rectangle (30' x 42'); 1 1/2-stories; shiplap siding; galvanized metal-covered gambrel roof; angled shiplap-sided sliding entrance doors on south facade. Exterior features include 6-pane fixed sash under eaves; exposed rafter ends; fascia boards; corner boards. Notable landscape features include wood frame cow loading ramp west of building. This structure was built by a carpenter named Tom Brisco, for Robert Hancock, in the late 1940's, with lumber from the Old Grade School at Prairie Center (razed). It was constructed for the purposes of storing squash and is used in that capacity today. 1996: New Metal Sliding doors; one contributing structure.
