Your complete reference tool

@CCR_EXPO #CCR_expo
“Consentz has streamlined my working life, saving me time and money while increasing the turnover of my business.”
Dr Natalie Blakely BA Hons, MBBS, mBCAM, GMC registered

The elegant patient record system for your iPad that makes paperwork a thing of the past!

Consentz enables practitioners to obtain proper, informed patient consent that meets the new recommendations set down by the Review of the Regulation of Cosmetic Interventions.

No more after-hours transcribing
A unique medical speech-to-text recognition function transcribes your patient notes into text as you speak and stores them securely.

Visible record of treatment
Before/after patient photographs, taken with your iPad or camera can be added to your patient’s file in seconds. Plus, a colour-coded note function records the exact location of treatments.

Electronic consent forms and digital signatures
Patients can complete questionnaires and consent forms on the iPad with a simple, one-touch button and provide a digital signature using a tablet pen.

Appointments diary
Simple set up with a choice of integrated calendar or connect to Google Calendar, Salesforce, E-clinic or your CRM.

Track and trace
Quickly find who has been treated with a specific batch of product. (Search by lot number).

Security
We take security very seriously. Consentz is hosted on trusted servers over SSL and with industry standard security.

Visit us on stand F5

Consentz enables practitioners to obtain proper, informed patient consent that meets the new recommendations set down by the Review of the Regulation of Cosmetic Interventions.
Welcome to Clinical Cosmetic & Reconstructive Expo, a ground-breaking business to business event that brings the international surgical and non-surgical community together at one major-scale event.

This Official Event Guide is designed to maximise your experience at the event and act as a useful reference tool post event. The enclosed details the high level conference and great live debate programmes from pages 42-75.

Full contact details for each exhibitor can be found in the Exibitor Profiles section of the guide, page 77. Alternatively, please look to the Product Locator, starting on page 95, if you are looking for specific solutions.

The floorplan is included to help you navigate your way around the event and can be found on the inside front cover of this publication.

An award winning year for Aesthetic Source and NeoStrata in the UK, finalists in the following:
MyFaceMyBody:
NeoStrata Skin Active - Best Cosmeceutical
Intensive Eye Therapy - Best Anti Aging Product
Aesthetic Awards:
NeoStrata Skin Active - Best Cosmeceutical
Aesthetic Source - Distributor of the Year

Meeting the needs of your business, delivering high satisfaction to your patients

Official Event Guide sponsored by Chromogenex
Visit us at Stand F18
I am delighted to introduce the Clinical Cosmetic & Reconstructive Expo (CCR) being held in Olympia this October. This event to be run annually will, I believe, be a major addition to the teaching calendar for plastic and aesthetic surgery in the United Kingdom.

For the first time three independent conferences in aesthetic surgery, reconstructive plastic surgery and non-surgical aesthetics will be held under one roof in an interactive forum. The Medical Advisory Committee has worked very hard to bring together an international faculty of the highest calibre for this purpose.

I extend a particular welcome to trainees from all disciplines. It has been very difficult for those in training to gain access to aesthetic training resources, not least due to time pressures and restrictions in funding. CCR offers an excellent and affordable forum for trainees to access knowledge in areas not traditionally catered for.

Within this grand scale multi-platform event there will be the opportunity for professionals across the aesthetic arena to interact and debate current issues. I have previously been a member of two Government and College appointed committees looking at safety and regulation in aesthetic surgery. Following the PIP implant story and heightened concerns around injectables, we are again in familiar territory following the publication of the review by Sir Bruce Keogh. Through live debates, CCR will fully explore these issues across all the disciplines in the aesthetic community.

CCR will fill a gap in the profile of international education in aesthetics. We are proud to produce a unique, inclusive and holistic platform that will underpin the United Kingdom as a leading source of expertise and knowledge internationally.

Norman Waterhouse
Chairman of the Medical Advisory Board

With thanks to the Medical Advisory Board members for providing their time and guidance to ensure that the content of Clinical Cosmetic & Reconstructive Expo covers the full spectrum for surgical and non-surgical practitioners.

**Chairman of the Medical Advisory Board**
On behalf of NINETEEN EVENTS I would like to express our sincere thanks to our Medical Advisory Board. Without their input and guidance, the creation of CCR would simply not have been possible.

Furthermore, our exhibitors have been first-class in partnering with us to target and deliver quality attendees. So too have the industry media and medical associations & bodies. We would also like to acknowledge The British College of Aesthetic Medicine for accrediting the non-surgical content and The Royal College of Surgeons of England for accreditation of the surgical content.

On a personal note, I would like to thank Mr Norman Waterhouse for giving me the opportunity to make it past the first five minutes of explaining the concept and also for ultimately taking on the role as Chair of our Medical Advisory Board. Norman has been an inspiration and mentor in helping us understand the exciting world of surgical and non-surgical practice.

Peter Jones
CEO
Clinical Cosmetic & Reconstructive Expo’s surgical content has been accredited by the Royal College of Surgeons of England and the non-surgical content by the British College of Aesthetic Medicine for verifiable CPD.

EVENT OVERVIEW

GENERAL INFORMATION

Conference Information

Conference admission will be granted only to those with a delegate, speaker, VIP, advisory board member or organiser guest badge. Access to each conference theatre is determined by the choice of stream(s) at the time of registration and the official badge must be worn at all times in order to gain access into the conference theatres.

All delegates, speakers, VIPs, advisory board members and organiser guests will be provided with free access to the event website to download presentations post event. Please note this service is subject to the speakers’ final approval. No part of the presentations material can be published, distributed or reproduced without written consent of the speaker. For all other badge type holders the access to the presentations will be at a cost of £149.00+VAT. To apply for access please email: info@ccr-expo.com

Recording (photographic, video and audio) of the sessions is STRICTLY PROHIBITED. Those not adhering to this policy will be asked to leave the event and will not be permitted to attend future events.

As a courtesy to all speakers and presenters please turn off your mobile phone when entering a conference, workshop or demonstration theatre.

The official language of the event is English.

Speaker, delegate, VIP and Organiser Guest catering

The speaker and delegate catering area is located in the main exhibition hall and is accessible only to delegate, speaker, VIP, or organiser guest badge holders. Catering includes tea and coffee breaks at designated times and a lunch pack including: sandwich, sweet snack, crisps and drink.

