

Consent to Remove Coin(s) from Holder(s)

I have submitted one or more holdered coins to NGC for grading. The submitted coin(s) were previously graded and encapsulated by a third party grading service *other than* NGC, NCS or PCGS. I understand that the submitted coin(s) are NOT eligible for NGC's CrossOver service. Nonetheless, I am submitting the coin(s) to NGC for grading and agree as follows:

1. I consent to NGC removing the submitted coin(s) from the holder(s) for purposes of grading the coin(s) in raw state. I understand that this will likely void any guarantee that was provided by the original third party grading service.
2. I understand that NGC's determination of grade, authenticity and coin attribution may differ from the other grading company's determination, and that NGC does not warrant the grade, authenticity or coin attribution that may have appeared on a certification issued by another grading company.
3. I understand that if the submitted coin(s) are determined by NGC to be genuine, then NGC will grade and encapsulate the coin(s), even if the result is materially different from the certification issued by the other grading company.
4. I understand that if the submitted coin(s) are determined by NGC to be Not Genuine, Questionable Authenticity or Authenticity Unverifiable, the coin(s) will be labeled as such and will not be graded or encapsulated.
5. I understand that NGC will use due care in removing the coin(s) from the holder(s), but agree that NGC will not have any liability for damage to the coin(s) in connection with this removal.
6. I understand that the Services Terms and Conditions on the NGC Submission Form apply to this coin submission as well. If there is a conflict between this Consent and the Services Terms and Conditions, then this Consent will control.
