HEADLINE

STEAL THE BACON 2023

Yesterday's game of steal the bacon was an exciting start to this camp year. The teams were The Baconators headed by Bene vs The Patriotic Happy Kittens headed by Daniel. The Baconators took an easy win in the first game but with the Kittens' change in leadership from Daniel to Marlee, they were able to take the second game. Mr Shurleff said "it's very intense." He spoke highly of the little kids, saying they put in extra effort. The third game was evenly matched but ultimately the baconators won, 2-1. All in all it was a great game. Mr Kalis was very proud of the way all the participants behaved themselves. ★

NOTICE: This paper got word that the planned 3 on 3 Basketball Tournament had to be cut short and suspended on Monday due to oppressive heat. It was just too difficult for the competitors to breathe.

SIMON SAYS TOURNAMENT

Apparently Mr. Kalis is quite the Simon Says caller. It has been said that he has a knack of bringing the contestants to their knees.

There were two tournaments called, one for the Jr. Campers and one for the

Teen Campers, staff and Adults. Noah Newman was the winner amongst the Juniors with Job Westrick a close second.

Among the older crowd, Evangeline Herrygers was outlasted by our Simon Says champion Mary-Ann Rokicki. The final command? Appropriately enough, "Touch your knees". ★

Four Year Champ Yet To Qualify

Word has it that the current reigning GA-Ga Champion has been laying low so that the younger campers have an opportunity to qualify for the final tournament round. When asked, Gus Kalis said „I have plenty of time to qualify. Don't worry, I have them exactly where I want them. Serious words, from a serious guy!

Pastor David Whitney informed the camp Monday...

Mr. Norman Tregenza explained that the signers of the Declaration of Independencsaid:

"We mutually pledge to each other our lives, our fortunes, and our sacred honor."

Where Is The Source of Truth

The most important question for an individual is this, where is the source of truth? It is also the most critically important question for a society, indeed for a civilization. For if the source of truth the individual, the society, or the civilization chooses turns out to be false, the source instead of giving truth propounds lies, that will bring disaster upon all who are in anyway relying upon that source of information.

A story came out of Idaho last month, Kellogg High School in Shoshone County Idaho a small conservative town with a population 2,120, canceled the graduation ceremony for all the seniors at that High School. The reason is so twisted and bazaar it is difficult to believe this is happening in America, let alone in one of the most conservative States in the Union. The canceled graduation ceremony was in response to parents engaging in a peaceful protest because one student in particular was singled out by the principal Dan Davidman and was not being allowed to walk his graduation ceremony. Why was that punishment meted out? Travis Lohr participated in a school tradition in which the seniors give a speech sharing advice to the underclassmen. Travis went off his script which was pre-approved by the school administration and said the following 12 words. And I quote verbatim, "Guys are guys and girls are girls. There is no in between." Those 12 words brought swift response from three teachers who claimed they were deeply offended. Imagine that, teachers having such thin skin that those 12 words deeply offended them. The compliant principal of that High School issued his punishment, Travis would not walk graduation. The parents of students in that school quickly organized a protest against this wrongful discipline. One of those parents was a county school bus driver. He was promptly fired by the Shoshone County school board for his participation against this insanity. Now the spineless principal's reason for punishing that whole senior class was that the county sheriff informed him of concerns about "safety." What kind of a sheriff is concerned about safety because parents peacefully protest a clearly unjust and arguably insane decision by the High School principal? Well a little digging reveals that the sheriff is Holly Lindsey and she claims that she is "married" to the art teacher Rachel Krusemark who is one of the three teachers claiming she was deeply offended by Travis' 12 words. That's right I said she, this isn't a marriage, but two perverts pretending they are married. Because she is female we can't technically use the term sodomite, but the Bible gives us this phrase in Romans 1:25-26 Describing the degradation and devolution of a culture who rejects the One True God,

"Who changed the truth of God into a lie, and worshipped and served the creature more than the Creator, who is blessed for ever. Amen. For this cause God gave them up unto vile affections: for even their women did change the natural use into that which is against nature:"

