ROSE SYNERGIE COLLECTION

Calming and Rejuvenating Naturals

Rose Essence, Resveratrol, MSM, Alpha Lipoic Acid, Vitamin CoQ10 and other skin-loving herbs, minerals and vitamins work together to gently and effectively strengthen and restore clarity, tone and texture to sensitive skin. Key active ingredients include:

- ❖ **ROSES** are powerful anti-inflammatories best suited to soothe, protect, and restore rosaceous skin. Strengthens capillaries, inhibits the breakdown of firming elastin, boosts cellular circulation, minimizes redness, and prevents swelling.
- ❖ **RESVERATROL** found in red grapes is one of the best anti-aging ingredients available today, thanks to its natural antioxidant health benefits. It is an anti-inflammatory that eliminates wrinkles, sun damage and strengthens capillaries while improving cell vitality.
- ❖ **ALPHA LIPOIC ACID** is another anti-inflammatory that reduces redness, the appearance of wrinkles, fine lines, dull skin, puffy eyes and dark circles. It boosts the performance of Vitamins C and E.
- ❖ **COENZYME Q10 (CoQ10)** boosts skin repair and regeneration. Its small molecular size allows for fast penetration for instant and dramatic improvement of the visible signs of aging including hyperpigmentation, wrinkles, and sagging skin.
- ❖ **VITAMIN P** is a Bioflavonoid that provides superior anti-inflammation. It has been scientifically proven to dramatically strengthen blood vessels and reduce the appearance of spider veins, broken capillaries and redness. Enhances the absorption of Vitamin C for optimum skincare potency.
- ❖ **HYALURONIC ACID (HA)** is the same ingredient found in Dermal Fillers for filling deep lines and wrinkles. It is a natural substance that when incorporated in skincare instantly softens and plumps the skin for a baby-faced effect.
- ❖ **HYDROLYZED WHEAT PROTEIN** like HA, it restores skin volume as it firms, nourishes, hydrates, smoothes and decreases the number and depth of wrinkles.
- ❖ **MSM** is a nourishing mineral that helps maintain collagen health. Replenishes and repairs damaged cellular structure and heals wounds, bruises, and irritation.
- ❖ **VITAMIN A** has potent skin regenerating, anti-aging, anti-wrinkle and anti-acneic properties.
- ❖ **VITAMIN B COMPLEX** locks in skin moisture, improves tone and texture, and fights free-radical damage.

- ❖ **VITAMIN C** provides antioxidant protection and helps repair skin from environmental damage.
- ❖ **VITAMIN E** is a natural preservative which delivers antioxidant protection and slows cell damage.
- ❖ **VITAMIN K** is an effective treatment for dark under eye circles, bruising and broken capillaries.
- ❖ **ALOE** provides natural protection from inflammation, the root cause of most sensitive skin concerns. It has rich hydrating and soothing properties.
