BEMER ENHANCES:

GENERAL BLOODFLOW

THE BODY’S NUTRIENT AND OXYGEN SUPPLY AND WASTE DISPOSAL

CARDIAC FUNCTION

PHYSICAL FITNESS, ENDURANCE, STRENGTH AND ENERGY

CONCENTRATION, MENTAL ACUITY, STRESS REDUCTION AND RELAXATION

SLEEP MANAGEMENT

...

RESEARCH WITH PASSION PRODUCTS FROM CONVICTION
**VITAL TO LIFE:**

**PROPER BLOOD FLOW**

The body’s circulatory system ensures the survival of the organism by facilitating metabolism in each and every cell. This helps maintain self-regulatory mechanisms. First, blood transports oxygen from the lungs to the cells and exchanges it for carbon dioxide to be removed as waste. Second, it transports nutrients such as fats, carbohydrates, or proteins from the digestive tract to the individual tissues where they can be consumed, processed, or stored as needed.

The resultant metabolic waste products, are then transported to other tissues and finally to the excretory organs such as the kidneys and colon. In addition, blood distributes hormones, immune cells, and other signaling molecules. The human body’s circulatory system is essential for providing the raw materials needed for energy production as well as physical and mental performance. Cells rely on the blood to deliver and remove what they need in order to perform their essential functions.

**THE DISPOSAL AND SUPPLY CYCLE**

**PROPER SUPPLY** of oxygen and nutrients to the cells and **DISPOSAL** of waste products equals **A HEALTHY BODY.**
NECESSARY FOR HEALTH

Only good, functional circulation ensures proper supply of nutrients and oxygen as well as proper waste removal within the body. This is fundamental for all metabolic processes. On this basis, it is clear what a critical role the circulatory system plays in overall health and well-being.

THE GRAPHIC SHOWS THE PROPORTIONS OF THE VARIOUS TYPES OF BLOOD VESSELS

- About ¾ of all blood vessels in our body are microvessels!
- 74% MICROVESSELS
- 14.5% VEINS
- 11.5% ARTERIES
**CHALLENGE TO CARDIAC FUNCTIONS**

Obesity rates have increased for all population groups in the United States over the last several decades, adding to the strain on essential cardiac functions.
USE BEMER

BEMER therapy is used for well-being, improved cardiac functions and physical fitness. The majority of the global population could benefit from using BEMER, and it is highly probable that you will, too.

IT IS HIGHLY LIKELY THAT BEMER CAN HELP YOU!
Many physical discomforts are directly related to a diminished circulatory system which can result in dysfunctional metabolic processes.

**LIMITED CIRCULATION WITHOUT BEMER**
- means decreased supply of oxygen, nutrients and insufficient disposal of metabolic waste.

**SIGNIFICANTLY IMPROVED CIRCULATION WITH BEMER**
- means better supply of oxygen, nutrients and disposal of metabolic waste.
Ongoing studies since 1998

In the beginning, we had nothing other than unshakable faith in the BEMER idea. Soon we were able to conduct our first double-blind experiments that attested to our products’ effectiveness. Today, several thousand people have participated in studies and user observations. The results can be found in the NCI database under pubmed.gov. A user survey revealed that every second user reported improved sleep patterns, and that two out of three users reported a significant improvement in their quality of life.

We began as a leading innovator in the Pulsed Electro Magnetic Field (PEMF) sector. Through groundbreaking research, we were able to quickly reach a completely new level in the development of our technology. Today, the only similarity between PEMF and BEMER devices is the electro-magnetic field. However, we do not use PEMF as an active agent but as a carrier for our unique physical signal configuration.

BEMER owns five global patents and BEMER research has received numerous scientific awards.

Customer survey in German-speaking countries: Duration: 6 weeks, 658 evaluable results

BEMER WORKS ON:

- Concentration, mental acuity, stress reduction
- Better general bloodflow
- Relaxation
- General body supply and disposal
- Cardiac function
- Physical fitness
- Endurance, strength and energy
EASY TO OPERATE AND EFFICIENT
16 MINUTES FOR YOUR WELL-BEING

BEMER technology is easy to apply and anyone can use it. Many medical practices and clinics are implementing BEMER for preventative purposes and as a supplement to other treatments. In sports, it is used to enhance athletic training and to accelerate the regenerative process. The greatest benefits can be achieved with daily use at home.

Using BEMER every day in combination with the sleep program is the formula for the best results. Just two 8-minute sessions per day are needed to improve your circulation. It is that easy to enhance your physical well-being. And you can even use BEMER during sleep (see BEMER sleep program).
GOOD TO KNOW

BEMER – A company with values, looking for people with values. We provide user-friendly technology and easy to read graphic displays, as well as intuitive operations and functionality.

THREE-YEAR WARRANTY
LIFETIME UPDATES
SAFE TO USE, ALSO WITH IMPLANTS
EASY TO USE
PROGRAMMABLE PRODUCT FEATURES
ONGOING PERSONALIZED CUSTOMER SUPPORT

B. BOX PROFESSIONAL

2-in-1 functionality
Edit mode
Multitouch display
Memory Card Slot
Sleep program,
Dual control

Integrated unit
Signal tester B.SCAN
CLASSIC-SET SOMETHING EXTRA, EVEN IN THE BASIC CONFIGURATION!

The Classic-Set is the way to get started with BEMER technology without compromising performance. Following the tradition of our brand, we have taken the simple, clear and intuitive navigation concept to the next level of ergonomic design. The Classic-Set offers the same basic programs and application options as the Pro-Set, but comes with a smaller range of accessories.

PRO-SET TOP TECHNOLOGY WITH MAXIMUM FLEXIBILITY!

The Pro-Set is an all-inclusive package for the demanding user who expects and appreciates high quality and control over the many device features. An easy-to-use multitouch display, integrated software to create specific programs, the technological architecture that protects your investment and the 2-in-1 functionality are featured highlights.

B.BOX CLASSIC

- Graphic display
- Three predefined programs for intensive application of three individual regions
- Ten intensity levels for application in accordance with the basic plan
- Sleep program – regeneration program with flexible time control and wake-up function
- Dual control – simultaneous use of two B.BODY application modules in daytime operation and in the sleep program

B.BOX PROFESSIONAL

- Multi-touch display
- Three predefined programs for intensive application of three individual regions
- Ten intensity levels for application in accordance with the basic plan
- Sleep program – regeneration program with flexible time control and wake-up function
- Dual control – simultaneous use of two B.BODY application modules in daytime operation and in the sleep program
- 2-in-1 functionality – independent timing and control of two of the same or different application modules
- Edit mode – software tool for creation of your own indication-specific programs (memory holds nine programs)

Faith alone will not convince anyone in the fields of science or medicine. Since BEMER was first founded, we have done the hard work to research, document, and further develop our products on a scientific basis. Our success has proven that our approach was the right one. From its humble beginnings, our company has grown from a small office to a globally active corporate group with several thousand sales partners. However, the term “worldwide” does not capture the whole picture. We attracted the attention of some special people in Washington DC, which led to a partnership between NASA and BEMER to design a prototype for a space suit. Equally important to us, are the more than one million satisfied users in the world. Discover what BEMER can do for your own health and that of your family. Give it a try.
