

NetFORUM[®]

Robust capabilities for complex needs.

For mid to large associations

For those organizations with the most demanding of needs, netFORUM Enterprise is a feature-rich, purpose-built association management solution that optimizes every stage of the membership lifecycle. From member management to credentialing and fundraising, netFORUM is an open platform for integrating best-in-class providers.

Increase member engagement through greater insight into member activities.

Gain day-to-day efficiencies for your team through customizable workflows.

Increase member value and non-dues revenue through learning and careers.

Unrivaled flexibility for optimizing the membership lifecycle.

Robust member management

Manage the most complex of organization and membership types as well as fully support your organization's related eCommerce needs.

Connect your chapters

Easily integrate and manage chapters as a part of your broader membership strategy.

Tailor to your organization

Leverage an intuitive toolkit and form designer to tailor both back office and member experiences based on your unique organization's needs.

Credentialing

Incorporate credentialing as a way to drive non-due revenue and additional member engagement.

Events Management

Manage all types of events from small committee meetings up to complex annual conventions.

Committee management

Track and manage sub-committees and task forces as well as individual member participation.

“The possibilities are endless. It’s a huge advantage for us to be able to use the data we have and make decisions, but also go further with it and advance our mission. This implementation was a big achievement, and we could not have done it without netFORUM.”

Katherine Blaufuss, CAE
Manager Business Intelligence and AMS
American Geophysical Union

“What used to take weeks each month now takes less than an hour to complete.”

Rhoda Chari
Senior Manager
Member Services and Database Administration