11th October
Tea and Coffee - 1040–1110
Lunch - 1240–1400
Tea and Coffee - 1540–1600

12th October
Tea and Coffee - 1040–1110
Lunch - 1230–1400

Visitor & exhibitor catering operates on a cash or credit card basis at various outlets and restaurants located within the exhibition hall.

CPD certificates

In order to issue CPD points post event, please make sure your badge is scanned when you enter any of the CPD conferences, workshops or live demonstrations. CPD Certificates of attendance will be issued by the 8th of November 2013.

Is your Practice losing fees and wasting time?

Stop the waste with ‘PPM’ – Private Practice Manager software and get complete admin and financial control

Our easy-to-use software provides these benefits and more:

- Full support – no question too trivial
- Templates set up to your specification
- Pre-loaded CCSD and Bupa codes, categories and fees
- Full and speedy training and installation
- Optional secure e-mail and text messaging
- Optional integration with TDL (The Doctors Laboratory)

For the consultant:

- Reduces losses due to invoicing mistakes and aged debtors
- Provides detailed medical analyses
- Pays for itself in months

For the secretary:

- Saves hours of admin time
- Gives access to data in seconds
- Produces year-end financial analysis

PPM SOFTWARE

Discovery Wellness Alliance

Working together for healthier people and communities
Mr Christopher Inglefield BSc MBBS FRCS (Plast), Plastic and Reconstructive Surgeon & Director, London Bridge Plastic Surgery and Aesthetic Clinic (LBPS)

Mr Christopher Inglefield BSc, MBBS, FRCS (Plast) is a leading Plastic and Reconstructive Surgeon and director of London Bridge Plastic Surgery and Aesthetic Clinic (LBPS). He specialises in a wide range of invasive and minimally invasive procedures at his clinic and has pioneered a number of procedures in the UK. LBPS also boasts state of the art Skin Health, Laser and Body Contouring centres. He and his team are particularly noted for their approachable, professional manner. www.lbps.co.uk

Mr Adrian Richards MBBS MSc FRCS (Plast.), Plastic & Cosmetic Surgeon

Mr Richards was voted ‘Home Counties Leading Plastic Surgeon’ by The Daily Mail and ‘Leading Breast Surgeon UK’ by The Independent on Sunday. Mr Richards qualified as a Doctor in 1988 and for the last 12 years has specialised in plastic surgery. He has full registration with the General Medical Council No. 3286812 and is a Member of both the British Association of Plastic and Reconstructive Surgeons (BAPRAS) and the British Association of Aesthetic Plastic Surgeons (BAAPS), the leading British professional bodies for plastic surgery and reconstructive surgery. He is an author and has written a best-selling textbook ‘Keynotes on Plastic Surgery.’ Mr Richards has extensive experience as a Consultant Plastic Surgeon at Stoke Mandeville NHS Trust. He now has private clinics which are based at premier locations, including the Gatehouse in Northampton, the Saxon Clinic in Milton Keynes, the Paddocks Hospital in Princes Risborough and 10 Harley St in London.

Mr Malcolm Kell, Consultant Surgeon, Breast Check-Ireland’s National Breast Screening Programme & Senior Lecturer Mater Misericordiae University Hospital Dublin Ireland

Malcolm Kell works as a consultant surgeon and senior lecturer within the national breast screening program and symptomatic breast service at the Mater Misericordiae University Hospital. Prior to this he trained in the UK, Ireland and USA; a research fellowship in surgical immunology at Harvard medical school and an American society of breast surgeons and society of surgical oncology fellowship in Fox Chase Cancer Center, Philadelphia. Mr Kell is trained in the multidisciplinary surgical management of cancer where he has explored methods to enhance patient aesthetic outcome following breast conservation. Mr Kell is involved in research focused on improving outcome following aesthetic breast surgery and has over 100 National and international publications with several national and international awards.

Professor Jean-Paul Meningaud, Head of the Department of Plastic Surgery, University Hospital Henri Mondor

Jean-Paul Meningaud is Professor and Head of the Department of Plastic, Reconstructive and Aesthetic Surgery at the Henri Mondor University Hospital, Paris. Having gained his MD at the University Denis Diderot, Paris in 1997, he was awarded PhD in 2002 by the University René Descartes, Paris. A Fellow of the European Board of Oro-Maxillofacial Surgery, he has graduated in microsurgery and holds the HDR. In Paris in 2007, Professor Meningaud was part of the team that undertook a complex composite tissue allotransplantation of the face in a patient undergoing resection of a massive plexiform neurofibroma. Professor Meningaud and his team have an extensive experience of the feasibility, reproducibility, risks and benefits of face transplantation.

Mr Tony Ley, Director, Hilotherapy UK

Tony has been involved with Hilotherapy since its introduction to the UK over 3 years ago. He has worked closely with the NHS, private hospitals & clinics and top sports clubs & institutions promoting the use of this effective and unique treatment. Tony also advises Hilotherm AG’s partners around the globe, sharing valuable knowledge collected within the UK, as well as being actively engaged in a range of projects. This includes working closely with Hilotherm’s RD and team in Germany and academic institutions to explore enhancement of existing Hilotherm products and treatments along with the development of new products and markets. Prior to Tony’s involvement with Hilotherapy, he has had a successful career in other businesses.

Mr Garrick Angelo Georgeu, Plastic Surgeon

Mr Georgeu completed his medical training in 1993 at the University of Cape Town, before returning to the UK to pursue specialist plastic surgery training. A highly respected authority in breast surgery, he is currently one of very few surgeons in the UK to have pursued formal, dedicated training in Aesthetic Breast Surgery, having been awarded a Degree in Aesthetic Plastic Surgery from Anglia Ruskin University. He also holds postgraduate Fellowships in Aesthetic Surgery (London, UK); Breast and Microsurgery (Chelmsford, UK); and Trauma (Pretoria, South Africa). Garrick specialises in aesthetic surgery of the breast and abdomen in particular breast enlargement, breast lift and the “Brazilian” tummy tuck - a revolutionary new technique which is less painful than the traditional method, requires no drains and allows patients to go home the following morning. He trains in aesthetic and reconstructive techniques under acclaimed plastic surgeon Professor James Frame, and is one of only a handful of UK surgeons currently offering conical breast implants. Keen to keep up with developments in the field, he regularly attends industry meetings and has appeared regularly over the last few years at national and international meetings as an expert speaker, including the BAAPS annual conference and the Body Contouring Conference. He is also a prolific author, having published numerous clinical research papers and articles on a wide range of surgical themes. Mr Georgeu is a Fellow of the Royal College of Surgeons, has full registration with the General Medical Council (No. 4072531), and is a full member of BAPRAS (British Association of Plastic, Reconstructive and Aesthetic Surgeons), UKAAPS (UK Association of Aesthetic Plastic Surgery) and ISAPS (International Society of Aesthetic Plastic Surgery).

