HICKMAN & OAKES

Seventh Sealed Bid Mail Auction

CLOSING DATE: MARCH 14, 1979

TERMS OF SALE

To give all bidders an equal opportunity, bids will not be opened until the closing date of the sale. In other words, we will not know ourselves, and therefore cannot reveal, where the high bid is until the sale is over. To help us segregate bids from our regular mail, we are providing envelopes for use only for the mail bid sale. Please mark any other envelope you may use on the outside so we can know it is a bid. Skeptics are invited to inspect the unopened bids up to the closing date.

Bids must be in writing and postmarked no later than 3/11/79. We will be pleased to discuss and further describe any of the notes by phone, but we must insist that telephone bids be confirmed in writing before the deadline. Bids will be opened 3/14/79.

1. Each lot will be sold to the highest bidder unreserved at a slight advance over the next highest bid. In the event of identical mail bids, the earliest postmarked will receive the lot.
2. As in all legitimate auctions, the second highest bidder will set the price. Up to the \$1,000.00 level, advances will be 10% with \$50.00 maximum. At \$1,000.00 and over, advances will be 5%. This method will permit a bidder to make a liberal bid with the assurance that his bid will be reduced to the indicated amount above the next highest bid.
3. All lots are guaranteed genuine and as described. Please be sure you are bidding the correct amount on the proper lot.
4. All successful bidders must remit payment immediately upon receipt of the invoice and/or lots. The cost of postage and insurance will be added to the invoices of successful mail bidders. Lots delivered in Iowa are subject to State Sales Tax of 3% unless a resale number is given. Terms are available, see your bid sheet.
5. Only signed, written, Mailed bids reaching us by the closing day of the sale are acceptable. Mailgrams are acceptable.
6. All photographs are of the actual lots being sold.
7. Prices or estimates given reflect the opinion of the cataloger as to what the lots should bring. Higher rather than lower valuations are expected to prevail.
8. Alternate bids are acceptable.
9. GRADING--The standard grades are used as outlined below. An overall grade is given to take into consideration the notes appearance. A grade of F/VG means that the reverse of a note is not as nice as the face of the note. A Grade of VG-F is a grade for the complete note. Such defects as margin tears, pin holes, stains, abrasions, or other appearances are not mentioned in grades of fine and below, unless in the cataloger's opinion it affects the value of the note enough to make mentioning necessary. In other words, a very valuable note will have a more complete and detailed description than a note, say, not even worth double face.
In notes grading VF and above we will try to mention within reason, all unusual defects such as named above. As a condition to your bids you may say that you do not wish any lots that might contain a pin hole or whatever.
10. No return of notes is acceptable after 3 days following your receipt of them. If you receive a note that you feel you should return for any reason, you may do so, if within 3 days of receipt and you state your reason. If it a grading problem, please state your grading guide that you are using (if you are) to support your position. We are firm believers in, "Satisfaction Guaranteed" and we intend that you be satisfied. If we make an error we want to know about it.
11. We reserve the right to reject any bid of 50% of estimate of less or any bid of less than 15% over face.

Lots will be available for viewing in Iowa City, Iowa, by contacting Dean Oakes, (319) 338-1144 or by writing c/ of Box 1456, Iowa City Iowa 52240, until the day before the sale closes.

A FEW WORDS ABOUT THE ESTIMATES

Cataloging these great notes has been a real pleasure. We must confess, however, that estimating the value has been difficult. In the end, your own judgment is the primary consideration. Bid what the note is worth to you. If you bid all you want to pay, whether you are successful, or unsuccessful in getting the note, you will feel better. You won't feel badly seeing the note offered for more later if you've already made your best offer. If you are successful, you will know that your appreciation of the note translated into more dollars than anyone else's. Good luck.

INTRODUCTION

Welcome to our 7th Sealed Bid Auction. Collectors of 1929 notes will find a great array of notes to choose from, many in superlative condition. This sale also includes notes and materials from the Donlon Estate. Over 100 lots from his library, many autographed and out of print, are included. A small but scarce collection of 1929 notes, with the "Forbidden" United States Bank title will be found through-out the catalog, with several in Oregon.

A collection of 60 high-grade large size Federal Reserve Bank Notes present an opportunity for specialists. We hope you will enjoy this catalog and participate in the sale. As always, we wish you all - Happy Hunting!

Dean and John

A selection of books from the late Mr. Wm. "Bill" Donlon's Library.

Because of the number of books contained in the library, and the space here, only books and some catalogs and periodicals that were of a more personal nature to Mr. Donlon are offered here for your bid and addition to your library.

You will find these books informative, interesting, and an addition to your collecting interest. Often there is a notation in Mr. Donlon's hand as he used these books. The condition is near new (XF-Unc. in our grading) on almost every item unless listed otherwise.

Estimates of value are given, but of course you set the price with the high bid and the second highest bid. Postage and insurance will be added to the invoice, of course. The balance of the library will be listed in future sales as space permits.

Federal Reserve Bank Notes

Your opportunity to fill in some of those missing pieces is here. I have never had the opportunity to catalog 60 different, mostly uncirculated, 1918 series Federal Reserve notes, and I enjoyed it! There are 30 different \$1's. I know several of you are working on completing this set at least by districts, so bid liberally; if you see the piece you need, the quality is here. For type note collectors and investors there is an excellent selection of CU \$2's, which have a lot of potential in top grade.

	Fr. -	Description	Estimate
576	708	\$1 Boston, Low # A50A. Low numbers are very scarce in this series, except in Cleveland notes. CU	\$130.00
577	709	\$1 Boston. Scarce Boston issue. A little evidence of counting marks at right end, not detracting from overall sharp appearance of this well centered, uncirculated note. Est.	\$250.00 \$275.00
578	710	\$1 Boston. 1 faint center fold from Unc.	\$ 55.00
579	711	\$1 New York. Low #B300A. Choice Crisp Unc.	\$120.00
580	713	\$1 New York. Evident center fold AU	\$ 55.00
581	714	\$1 Philadelphia #C200,000A. Much of the credit for saving some of these attractive numbers is given to George Blake, an early paper money collector, collecting and dealing when these were issued. Uncirculated.	\$200.00
582	715	\$1 Philadelphia. Well centered. AU, looks Unc	\$ 65.00
