SEALED BID AUCTION

HICKMAN AUCTIONS INC. #08 06/22/1994

JUNE 22, 1994

Introduction

Welcome to our eighth auction of the 1990s. I am very proud to continue our series of auctions with another outstanding selection of National Bank notes and related material. For this auction we are providing you with the number of notes in our data base for each bank represented in the sale. Over nearly thirty years we have recorded almost 150,000 nationals with the co-operation of over 350 individuals. We feel that the known number of surviving notes is significant information to the collector in reaching a decision regarding the acquisition of notes. We have always felt that the main difference in rarity is that a common note can be acquired in the grade, denomination and price suitable to the collector, whereas a scarce or rare note may not be available in the grade or denomination desired. We would say generally speaking, that four notes or less known would be a good measure for serious consideration of the note available. The number of notes known to have survived has a direct relationship to the frequency of availability and of course the price of the note. Consider the data as a road map. It won't tell you the grades or denominations but knowing the number of known surviving notes will be helpful to you in developing your strategy on which of the notes you desire to pursue first. This auction has exceptional selections from Massachusetts and Pennsylvania and some very interesting related material which we feel will enhance a collection that includes nationals. As in the previous forty five auction catalogs I have been involved in, I hope that you will find material that will enhance your collection, gladden your heart, and leave your purse relatively intact. I wish you all, Happy Hunting!

TERMS AND CONDITIONS OF SALE

To give all bidders an equal opportunity, bids will not be opened until the closing date of the sale. In other words, we will not know ourselves, and therefore cannot reveal, where the high bid is until the sale is over. To help us segregate bids from our regular mail, we are providing envelopes for use only for the mail bid sale. Please mark any other envelope you may use on the outside so that we can know it is a bid. Skeptics are invited to inspect the unopened bids up to the closing date. To insure that your efforts are not wasted, mail your bids in early. We will be pleased to discuss and further describe any of the lots by phone,, but we must insist that telephone bids be confirmed in writing sent before the deadline. Fax and overnight letters are acceptable. All bids will be opened June 22, 1994.

1. Each lot will be sold to the highest bidder unreserved at a slight advance over the next highest bid. In the event of identical bids, the earliest postmark will receive the lot.
2. As in all legitimate auctions, the second highest bidder will set the price. Up to the \$1000.00 level, advances will be ten per cent with a \$50.00 maximum. At \$1000.00 and over, advances will be 5%. This method will permit a bidder to make a liberal bid with the assurance that his bid will be reduced to the indicated amount above the next highest bid. In cases where only one bid is received, the estimate will be used as the underbid. You should consider your bids in this auction to be your limit rather than your bid.
3. All lots are guaranteed genuine and as described. Please be sure you are bidding the correct amount on the proper lot. Only signed written bids are acceptable. These bids are a binding contractual offer on your part.
4. All successful bidders must remit payment immediately upon receipt of invoice and/or lots. The cost of packing, postage and insurance will be added to the invoices. Lots delivered in Iowa are subject to state sales tax of 5 % unless a resale number is given.
5. All photographs are of the actual lots being sold.
6. Prices or estimates given reflect the opinion of the cataloger as to what the lots should or probably will bring. Higher rather than lower valuations are expected to prevail. We reserve the right to reject bids of less than 60 % of the estimates.
7. Alternate and limited bids are acceptable. These can be handled much more efficiently in a sealed bid auction. No buy or unlimited bids are acceptable. Bids of uneven dollar amounts will be lowered to even dollar amounts.
8. GRADING is intended to follow normal standards with a conservative approach. However grading cannot be considered a precise science, and opinions may differ from individual to individual. We guarantee our professional best efforts to properly grade and describe all the lots in this auction. We place our reputation and twenty five years experience on the line with every lot.
9. All invoices are scheduled to be mailed to the bidders within 72 hours of the close of the auction, and payment must be made within five (5) days of receipt of the invoice. It is the responsibility of the bidder to assure such payment or provide alternative arrangements in the event of circumstances which could cause a delay. Bidders will have five (5) after receipt of the material to return any lots misgraded or misdescribed. Lots must be returned intact in the original holder unmolested. No lots may be returned for any reason after thirty days from the sale date.
10. We intend treating our clients as we ourselves would be treated. Any dispute that may arise can be resolved by reasonable negotiation. We WANT to be fair.
11. A 10% buyers fee will be added to the total invoiced amount.