Dr Vishal Madan, Consultant Dermatologist, Laser & Dermatological Surgeon, Salford Royal NHS Foundation Trust and Central Manchester Foundation Trust

Dr Vishal Madan is a Consultant Dermatologist, Laser and Dermatological Surgeon at the Salford Royal NHS Foundation Trust and Central Manchester Foundation Trust, Manchester. After completing the prestigious Addenbrooke’s Cambridge medical rotation, he undertook his specialist training in Dermatology in Manchester. Vishal then did two fellowships - Laser Dermatology at the Salford Royal NHS Foundation trust and Mohs micrographic (Skin cancer) and Reconstructive surgery at the Welsh Institute of Dermatology, University Hospital of Wales, Cardiff. In this informative workshop Dr Vishal Madan will discuss his personal experiences in using a CO2 Laser (both fractional and non-fractional) in an surgical and cosmetic environment.
Mr Robert Carpenter, Consultant Surgeon, Lead Clinician for the Breast Unit at Bart’s Hospital and Associate Director for Cancer Services at Bart’s and The London NHS Trust
Mr Carpenter is currently Consultant Surgical Oncologist, Breast Cancer and Oncoplastic Lead at UCHL. He was previously Associate Director of Cancer Services at Bart’s Hospital. He has developed breast cancer services at both Bart’s and UCHL and pioneered one-stop breast diagnostic clinics and Oncoplastic surgery in the UK. Following a successful charity appeal (£15.5 million), an award-winning, state of the art breast diagnostic unit was commissioned at Bart’s in 2005. He won the NHS Champion of London Award in 2004. His main research interest is in the field of breast cancer molecular biology which might predict tumour behaviour and response to treatment. He has published widely in the field of breast cancer cell adhesion molecules. He sits on medical advisory panels of several breast cancer charities. He is a member of the UK Steering Committees for the TEAM and POETIC trials and is Principal Investigator for the Novartis GB-07 trial.

Mr Charles A. East, Consultant in Otolaryngology, Rhinology and Facial Plastic Surgery
Dr Charles East, leading surgeon, author and lecturer in UK with many awards. He has been on the cover of many medical journals for his successful, proactive and forward thinking medical practice. He has lectured at Medical Universities and around the world at medical conferences. His Practice at 150 Harley St. has had patients from around the world come to him for successful results of their needs. Dr East realises the huge benefits of Wellness implementation for both the patient and a medical practice. He realises the need to form a proactive alliance with health professionals globally sharing the latest techniques to benefit patient’s needs. He is taking the lead in the development of the Discovery Wellness Alliance in the UK. To bring the talents of the best doctors and health professionals together along with the latest technology.

Wayne D’Anna, Founder, Discovery Wellness Alliance
Founder of Discovery Wellness Alliance. Featured in entrepreneurial magazines for being a visionary in several successful fields. Lecturer, motivational trainer, business developer and wellness program founder. He has lectured on benefits of wellness and good nutrition globally. Wayne developed the Discovery Wellness Alliance program to implement wellness into communities through education and to bring talented professionals together in an Alliance to develop Wellness communities globally. To allow professionals to share information easily on the DWA forum. To implement a program for easy self analysis of an individual participant’s health with proven technology.

Mr Peter Handsides, Managing Director, MyFaceMyBody.com
Stephen Handsides is a creative sales and marketing expert and TV presenter specialising in the beauty and medical aesthetics sector. He runs a successful media company called Handi Media working with some of the largest aesthetic companies in the UK and internationally. Handi Media offer bespoke media solutions for brands and practices with strong connections into the television and celebrity promotional sectors. Stephen’s consumer brand, MyFaceMyBody has grown internationally and has enabled medical professionals to engage with its innovative online platform and awards it runs yearly.

Ms Catherine Maley MBA, Cosmetic Image Marketing
Catherine Maley MBA is the Author of a popular book called Your Aesthetic Practice/ What Your Patients Are Saying. As an entrepreneur and aging Baby Boomer with a strong career background in sales and internet marketing, she is considered one of the top aesthetic marketing strategists in the USA.

Catherine is an International speaker and regular contributor to the top medical publications in the industry and has been interviewed by New York Times and NBC News. Her 13-year-old firm, Cosmetic Image Marketing, specialises in growing aesthetic practices using customised marketing strategies.

Ms Tingy A. Simoes, Managing Director of Wavelength Marketing Communications and Founder of Cacique Public Relations
Tingy began her career in financial and later healthcare PR in New York City. Upon moving to London, she was headhunted to run the branding and design unit at Goldman Sachs. In early 2002, Tingy launched her own consultancy, Wavelength Marketing Communications, which over the past decade helped establish a number of high-profile organisations as the most respected voices in healthcare, including the British Association of Aesthetic Plastic Surgeons (BAAPS), the British Academy of Cosmetic Dentistry and various well-known medical charities. The success of Wavelength was followed by the introduction of a sister PR agency focused on the private sector, Cacique Public Relations (ka'seeek ‘leader of the tribe’), which also grew exponentially. Tingy is the author of the first-ever PR handbook aimed at plastic surgeons and cosmetic doctors: “How to Cut it in the Media”.

Mr Mark Lainchbury, Managing Director, e-clinic
Mark Lainchbury developed the first version of e-clinic in 2002. The software has since become one of the leading private sector patient management systems with users in eleven countries.

Dr Caroline Fryar MBChB DRCOG DCH MRCPG LL.M MFFLM, Medico-legal Adviser, The MDU
Caroline is a medical-legal adviser at the Medical Defence Union (MDU). She studied medicine at the University of Sheffield and then went on to train as a GP in Cheshire. She gained MRCPG in 2005. Caroline joined the MDU in 2006 and has subsequently completed an LL.M in Medical Law at Cardiff University and she has also gained her MFFLM.

Dr Ray Stanbridge FCCA FCMA, Managing Director, Stanbridge Associates Ltd
Ray Stanbridge is a graduate of Leeds, Nottingham and the Victoria University of Wellington, New Zealand. He is a Fellow of the Chartered Association of Management Accountants and the Chartered Association of Certified Accountants. Following a career in the accounting profession and industry he obtained Stanbridge Associates Ltd in 1994. This is a specialist niche accounting firm and consultancy offering accounting, taxation and business advisory services to medical consultants, GPs and other medical professionals.

