

Why this program was developed:

Frequently, dental patients accept less than optimum quality dentistry due to financial restrictions. Even with dental insurance, many people cannot obtain the desired dental treatment due to restrictions set forth by their insurance. Cosmetic dentistry is not covered by most insurance plans and those patients without insurance sometimes must choose less desirable dental treatment because of cost factors. Our philosophy is that **everyone should have the opportunity to receive high quality dentistry** and to be able to participate in planning their dental treatment. We are not offering cheap dentistry. We are providing you with the opportunity to receive quality dentistry at an affordable price.

Therefore, in order to provide the type of care most patients feel is necessary and desirable, we have developed our own Dental Savings Program.

This program can provide you the opportunity to obtain the kind of dental care and treatment you want and value. We believe it is unmatched for **LOW COST, QUALITY CARE, AND WIDE SCOPE OF BENEFITS.**