You see The Laws of the Universe were established by God, whenever humans reject God and His worship, they turn to worshipping and serving idols

So that describes this sheriff and the art teacher, "women [who] change the natural use into that which is against nature:" Or a shorter title would be pervert, they pervert what the Creator designed for human sexuality, changing from what was is in accordance with the laws of nature to that which is against natural law. So the first mistake the county of Shoshone made was to hire a female pervert as their sheriff. Here is a woman deeply devoted to violating one of the most fundamental and profoundly important laws of the universe. God's established order for the whole society is under attack by her and her

ilk and their hatred of God's Holy Law. Their month long celebration of the abomination demonstrates how destructively corrosive this God hating agenda is. Here is a woman who is lawless, an outlaw. How did an outlaw become their sheriff? They voted for her.

When the lawless become "law enforcement"

The town has made a huge error in hiring a pervert as the art teacher for their children. Don't they know that perverts have a destructive influence especially on the minds and souls of vulnerable children. And another error was made in hiring a jelly fish for their principal a spineless man, who won't stand against the evil pervert and does what the outlaw perverts tell him to do. Scripture tells us something about those who aid and abet the abomination

Romans 1:32 "Who knowing the judgment of God, that they which commit such things are worthy of death, not only do the same, but have pleasure in them that do them."

So Scripture teaches us that this High School principal knows right from wrong, knows what these perverts do is a capital crime, making them worthy of death, he goes along approving of the evil they do and fully supporting their ungodly attack upon the young man Travis who simply spoke the truth. What a spineless wretch they hired as principal. Travis is a young man with his sanity intact in spite of subjection to that High School's indoctrination program. Mankind becomes vulnerable to insanity to varying degrees whenever he rejects reality. And reality is established by the Creator of all things, the One who made the Universe the One who established all the laws of that Universe. He is the one who made a man a man and a woman a woman at conception, not at birth. Insanity is a rejection of that Universe and the Law of that Universe which God established.

Today we hear a buzz in popular culture about what they want to call the Multiverse as opposed to the Universe. Zuckerberg wants you to live in his multiverse. So rather than one (uni) they claim there are many (multi) universes all existing in the same space. Some claim there are 100s of other realities, multiverses in which all the laws of our universe don't apply. Think of how convenient a satanic deception this is. It gives people an excuse to violate the Law of this Universe because they claim those laws are not absolute, there are all kinds of different laws in the multiverse. Ultimately this is the invasion of Hindu theology which claims there are 300 million gods, thus that many differing realities, or multiverses. Find the one whose laws you like and thereby reject the wisdom and the Law of the One and Only true God. So for example, currently there is the claim among the perverts that there are 107 genders. Now think of what supposedly the purpose of that High School is - we would think it is to educate students in the truth. The mission statement of the school is:

"will provide the best education possible to prepare students for the complexities of adult life by creating a community of knowledgeable students who respect themselves and others and who accept responsibility for their actions and learning in the world and community in which they live."

And one of the statement of beliefs is "Teachers inspire learning and guide students in the acquisition of knowledge, skill, and attitudes." Is that true education?

Fighting The Great Reset Begins Locally

It's easy to view the Great Reset as some distant effort happening elsewhere. Unfortunately, nothing could be further from the truth.

Let's roll back the calendar to 2011. Early that year, The New American exposed the progress that ICLEI, an NGO that now goes by the name Local Governments for Sustainability, had made in getting local governments to codify into law the UN's Agenda 21 "sustainability" scheme. Senior editor William F. Jasper summed up Agenda 21's extent: "In short, everything; there is nothing on, in, over, or under the Earth that doesn't fall within the purview of some part of Agenda 21." In the name of making man's footprint on the planet sustainable, the globalist cabal intends to impose global tyranny. At the founding of The John Birch Society in 1958, Robert Welch warned of the build-up and coming of world government. He said, "For internationalism, as it is conceived and promoted today, is an attempt to impose more government and a more centralized one-world government on all of us everywhere. For that reason it is automatically contrary to everything we stand for, and one of the movements we shall oppose with all the strength we can."

