THIS IS CRUCIAL INFORMATION!

Read the rules of the game carefully and completely. Or watch the video about the rules of the game on our website. You need the rules in order to be able to escape!

IMPORTANT: READ, LOOK & COMMUNICATE!

Prepare:
Place 3 × AA batteries (not included) in the Chrono Decoder and collect all the keys. Find the envelopes and the first cards that correspond to the adventure you are going to play.

Make sure everyone has pen and paper ready.
Make sure you have good lighting and sit together so everyone has a good view of everything.
Carefully examine the details on the keys and the ciphers on the Chrono Decoder before you start the game.

Aim of the game:
Each adventure has three envelopes (levels). In each level, you must find a code consisting of four keys that you enter into the Chrono Decoder. Find three correct codes within 60 minutes to win the game.

The game:
Take the first envelope of the adventure that you have chosen and calmly read the introduction letter on the back of the envelope out loud. Check if the contents of the items from the frame and the envelope match the description in the adventure. Then attach the Chrono Decoder by sliding the tab on the frame to the left for the 15-minute intro game or to the right for all other adventures. Then press the START button. If you want to play the extra ambient sounds using the app, press the play button in the app at the same time you press the start button. The clock will start counting down exactly 60 minutes and the game has begun!

All the players proceed to check the fronts and backs of all the provided materials very carefully. Search for clues, codes, riddles and (parts of) puzzles, and work as a team. Once you find the first of the three codes, take four matching keys and enter these into the Chrono Decoder. If the code is correct, you will hear a ‘confirmation’ sound and the clock will continue.

Any questions? Check the FAQ on the website.

PREPARATION

This page includes eight keys. These eight keys have six different key sides, each stating different information, as follows:
- Polybius: upper right side
- Secret Code: upper left side
- Roman Numeral: lower left side
- Ciphers: upper right side
- Ciphers: lower left side
- Cipher Disc: upper right side
- Cipher Disc: lower left side
- Morse: lower right side

If you look closely, you will see that two keys (with the square and the circle) have exactly the same front and back. The other two keys have a different front and back. Examine the keys carefully before starting the game!
