## THE STORY

Casa Cody, the oldest operating hotel in Palm Springs, has reopened following a significant restoration and revitalization project under the management of Casetta Group to usher the renowned Palm Springs establishment into the present day with respect to its Spanish Colonial Revival heritage, adobe hacienda architecture, and enduring spirit. A time-honored oasis under the open skies of the California desert, Casa Cody's next chapter is a symphony of classic elegance with historical elements alongside a modern aesthetic and lifestyle amenities and services. There is no where more perfect to host a wedding.

Quiet and secluded yet just steps from Palm Springs' center, Casa Cody is a romantic respite situated upon more than 1.5 acres of tranquil grounds against the rising backdrop of the San Jacinto Mountains. Winding pathways surrounded by wild bougainvillea, native plantings and fruit trees throughout lead to 31 accommodations— many with kitchenettes or full kitchens, private patios and fireplaces—two swimming pools, new onsite F&B offerings for guests, an edible garden, outdoor tubs and showers, and wide-open lawns that can host ceremonies, receptions, rehearsal dinners and brunches up to 200 guests.