Mr Tom Hunt, Managing Director, PPM Software
Tom Hunt is the Managing Director of PPM Software Limited which was formed on the 1 August 1998 and supplies software to medical consultants in private practice. Prior to this Tom was MD of a company supplying software to the textile industry and before that he was a partner supplying software to the newspaper industry. Tom has been involved in running companies supplying specialist application software for the last 20 years. Prior to this Tom spent 8 years working as a Field Technician repairing computer systems and before that spent 11 years in the Royal Air Force.

Dr Paul Myers MBBS FRCPG BSc FRSM, Revalidation and Appraisal Director, Doctors Appraisal Consultancy
Paul Myers is director of Doctors Appraisal Consultancy, an organisation which provides advice and support to independent (non-NHS) doctors undertaking appraisals and working towards their revalidation. His original background was as an NHS General Practitioner, when he also pursued his interest in doctors education needs assessment, through a senior lecturer post with St. Barts. Hospital medical school. Dr Myers is currently a specialist advisor to IHAS, with whom he collaborated on an appraisal pilot. He now provides appraisal services to a wide range of designated bodies, including NHS London and the Independent Doctors Federation. His current research interest is the quality assurance of doctors appraisals.

Ms Claire Petts, Partner and Head of Healthcare at Clyde & Co
Claire Petts is a partner in the healthcare team at Clyde & Co. She specialises in medical malpractice and healthcare work. She advises on a broad range of claims against medical professionals with particular expertise in plastic surgery. Claire also undertakes a wide range of healthcare work, including providing representation at inquests, representing clinicians before their regulatory body, and general advisory work. She also contributes regularly to both internal and external publications, speaks at conferences and regularly trains medical practitioners on healthcare issues. Claire is rated in both Legal 500 and Chambers and Partners.

Ms Tracey Prior, Business Development Manager & Mr Scott Baker, Creative Director, Blow Media
About Scott: Scott has been developing successful brands since the late 1980s. He has a wealth of understanding and knowledge of injecting creativity into workable marketing materials within this ever evolving and challenging Industry. About Tracey: With in excess of 12 years business development experience, Tracey is acutely aware of how intelligent marketing through various mediums in a creative and considered way can directly impact your brand both aesthetically and commercially.

Combining Scott’s creative knowledge and Tracey’s commercial experience, Blow Media bring an unrivalled resource through multiple media that will compliment your ambitions and turn them into success.

Dr Berrini, Gynaecologist-Obstetrician, Vivacy Laboratories France

Dr Berrini holds a medical degree from Nancy University. He specialised in surgical gynaecology and became head of obstetrics department of Foix and Pamiers hospitals. From 1990 to 1993 he was leading an international European project focused on dynamic phototherapy in the oncological field. In the light of these results, Dr Berrini was recruited by the international centre of endoscopic surgery of Clermont-Ferrand to lead the teaching program of this institution. In the meantime he conducted an important research program for the medical imaging department of Enseign-Polytechnique school of Toulouse.

Mr Elliot Issacs, Founder & Director, Medik8 Skin Research

Elliot Issacs graduated from the University of Leeds - Pharmacology and Physiology Department. Elliot has 12 years of experience in developing professional skincare products with a focused interest in percutaneous absorption of skin care ingredients. Elliot Issacs (Pharmacologist and Founder) wanted to bring the science of drug development into cosmetics, where delivering stable, non-irritating active ingredients to the skin is the rule not the exception; where a new culture of using green technologies replaces outdated thinking; where skincare results are expected. The 100% professional-only Medik8 range was launched in 2008. It represents a refreshing results-driven approach to skincare.

Dr Ravi Jain, MEdSci MBBS DRCOG MRCP, Medical Director, Riverbanks Clinic

Dr Ravi Jain MEdSci MBBS DRCOG MRCP MBACD qualified from the Royal London Hospital in 1995 and has since held posts at The Royal London, St. Bartholomew’s and St. Mary’s Hospitals. Early in his career he trained in gynaecological laparoscopic surgery before training as a GP. He specialises in cosmetic dermatology and minor surgery. Ravi is Medical Director at Riverbanks Clinic, a double award-winning cosmetic medical practice based in Harpenden, Herts, where he provides a number of treatments. Riverbanks Clinic is renowned for its excellence and won ‘Best New Clinic’ and ‘Best Business Development’ in the 2009 Aesthetic Medicine Awards.

Mr Maurice Smeets, Marketing Director, H&O Equipments

Maurice Smeets is Marketing Director with H&O Equipments and co-developer of CryoPen treatments. He is a lecturer at international conferences on cosmetic dermatology, contributor to a number of trade publications in the US and Europe and consultant for CryoPen workshops worldwide.

Mr Philip Andrews, Product Manager, Energist Medical Group

Philip has 22 years of experience in the Medical Device market, in both sales and clinical development. As part of the original development team of the Nitrogen Plasma Skin Regeneration (PSR) technology, Philip has a vast knowledge of the technology of the NeoGen Plasma System and its associated treatments.
**WORKSHOP BIOGRAPHIES**

**Dr Tapan Patel, Cosmetic Doctor**  
Dr Tapan is the owner and director of a private medical clinic which launched in 2003. The clinic offers a wide array of aesthetic treatments. As a hospital doctor he was actively involved in the teaching of undergraduate medical students and junior doctors. He has also taught many doctors and nurses in the use of injectable procedures and also lectures on the BTEC in Lasers and Light course. His extensive experience as a speaker, both in the UK and internationally, draws on the latest in scientific research and his own personal experience within the industry. Syneron Candela is delighted to have him as a KOL and that he is speaking for them at CCR 2013.

**Dr Michele Pelletier, President & Dermatologist, LED Academy**  
With a strong 30 years experience in dermalogy, angiography and anti-ageing, Michele Pelletier naturally started to specialise in laser technology by creating a dermo-esthetic and anti-ageing laser centre. After 20 years of light therapy practice, she explored other areas like radiofrequency and other light sources like the non-thermal effects of light emitting diode. Member of diverse medical associations: AFME, AMME, SFD, SFDL, ESLD, SOFMMAA, WALT Led Academy President since 2010 October.