RARITY

The rarity ratings are based on the known notes in either large or small size series notes. This project began over twenty five years ago and has been contributed to by over 350 individuals and institutions. Approximately 150,000 notes have been recorded. The rarities are constantly changing as new notes are added to the census. This is an ongoing project and we appreciate the help we continue to receive. We all benefit from accuracy. The rarity scale is as follows:

- R6 None, one or two notes known to us
- R5 three, four or five notes known to us
- R4 six to eleven notes known to us
- R3 twelve to twenty four notes known to us
- R2 twenty five to fifty notes known to us
- R1 Over fifty notes known to us.

An electoral commission gave all the uncounted votes and the election to Hayes. 218 \$5.00 1929 The Boston NB
Charter 11903 # E025109A R 4 VG-F. We credit this bank with six specimens of the only denomination issued even though we can only verify two notes. The issue would suggest that the notes of this series would be common but the fact that they were only issued for five months probably accounts for their elusiveness. You tell us what this tough note is worth.

219 \$5.00 1929 The Engineers NB of Boston
Charter 12540 # D006656A R 4 VG. Five dollar notes only with the second of three titles used by this interesting charter. We count ten specimens known to have survived. (\$50.00)

Charter 256 # 18642-A Fr 380 R 2 Fine. This is the variety with the charter number and it is one of only two such known to us. We believe that this note is Lot 3283 in the Grinnell sale. The signature of the cashier, C.A. Bassett extends almost to the center of the note and the vice president's (H.A. Brayton) signature is heavy and bold. Both are pen signed. The father of the notorious Lizzie Borden was a vice president of a neighboring national bank in Fall River. We will estimate this interesting note at \$200.00.

Charter 1939 # A004156 R 3 AVF. The "The" in the bank title was dropped on the third charter and small size notes. This is the only type two ten among an even dozen small size notes in the census. Should realize about \$50.00.

229 \$10.00 1929 The FNB of Ipswich
Charter 4774 # B001250A R 4 Fine. A one inch tear at the lower right margin keeps this scarce note reasonable. Nationals were only issued by this bank in Ipswich and only in this denomination in the 1929 series. We can account for just six surviving specimens. (\$50.00)

230 \$10.00 1929 The Bay State NB of Lawrence

236 \$10.00 1929 The FNB of Northampton
Charter 383 # A000683A R 5 VF+. You'll have much less difficulty obtaining a large size note from this bank than you will a note of this series. We can account for only four surviving specimens. (\$75.00)

237 The Agricultural National Bank of Pittsfield Art

The matching of National Bank notes with a post card of the bank's building greatly enhances the collection and creates much additional interest when your notes are displayed or when used to illustrate an article about the bank.

The type notes in this sale did well without exception, as did the better nationals, notably the Buffalo, Wyoming note which realized \$1680.00 with numerous liberal bids in support. Other popular lots were numbers 38 and 39, the five cent sutler script, the Ventura, California \$5.00 1902 note, the Durango and Mancos, Colorado notes, the Turtle Creek and Intercourse, Pennsylvania, and The Flat Top NB of Bluefield, W VA Red Seal. Those lots with only a \$ did not receive bids, and the lots marked \$0 were withdrawn for various reasons including receiving only ridiculous bids. There is an unusually large number of them in this sale since we included a group of collateral material unfamiliar to our clients. We wish to explain to those who received their catalog late that although all were mailed May 8th and 9th, the Post Office did not deliver any of them until the 23rd of May and later, in some cases much later. We sent out numerous catalogs first class to clients who thought they were not going to receive a catalog and very nearly ran out with only a few to take to Memphis with us. To those of you who are aware of my health problem I am happy to advise you that I am on the road to full recovery and expect to be in Okoboji this summer until labor day. By all means include a visit in your plans if you are in the area. Until next time, we wish to thank all who contributed to the success of this sale and to wish you all, Happy Hunting!