Only through world government can such a reorientation of society called for under Agenda 21 be implemented. These internationalists or globalists use any opportunity to further their agenda. If they don't get traction with Congress, they go directly to local and state governments, as well as to corporate partners. ICLEI took the lead and convinced many local and state governments to sign on as members, working to get them to implement Agenda 21 at the expense of liberty, sovereignty, and property rights — the foundation of freedom.

Also in 2011, The John Birch Society launched "Choose Freedom, Stop Agenda 21" to expose this globalist takeover, and the work done by JBS members resulted in ICLEI losing many American members. ICLEI went into damage-control mode and hid its online member list, which was something we pointed people to. Even today, finding specific members on its site is not an easy task.

With such exposure, Agenda 21 was largely stymied in the United States, but it has come back with a vengeance under Agenda 2030. As senior editor Alex Newman pointed out in The New American in 2016, Agenda 2030 is "a recipe for global socialism." It's "touted as a solution to everything from poverty to global warming, [but it's] really a plan to

empower a global governing body."

The governments and companies now implementing ESG (environmental, social, and corporate governance) scores and "going green" are under pressure to help reach the UN's goal of reducing emissions by 2030. The UN rarely meets its deadlines when there is organized opposition, and it knows its next deadline is coming fast. It certainly has found a friend in the Biden administration, but it's also targeting large corporations, the investment world, and local governments.

A painstaking dive into ICLEI's online membership reveals around 311 local and state government entities and elected officials. These include various locations in Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, Montana, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, Ohio, Oregon, Pennsylvania, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, Wisconsin, and Wyoming.

The United Nations has been paving the way for a Great Reset — the New World Order. Yet, as the UN through ICLEI has demonstrated, proponents are not working in some distant country waiting for the U.S. Congress to jump on board. They are already here, and working within many communities. Those willing to act to save their God-given rights and preserve them for future generations must work toward stopping the so-called sustainability agenda. Let's show them the Great Americanist Awakening, which was largely begun with the reaction to the unconstitutional and anti-American "pandemic" controls placed over Americans. Work to locally kick out ICLEI, then kick the UN out of the United States. The only organization working on doing both is The John Birch Society. Active member chapters may already be working in your community. Visit JBS.org/Agenda2030 to learn more and take action. ★

TRUTH (from page 2)

A true education Starts With Knowledge - Proverbs 1:7

"The fear of the LORD [is] the beginning of knowledge: [but] fools despise wisdom and instruction."

I think the latter half of the verse describes Kellogg High School. There is no fear of the Lord in that High School mission statement, no fear of the Lord in anyone of their listed beliefs. Thus it is not an institution of education at all, it is an indoctrination center. Interesting how Pink Floyd 44 years ago got it right when they growled,

"We don't need no education" [and then they explain what they mean] "We don't need no thought control, No dark sarcasm in the classroom"

They understood 44 years ago that those institutions rather than teaching students how to think, were indoctrination centers only teaching them what to think. So then they exhort,

"Teacher, leave them kids alone Hey, teacher, leave them kids aloneAll in all, you're just another brick in the wall."

Or six years earlier Paul Simon in Kodachrome,

"When I think back on all the ____ I learned in high school It's a wonder I can think at all..."

What those parents in Shoshone County, Idaho need to do is far more than a peaceful protest, they need to take all their children, 100% of them out of these indoctrination centers, defund them altogether, fire every teacher and administrator and demand their money back, money fraudulently taken by their county government. They need to take the pension fund and distribute it to those parents and property owners in that county. And this needs to happen all across America, don't defund the police, defund the schools.

Now consider the all important question, for that High School and all other government run indoctrination centers, where is their source of truth? What is the whole basis for denying the reality of those 12 words Travis spoke, "Guys are guys and girls are girls. There is no in between." Their source of why they believe those words to be so offensive that every senior at that High School should be punished, their source of truth is sin, it is that no one dare call sin what it is - a treasonous rejection of the Laws the Creator of the Universe has established, a hatred of God and a rejection of reality thus stepping into some level of insanity. That is what it actually is, but in our evil day, the powers that be tell us don't you dare say that, don't you dare call sin what it actually is, because that would be unkind, it would disturb the residents of the insane asylum because by calling it sin, you are implying that what they need is repentance, what they need is to confess, repent and reject their sin, turn from their insanity back to worship and serve the One True and Only God, the Creator of all things.