**Dr Giulia Cattarini, Dermatologist & Medical Director, Mastelli**  
Degree in Medicine and Surgery, University of Genoa (Italy). In 2001 post-graduate degree in Dermatology and Venerology. From 2001 clinical activity in the Institute of Dermatology of University of Genoa (Italy) and outpatient clinic activity in Dermatology and Aesthetic Medicine. From 2005 Medical Director of Mastelli Srl, Bio Pharmaceutical Company. Participation to several National and International Congresses on Dermatology and Aesthetic Medicine also like speaker. Tutor in Master of Aesthetic Medicine University of Pavia and University of Genoa, tutor in IAF Rome (Istituto di alta formazione – institute of higher education). Member of different medical society: Member of the professional order of Medicine and Surgery of Genoa with the number 13639 since 1995; SIES Italian Society of Aesthetic Medicine and Surgery; DDI – Donne Dermatologhe Italiane (Italian women dermatologist).

**Samantha Jones, Managing Director, Finishing Touches**  
Samantha has been a Director of Finishing Touches since 2005. Prior to that she worked within adult education and the NHS. She had never really imagined working in the medical and beauty sectors but ever one to rise to a challenge, she could see the huge potential and was overwhelmed by the difference such straightforward procedures can make to people’s lives. Researching and developing new ideas is a real passion of hers. It’s been so rewarding watching their vision for Medical Tattooing develop and come alive and she is proud to work alongside such esteemed and brave people.

**Mr Rami Bakal, Marketing Director, CoolSense Medical Ltd**  
Mr Rami Bakal served in the last 6 years as the Marketing Manager at CoolSense Medical Israel and has been in charge of international marketing around the world while being responsible for regulatory processes in Europe, America and South East Asia. Rami combines the knowledge gained in the field of industrial engineering and marketing to follow the process from R&D to production of CoolSense Medical’s innovative products. Mr Bakal managed, in the years preceding this role, the national and international marketing of companies in the field of make-up, cosmetics and medical products supplies.

**Mr Alex Karidis, Plastic Surgeon**  
Mr Karidis has earned a reputation for being one of the UK’s most highly skilled Cosmetic Surgeons. His dedication to excellence and commitment to personal care and attention set him apart. As a highly respected surgeon Mr Karidis is regularly called on by the UK and International media to comment on Cosmetic Surgery. Mr Karidis currently runs his own private practice from The Hospital of St John and St Elizabeth, St John’s Wood, London.

Having published over 30 articles, book chapters and textbooks, Dr DiBernardo is an International leader in the development, research and training for skin, lasers and other energy source devices in aesthetic medicine.

Dr Samantha Hills, Clinical Manager, Lynton Lasers Ltd
Dr Samantha Hills is the Clinical and Training Manager at Lynton, the leading UK manufacturers of Lasers and Intense Pulsed Light systems. Samantha runs the industry-leading Lynton / University of Manchester Skin Laser courses that are available to anyone in the industry with an interest in laser applications. Before joining Lynton she completed a degree in Physics, followed by a PhD in Physics and Plant Sciences. She has worked in the field of light responsive drug delivery. Dr Hills has been asked to contribute to a number of laser workshops and has published over 30 papers in a variety of medical and scientific journals.

Dr Erik Azizyan, Plastic Surgeon, Total Charm Clinics
Specialist in Plastic, Reconstructive and Aesthetic Surgery area, a certified trainer for Aptos thread lifting. He was born in Georgia in 1979, in 2006 graduated the Moscow Institute of Medical and Social Rehabilitation at the Russian State Medical University (MSMIB). In 2009 graduated acad. Petrovsky Russian Scientific Center of Surgery. Since 2004 is a General Director of Aptos-Pro Ltd. Since 2009 is a Head Physician in Total Charm clinic, Moscow. Attended many aesthetic & plastic surgery congresses as a speaker. Is a member of Russian Aesthetic Society. Is an organiser of congresses on Plastic, Reconstructive, Cosmetic, Reconstructive and Cosmetic Surgery. Dr. Azizyan has formed the methodology description of thread lifting and has proved the reasonability of the given technique in aesthetic cosmetology and plastic surgery area.

Dr George Chemyanov, Plastic Surgeon, PhD, Lecturer of Plastic Surgery Course at Plastic Surgery and Cosmetology Institute
Certified Plastic Surgeon, PhD of Medicine, a member of the Russian Society of Plastic, Reconstructive and Aesthetic Surgeons (ROPREH), a member of the International Society of Plastic, Reconstructive and Aesthetic Surgeons (IPRAS), Lecturer of Plastic Surgery Course in Plastic Surgery and Cosmetology Institute (Moscow, Russia). He graduated with honors from the Stavropol State Medical Academy (specialty General Medicine). He studied in the clinical residency with a specialisation in Surgery. In 2009 he defended his thesis “Prediction and prevention of post-operative complications in surgery of large and giant ventral hernias” in the Russian National Scientific Center of Surgery named after Academician BV Petrovsky Russian Academy of Medical Sciences (Moscow). Scientific work is dedicated to improving the results of plastic the anterior abdominal wall (abdominoplasty). Author and co-author of 30 scientific works published in Russian and foreign specialised editions. Developed and introduced into clinical practice of 2 work-improvement suggestions. Certified Trainer of APTOS.

Dr Raj Acquilla, Cosmetic Physician
Dr Raj Acquilla graduated from Manchester University in 1999 and during his 13 year medical career has gained 10 years experience in Cosmetic Dermatology having performing over 14,000 procedures. He is an expert in medical aesthetics, facial contouring, volume replacement, Dermatological surgery including facial skin cancer and undergraduate / postgraduate clinical. He runs two boutique clinics in Cheshire and his own Facial Aesthetic Academy where he is a recognised Advanced Trainer using the latest and innovative facial rejuvenation techniques from around the world. He is a full member and North West Regional Chair of the British Association of Cosmetic Dermatologists for Adult and Facial Aesthetic. He is an Opinion Leader in the cosmetic use of Botulinum toxin and Dermal Fillers. In addition to speaking at domestic and international events he is actively involved in scientific audit, research and development of pioneering products and techniques.

