Camp Constitution 2018 is our 10th anniversary year. We welcome all our campers and Staff to a brand new location. ★

On this Day in History: An electric traffic light was developed in 1912 by Lester Wire, a policeman in Salt Lake City, Utah, who also used red-green lights. On 5 August 1914, the American Traffic Signal Company installed a traffic signal system on the corner of East 105th Street and Euclid Avenue in Cleveland, Ohio.

Welcome to Camp Constitution's 10th Annual Family Camp. We celebrate our 10th year in a new facility. We thank Lakeshore for their hospitality.

Once again we have a tremendous group of instructors including Professor Willie Soon, one of the world's top climate realists, Dr. Duke Pesta, an expert in the Education and a reknowned critic of Common Core. Returning this year is a camp favorite Mrs KrisAnne Hall who will enlighten us on American Government and the Constitution.

Camp Constitution Director

We are blessed with a number of new campers and families. Please make them feel welcomed. **Senior campers:** I expect that you will take leadership roles helping out the counselors. **New campers:** In order to have a great camp experience, you should take advantage of what the Camp has to offer. Write an article for the camp paper. Go on the morning run or swim. Ask questions in class. Take in an afternoon workshop. Participate in the chess tournament. Go on the hike. Make friendships that will last a lifetime. This week is the highlight of my family's year. If it isn't already, we hope it will be yours too. ★

CABIN ★ INSPECTIONS

Did I read that right?

Yes there are daily cabin inspections. Obviously, the inspectors are looking for clean and tidy quarters, however, the returning campers will show you how to really rack up the points. Traditionally, the campers who most creatively capture the spirit of our camp through theme based decorations, tasteful humor, and patriotism score **big** in the contest. Make it fun! **Hint:** The inspectors are not above the occasional bribery attempt. ☺ Points from 0-10 are awarded each day for your participation in this contest. At the end of the week the cabin with the most points will get **"FREE PIZZA"** during the pizza party.

Newspaper Participation

The newspaper is looking for lecture reviews, free-time fun stories, campfire tidbits, lake-front occurrences etc. Who, what, where, how, why and when are the concepts to keep in mind as you write your stories. Last year the newspaper was lacking in details on the following recurring events: Flag participants including Scripture reading and grace before meals. Also, don't forget polar bear and morning run as well as campfire participants. We also want to see direct quotes from our speakers.

Your cabin will earn 0-2 points each day for your submissions during the week. Your participation will require submissions from multiple campers on multiple topics. Quality, quantity, number of submitters and diversity of topics are the four criterion on which your bonus will be awarded 0-.5 points in each criterion per day. If multiple cabins cover the same topics, the Editor of the newspaper may combine the stories and weave the details but credit will be awarded whether the story is used or not. The bonus is 1/6 or 17% of your total points. Make sure all newspaper submissions have your name and cabin number on them so your team gets credit for the contribution. The bonus will be a running total updated daily.

Visit the news office for a list of story options or create your own.★

DAVE KOPACZ

Dave was born and raised in Western Mass. He has a degree in environmental sciences from the University of Massachusetts, Amherst. He serves as The Town of Ware's Environmental Officer where the protection of private property is his first priority. He has conducted numerous presentations exposing Agenda 21. He is the host of the radio show "Red Pill Politics". He also served as President of the Massachusetts Republican Assembly (MARA) a member of the National Federation of Republican Assemblies (NFRA). ★

Lord Christopher Monckton

Christopher Monckton, Third Viscount Monckton of Brenchley, has held positions with the British press and in government and as a press officer at the Conservative Central Office. He is a policy advisor to The Heartland Institute. Lord Monckton was Special Advisor to Margaret Thatcher as U.K. Prime Minister from 1982 to 1986.

In 1986 he was among the first to advise the prime minister that "global warming" caused by carbon dioxide should be investigated. Two years later she set up the Hadley Centre for Forecasting: but she, like him, later changed her view.

On leaving 10 Downing Street, he established a successful specialist consultancy company, giving technical advice to corporations and governments. The first of his two articles on global warming in The Sunday Telegraph in November 2006 crashed its website after attracting 127,000 hits within two hours of publication.

