class sessions, and a major field trip to historical sites such as the Lexington Green where the “shot heard ’round the world” was fired, or the Concord Bridge and its famous sculpture of the Minuteman just at the instant when he lets go of his plow to shoulder his rifle.

Recreational activities range from chess to sports, plus swimming, canoeing, and kayaking on the lake, optional field trips, and hikes. The camp newspaper, by and for the campers, is normally distributed at the last break of the day.

Nightly campfires typically involve lots of good humor, instrumentals, group and solo songs, recitations and skits down on the beach or overlooking forested hills behind the main lodge.

WE EXIST THAT THE BLESSINGS OF LIBERTY BE SECURED....

Our camp was established to assure that the principles of liberty are learned and passed on from one generation to the next. To that end, we bring in dedicated inspiring speakers to hold a one-week summer camp for whole families as well as for individual campers ages 12 to 20, more or less.

Camp Constitution was formed in 2009 on a foundation of 40-some years. As volunteers in unincorporated association, we continue a long tradition of meeting at beautiful Toah Nipi Intervarsity Retreat Center among the birch and pine woods of Rindge, in southern New Hampshire.

The motto here is "*Live Free or Die!*"