Dr Gabriela Mercik, Medical Director of Hebe Anti-Aging & Aesthetic Medicine Clinics & Director, Dermagenica
Dr Gabriela Mercik is Medical Director of Hebe Anti-Aging and Aesthetic Medicine Clinics & Director of Dermagenica Ltd. Her research career began in Poland 15 years ago in Cardiology and internal medicine. She worked in the hospital of Heart and Lung transplants for 10 years. She carried out research in field of LDL-apheresis and published in the American Journal of cardiology. For the last 5 years has been working in hospitals in Northern Ireland in General Medicine, Cardiology, Palliative Care and Rehabilitation. She developed an interest in aesthetics three years ago and has studied Dermatology with a special interest in skin rejuvenation. She is an advanced aesthetic trainer in biomimetic skin rejuvenation mesotherapy, dermal fillers, threads and botulinum toxin. She practices cosmetic medicine in her clinics in Northern Ireland. She has been asked to speak at many conferences throughout Europe about her work with Nanopeptides in Mesotherapy.

Dr Ahmed Haq, Cosmetic Doctor, Cosmedocs
Dr Ahmed Haq is a cosmetic doctor, currently providing aesthetic services through Cosmedocs - a well-reputed clinic in Harley Street. He graduated from the Royal College of Surgeons Medical School in Ireland and has been practicing medicine in Harley Street since 2002. His special interest in mini Rhinoplasty, which is a non-surgical nose job using dermal fillers, has made him immensely popular over the last few years. This innovative technique has further enabled him in providing specialised treatment for ethnic noses including Asian and African ones. He is also very experienced in treating patients with previous unsuccessful surgical Rhinoplasty.

Dr Natalie Blakely BA MBBS mBCAM GMC Registered, Light Touch Clinic
Dr Natalie Blakely is an award-winning Cosmetician, the Medical Director of the Light Touch Clinic in Surrey and the creator of the Consentz patient management App for aesthetic practitioners. Dr Natalie’s key areas of expertise are injectable treatments including Botox, dermal fillers and INTRAcel, widely recognised to be one of the most effective radio frequency skin-tightening treatments on the market.

The Light Touch Clinic was one of the first clinics in the UK to offer INTRAcel and Dr Natalie has performed over 300 procedures to date. INTRAcel’s exceptional results have made it one of the most requested procedures at the clinic.

Mrs Sharon King, Cosmedic Skin Clinic
Sharon King and her husband Dr Martyn King run the highly successful Clinic, Cosmedic Skin clinic, based in Tamworth. Both are recognised experts in the field of Aesthetic Medicine and are National and International accredited trainers. Sharon is a registered nurse, an independent prescriber, a board member of the British Association of Cosmetic Nurses and their Midlands Regional Lead. Sharon won the award for “Rising Star” at the 2012 Cosmetic News awards. Sharon and Martyn train on all aspects of aesthetic medicine at their training academy and offer bespoke courses and mentoring catering for the novice through to expert.

Dr DiBernardo has been asked to contribute to a number of laser workshops and has published over 30 papers in a variety of medical and scientific journals.
Mr Fabrice Rogge, Consultant Plastic Surgeon
Dr Rogge is a board certified plastic surgeon from Belgium with Clinics in Bruges and Ghent. As part of his international training he worked for several years in plastic surgery at Mount Vernon Hospital (Northwood, UK). He conducted pioneering research that was awarded the prestigious Healing Foundation/BARRAS Award. Subsequently he continued his specialisation in aesthetic surgery and specific areas of reconstructive surgery in centers of excellence in London. In Belgium, Dr Rogge has a private practice in Cosmopolis Clinic (Bruges - Belgium), where he is in charge of the aesthetic laser clinic specialising in all non-invasive treatments and laser applications. Dr Rogge is also co-organiser of a prestigious aesthetic surgery meeting Newtec, which is held every year in Cosmopolis Clinic.

Mr Philip Andrews, Product Manager, Energist Medical Group
Philip has 22 years of experience in the Medical Device market, in both sales and clinical development. As part of the original development team of the Nitrogen Plasma Skin Regeneration (PSR) technology, Philip has a vast knowledge of the technology of the NeoGen Plasma System and its associated treatments.

Dr Kate Goldie, Clinical Director, European Medical Aesthetics
Dr Goldie runs one of the UK’s largest aesthetics training companies and regularly provides international I training support globally to manufacturers of aesthetic products. She is a member of the British College of Aesthetic Medicine and is renowned in the industry as an expert in non-invasive facial restructuring having presented and demonstrated at many UK and international congress including; FACE, IMCAS and AMWC. Dr Goldie is also the Medical Director of Advanced Rejuvenation Clinic, Glasgow.

Dr Claire Oliver, Director, Air Aesthetics Clinic
Dr Claire Oliver (BDS) is the Director of Air Aesthetics Clinic and has over 10 years experience in non-surgical facial rejuvenation techniques. Dr Oliver has extensive experience in head & neck anatomy and injection techniques in addition to advanced training in Facial Aesthetics. She now practices full-time as an aesthetic practitioner in Henley-in-Arden, Warwickshire.

Dr Bettina Rümmelein MD, Dermatologist, Medical Center See-Spital
After the study of Human Medicine at the University of Hamburg, she continued her education at the University Hospital Hamburg-Eppendorf where she received the degree as a medical specialist for dermatology in 1994. From 1996 to 1998 she performed further qualification in allergology. From 1998 to 2008 she ran a private practice for dermatology with emphasis on cosmetology and laser medicine. After moving to Zurich Bettina started to work part-time at the University Hospital Zurich. Since April 2011 she is head of the consultation for aesthetic dermatology and laser medicine. In 2008 she opened a private clinic for dermatology and laser medicine at the Medical Center See-Spital Kilchberg/Zurich. The practice offers the whole variety of state-of-the-art laser treatments and is recognised by the laser commission as training centre for doctors in all laser categories.
**Dr Tapan Patel, Cosmetic Doctor**

Dr Tapan Patel is the owner and director of a private medical clinic which launched in 2003. The clinic offers a wide array of aesthetic treatments. As a hospital doctor he was actively involved in the teaching of undergraduate medical students and junior doctors. He has also taught many doctors and nurses in the use of injectable procedures and also lectures on the BTEC in Lasers and Light course. His extensive experience as a speaker, both in the UK and internationally, draws on the latest in scientific research and his own personal experience within the industry.