So think about this, our whole culture has swallowed enormous lies. And what is the source of these lies? It is sin and commitment to not call sin what it actually is and therefore not call sinners to repentance. That is satan's entire modus of operands. This is how he keeps the world in darkness, in bondage to the evil he deceives them into embracing, that's how he keeps them on the downward path of insanity that will ultimately land them in the lake of eternal fire.

Where is the source of truth? The source of truth is God Himself. Jesus is Truth - John 14:6 "Jesus saith unto him, I am the way, the truth, and the life: no man cometh unto the Father, but by me." ★

-- Pastor David Whitney

Thomas Jefferson

This man was the third president of the United States of America. He is the main author of the declaration of independence. He also secured the Louisiana purchase. This man is none other than Thomas Jefferson. Thomas Jefferson was born on April 13 1743. His father was named Peter Jefferson. Thomas's mother was called Jane Randolph. Another really interesting thing about Thomas is that he was a very good inventor and invented a simple copying machine also called a polygraph. He was also a vice president and in 1800 he became the US president after winning over John Adams. When he was first elected one of the first things he did was try to restore the spirit of 1776. He regarded himself as very loyal to the constitution. Thomas Jefferson really wanted to lower national debt. During Thomas's life there were many personal attacks on him from people who didn't agree with him. In 1804 he won his second presidential term but in 1809 James Madison became president. In the last 17 years of life he remained in Virginia. One of his last great advancements was founding the University Virginia which was chartered in 1819. he died on July 4th 1826 on the 50th anniversary of the declaration of independence just hours before John Adams. Today he is still honored on the nickel.

Delivered by Marlee Newman at Campfire last night.

Memorable Lecture Moments

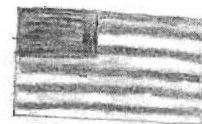

Mr. Alex Newman is remembered for his quote of scripture Acts 5:29.

"We ought to obey God rather than men."

Professor Willie Soon impacted his audience with a quote from Ernest F. Schumacher...

"A man who uses an imaginary map, thinking that it is a true one, is likely to be worse off than someone with no map at all."

Give up money give up fame give up
Science give up the world itself and all
it contains rather than do an immoral act.

**Monday's Campfire**

Last night we started off campfire by meeting the new campers. We're all very glad you could make it. Rev. and Mrs. Craft were called upon to kick off the festivities with a rousing rendition of "The Bear Song". Mrs. Edith Craft showed some hesitation. Then she proclaimed that we should pray in all things and desired a prayer of supplication in preparation for the vocal. Mr. Affleck, it is rumored, thought an entire rite of exorcism was more appropriate for the occasion. Not to be out-done, Mrs. White entertained the entire camp with her creative performance of "There was an old lady who swallowed a fly." Mr. Shurtleff was called upon to deliver a spontaneous joke. Having stepped away and unable to respond, Mr. Affleck said it was his finest joke yet. Josh Vilneskis sampled his violin. Megan Rokicki and Gregory Valentin lead "Jesus Loves Me" with vocals and sign language. Russell Morrow recited part of the Declaration of Independence and Marlee Newman presented a brief profile of Thomas Jefferson (see page 4). Other favorites included "A Bicycle Built for Two", "Bonnie", "Caisson Song", "When Johnny Comes Marching Home", "Yankee Doodle", "This little light of mine" and the Junior Campers lead by Caeli Westrick and Isaiah Stamm lead camp in "He's Got The Whole World in His Hands". Not to be forgotten, we were blessed by the vocal stylings of Tytus Valentine's version of "Baby Face". Evangeline Herrygers read Isaiah 43:1-3 and Charmaine Rondon delivered final remarks. Franklin Soon played "Taps" on the bugle and was accompanied by the camp as whole. ★