A speech by Lord Monckton to 1,000 citizens of St. Paul, Minnesota in October 2009, in which he drew public attention to a then little-known draft plan by the U.N. to establish an unelected world government at the (now-failed) climate summit at Copenhagen in December 2009, received 1,000,000 YouTube hits in a week – thought to be the fastest-ever YouTube platinum for a political speech. Some five million have now seen the presentation on various websites.★ <https://www.heartland.org/>

Mrs. Bonnie Wilder

Mrs. Bonnie Wilder spends her summers in Wayne, Maine and her winters in Beverly Hills Florida. She taught music in the Chelmsford, MA public schools for 30 years before she retired in 2004. In her retirement, the Daughters of the American Revolution (DAR) appointed her the Constitution Week Chair of the State of Maine. As such, she created child-friendly materials and lessons to teach young children about the Constitution. Mrs. Wilder is now the Educational Resource Chair for Maine DAR, a position created by the National Society of the DAR to assist teachers and youth leaders. The new resources allow anyone to use lessons submitted by and for teachers, which feature American history, civics and patriotism, in addition to materials for September 17-23 Constitution Week studies.★

Dr. Willie Soon

Dr. Soon earned his bachelor's and master's degrees in science and his Ph.D. in aerospace engineering from the University of Southern California. He was a speaker at the Heartland Institute's 9th International Conference on Climate Change, a gathering of many of the world's top climate scientists and researchers who challenge the IPCC's increasingly discredited claim that human activity is causing a global crisis that demands draconian global regulations under an increasingly powerful United Nations.

Born in Malaysia, Dr. Soon immigrated to the US in 1980. In 2004, he received the Petr Beckmann Award for outstanding contributions to the defense of scientific truth.★

Dr. Punyamurtula S. Kishore

Dr. Punyamurtula S. Kishore is the founder of Preventive Medicine Associates, Addiction Medicine Associates, and National Library of Addiction and has been a practicing public health scientist for over 30 years. He began his medical career as a primary care / family practice physician and then moved into a position as the Medical Director of the Washingtonian Center for Addictions, the first organization in the U.S. to recognize addiction as a disease.

Their philosophy was an early precursor to the AA or 12-step program. Kishore has been a member of the American Society of Addiction Medicine (ASAM) since 1986 and has helped treat more than 200,000 addicts. In 2010 Dr. Kishore earned the Prestigious Distinction as a Distinguished Fellow of the American Society of Addiction Medicine, a title that is only granted every other year to select ASAM physician members for their significant contributions to the Society and to the field of addiction medicine.

Dr. Kishore treats addicts with his 'sobriety maintenance' method. This unique health model stresses the prescription of non-toxic substances and provision of coping skills patients need to remain sober.

Kishore also administers "de-addiction" treatment, a process that treats emotional addiction as well as the physical addiction. Patients have access to home detoxification, an inexpensive and more effective option to in-patient care which allows them to maintain their dignity while learning how to cope with the temptations found in their own environments.

In 1993, Kishore founded National Library of Addictions to support work in addictions treatment. It is designed to provide a non-profit structure for addiction professionals to exchange ideas and further the development of treatment methodologies.

Dr. Kishore was honored by the Boston Celtics with a "Heroes Among Us" award, given to those who make a significant impact on the lives of others. Kishore is also the recipient of a national Compassionate Caregiver Award, Honorable Mention, from the Schwartz Foundation.

Kishore served as a faculty member of Harvard and as an Assistant Professor of Medicine at the University of Massachusetts. Currently, he serves as the Assistant Professor of Business Administration at Fitchburg State University. He holds his Master's Degree in Public Health from Harvard School of Public Health, in addition to Certificates in Forensic Psychology from Bridgewater State University. Dr. Kishore currently serves as the Minister of Health and Healing for various organizations.★

The Oregon Question: "54-40 or Fight"⁹⁹

In the 18th Century four countries held disputed claims upon the Oregon region: Russia, Spain, Great Britain and the United States. The Russian claim was withdrawn in treaties with the United States and Great Britain in the years 1824 & 1825. Spain withdrew its claims by the Adams-Onís Treaty of 1819. The UK and the US by the election of 1844 had competing claims involving as far south as Mexico and as far north as the Russian Alaskan Islands. The more extreme partisans of the Democratic Party held the slogan "54-40 or fight". Since the annexation of Texas had already put war with Mexico as a real potential, the Polk Administration was not interested in a simultaneous war with Britain. On this day in 1846 the 49th parallel was agreed upon with the border following through the middle of the channel around Vancouver Island. In 1872, the islands within the channel which were situated in the middle were settled in favor of the United States following a path through Haro Strait as opposed to the UK preferred Rosario Strait. ★