---

**Dr Patrick Bowler, Medical Director, Courthouse Clinics**

Dr Patrick Bowler qualified in 1974 at the Royal London Hospital and he is a pioneer of non-surgical cosmetic treatments with over 25 years’ experience. Dr Patrick Bowler is a Founder member, past President and Fellow of the British College of Aesthetic Medicine (formerly the British Association of Cosmetic Doctors). He is a member of the Society for Laser Medicine and Surgery. Dr Bowler is on the Governance Board for Treatments You Can Trust and is the author of The Nervous Girl’s Guide to Nip & Tuck. His opinion on the aesthetic industry is highly respected and he is frequently quoted in the media and on TV.

---

**Dr Nicoletta Frasca, Medical Doctor**

Dr Nicoletta Frasca runs her private dermatologic practice in Torino, Italy. She has been working for the dermatologic hospital S. Lazzaro, Torino, Italy, from 1979 to 1999. She is an active member of the International Society of Dermatologic Surgery, as well as of the “Società Italiana di Dermatologia Chirurgica” (Italian Society of Surgical Dermatology). She is renowned for using non-invasive techniques for facial rejuvenation and facial restructuring. She took part as speaker in many Italian and International congresses on dermatology, surgery, aesthetic medicine and cosmetology.

---

**Dr Samantha Hills, Clinical Manager, Lynton Lasers Ltd**

Dr Samantha Hills is the Clinical and Training Manager at Lynton, the leading UK manufacturers of Lasers and Intense Pulsed Light systems. Samantha runs the industry-leading Lynton / University of Manchester Skin Laser courses that are available to anyone in the industry with an interest in laser applications. Before joining Lynton she completed a degree in Physics, followed by a PhD in Physics and Pharmaceutical Sciences, working in the field of light responsive drug delivery. Dr Hills has been asked to contribute to a number of books on laser treatments and has published over 30 papers in a variety of medical and scientific journals.

---

**Dr Donna Freeman, Director of Clinical Research & Education, Chromogenex**

From a background in Chemistry and biochemistry, Donna started work in the Medical Laser and Light industry at the end of 1999 as a Clinical Trainer. 11 years at Chromogenex has enabled Donna to build up a comprehensive experience with the full spectrum of medical and aesthetic light based technologies, as well as non-light based treatments such as microdermabrasion, carboxy therapy and cosmeceuticals. In recent years the focus of Donna’s attention has been on developing clinical education for the Chromogenex products, research to improve clinical protocols, safety and efficacy and for input into new device development.

---

**Dr Askari Townshen, Medical Director, Skin Clinic**

Dr Askari Townshen qualified as a doctor in 2002 and was awarded MRCS in 2006. Already with several years of injectable experience, Dr Askari opened his own clinic in 2008. Having been approached by scn in 2010, he sold the clinic and held the position of Director of Medical Services there. Currently, Dr Askari is the Medical Director of the Northampton skin clinic and continues to provide treatments in several skin clinics. His interests include injectables, lasers, Radiofrequency and peels. Dr Askari trains on behalf of Sinclair Pharma (Sculptra) and Allergan in addition to other consultancy and media work.

---

**Dr Scilletta Alessandra Maria Concetta, Medical Director**

MD Scilletta Alessandra has a degree in medicine and surgery at the University of Catania and a postgraduate diploma in plastic and reconstructive surgery at the University of Catania. She has cooperated to the writing of various scientific publications. Currently, MD Scilletta is the medical director of a surgical private practice.

</table>
Mr Paul Harris, Consultant Plastic Surgeon, UNITED KINGDOM
Paul Harris is a Consultant Plastic Surgeon in Central London. He operates privately at The London Clinic and within the NHS at The Royal Marsden Hospital, where he is Lead Clinician for the Department of Plastic Surgery. He specialises in both aesthetic and reconstructive surgery of the breast and has been instrumental in developing several microvascular techniques in the UK. Since 2010, he has been a Council member of the British Association of Aesthetic Plastic Surgeons (BAAPS). He is also Specialist Clinical Advisor for NICE and a board member of a plastic surgery specific indemnifier (PRASIS).

Mr Lucian Ion, Consultant Plastic, Aesthetic & Reconstructive Surgeon, UNITED KINGDOM
Lucian Ion trained in plastic surgery in the United Kingdom and France and took up a consultant post at the Chelsea and Westminster Hospital, London, where he worked for 12 years whilst at the same time developing his interest in aesthetic surgery and medicine in private practice. From 2012 he stopped his NHS commitment and focused on aesthetic surgery and medicine with primary interest in rhinoplasty and facial treatments for rejuvenation and sculpting. His current research is focused on the interactive approach to evaluation and planning of facial surgery interventions using advanced imaging techniques in 2-D and 3-D.

Mr Henri Thuau, Consultant Maxillo-Facial Surgeon, UNITED KINGDOM
Mr Henri Thuau is a Consultant Cranio-Maxillo-Facial Surgeon and the Secretary General of the European Association for Cranio-Maxillo-Facial Surgery and an Expert on Craniofacial surgery and Craniofacial Trauma. He is a member of the Royal Belgian Society for Surgery, the Belgian and Dutch Association for Plastic Surgery, the Australasian Association for Plastic Surgery, the Royal College of Surgeons of Edinburgh as well as the American Society of Aesthetic Plastic Surgeons. He is also a member of the Royal Belgian Society for Surgery, the Belgian and Dutch Association for Plastic Surgery, the ISAPS (International Society of Aesthetic Plastic Surgeons) and the ASAPS (American Society of Plastic Surgeons). He has written numerous publications on reconstructive and aesthetic surgery. Dr Verpaele has presented over a hundred papers on facelifts, breast augmentation, fillers and bootox at international conferences and has contributed to many popular and scientific articles.

Shannon Leeman, International Plastic Surgery Adviser, USA
With over 15 years experience in the health and beauty industry, Shannon is an expert on cosmetic surgery and the latest anti-ageing techniques. As a journalist, she has written for top publications, such as Grazia, Tatler, The Mail, W Magazine and Style Magazine for The Sunday Times. Shannon has made numerous television appearances, including Channel 5’s “Celebs Without Slap”, advising on all things anti-ageing. With an impressive list of high profile clients, Shannon is described by The Daily Mail as “the LA circuit’s best kept secret”.

Dr Alexis Verpaele MD, Plastic Surgeon, BELGIUM
Dr Alexis Verpaele is the co-director of the Couperie Centre for Plastic Surgery in Ghent and the ’t Zwin Medical Centre in the Dutch town of Oostburg. Dr Verpaele is a member of the Royal Belgian Society for Surgery, the Belgian and Dutch Association for Plastic Surgery, the ISAPS (International Society of Aesthetic Plastic Surgeons) and the ASAPS (American Society of Aesthetic Plastic Surgeons). He has written numerous publications on reconstructive and aesthetic surgery. Dr Verpaele has presented over a hundred papers on facelifts, breast enlargement, fillers and botox at international conferences and has contributed to many popular and scientific articles.

Dr Michele (Mica) Engel, Aesthetic Doctor, UNITED KINGDOM
Dr Michele Engel, known as Mica, graduated in General Medicine in 2004 in Brazil where she began her medical career as a GP and A&E doctor. Since arriving in London in 2007, Mica has built an outstanding reputation within the field of cosmetic medicine. Her deep understanding of facial structure means she can achieve natural looking results by using precise, but subtle, techniques. Her specialties include wrinkle relaxing and dermal filler injections, non-surgical neck and facelifts, cheek and chin augmentation and lip enhancement. Mica believes skin care is the basis of every good treatment and that true beauty is achieved by enhancing facial features, not creating new ones.

Dr Woffles Wu, Consultant Aesthetic & Plastic Surgeon, SINGAPORE
Dr Woffles Wu is the medical director and consultant aesthetic and plastic surgeon at the Woffles Wu Aesthetic Surgery and Laser Centre in Singapore since 2000. Dr Wu sits on numerous committees in several international professional bodies such as the International Society of Aesthetic Plastic Surgeons ISAPS, the International Consortium of Aesthetic Plastic Surgeons ICAPS and the American Society of Aesthetic Plastic Surgeons ASAPS. Dr Wu has published many clinical papers and book chapters and pioneered the Steal Incision Technique for breast augmentation in 1996. He developed the WOFFLES THREAD and WOFFLES LIFT non-surgical facelifting procedure in 2002. Dr Wu has been featured on TV and in over 250 books, newspaper and magazine articles and was featured as one of the 20 most famous plastic surgeons in the world in the 2006 book “Aesthetic Surgery”.

Dr Luiz Toledo, Consultant Plastic Surgeon, Dubai, UAE
Dr Luiz Toledo is known and respected as an innovator in the surgical techniques of facial rejuvenation and body contouring. A highly sought after lecturer, Dr Toledo is one of the key developers of superficial liposculpture and one of the pioneers of the Fat Grafting Technique. He coined the term ‘Brazillian Buttock’ as he has been using for almost 30 years. One of his interests is in the development of minimally invasive techniques in aesthetic surgery, Dr Toledo has edited fourteen plastic surgery textbooks and has contributed countless chapters to other surgeons’ books and published in over 100 medical and international publications. He has given more than 100 teaching courses about aesthetic surgery and organised 28 international congresses and symposiums.

Dr Richard Barlow, Consultant Dermatologist, UNITED KINGDOM
Richard Barlow performed his postgraduate general medical training at Hammersmith Hospital in London and went on to do an MD as Research Fellow to Professor Malcolm Greaves. He completed his general dermatology training at St John’s Institute of Dermatology in London and then spent a year as Fellow in Advanced Dermatologic and Mohs Surgery to Dr Neil Swanson in Portland, Oregon. Since 1996, he has been a Consultant Dermatologist at St John’s and more recently to the Joint Tumour Service at Moorfields Eye Hospital. He was President of the St John’s Dermatology Society (2009/10), founding President of the British Cosmetic Dermatology Group and is a Director of its annual meeting. He is in part-time private practice at The Lister Hospital in London.

Mr Marc Pacifico, Consultant Plastic & Reconstructive Surgeon, UNITED KINGDOM
Mr Marc Pacifico MD FRCS (Plast) is a Consultant Plastic Surgeon in East Grinstead with a busy private practice principally based in Tunbridge Wells, Kent. He recently opened an exclusive private clinic in the heart of Tunbridge Wells, Purity Bridge. His interest in aesthetic surgery includes surgery to the breast, face, neck and body contouring. He was awarded the “gold medal” for his performance in the FRCS (Plast) exam and he is regularly asked to speak at national and international meetings. He prides himself on achieving long-lasting and natural-looking results from his aesthetic practice.
Mr Adam E. Searle, Plastic & Reconstructive Surgeon, UNITED KINGDOM
Adam Searle is a past President of the British Association of Aesthetic Plastic Surgeons. In 1994 Mr Searle was appointed as consultant plastic and reconstructive surgeon at the Charing Cross Hospital and in 1999 Mr Searle was appointed at the Royal Marsden Hospital where he currently holds the position of Senior Plastic and Reconstructive surgeon. Mr Searle has presented at a range of national and international plastic surgery conferences, is actively involved in postgraduate training, and has contributed to a number of press articles and broadcasts on the subject of plastic and reconstructive surgery. Mr Searle works within a team of surgeons, specialist plastic surgery nurses, personal assistants and receptionists in his private practice, at The Consulting Suite, in central London.

Mr Stephen Hamilton, Consultant Plastic and Reconstructive Surgeon, UNITED KINGDOM
Mr Hamilton qualified from the University of Glasgow Medical School in 1991. He is a fellow of the Royal College of Surgeons of Glasgow and of the Royal College of Surgeons of Edinburgh and trained extensively in plastic surgery in Glasgow, London and Paris. Mr Hamilton holds the post of Consultant Plastic and Reconstructive Surgeon at the Royal Free Hospital in Hampstead and the Whittington Hospital in North London. He is Lead Surgeon for skin cancer treatment in the London Cancer Network. His research has led to numerous national and international presentations at conferences and publications in the UK and international plastic surgical literature.

Dr Bessam Farjo, Hair Restoration Surgeon, UNITED KINGDOM
Dr Bessam Farjo is one of the world’s leading hair restoration surgeons and the medical director of the Institute of Trichologists. He trained at the Royal College of Surgeons in Ireland and specialised in hair transplantation in Toronto, Canada in 1992. He is Fellow, International College of Surgeons (FICS), Diplomate & Board Director, American Board of Hair Restoration Surgery (ABHRS), Graduate, Royal College of Surgeons in Ireland (RCSI), Past President (2007-08), International Society of Hair Restoration Surgery (ISHRS), Past President and founder member, British Association of Hair Restoration Surgeons (BAHRS), Member, European Hair Research Society (EHRS), Fellow, European Academy of Cosmetic Surgery (EACS), Fellow, Board Governor and Medical Director, Institute of Trichologists (est. 1902), Founder member, The Trichological Society and Editor, The Trichologist Journal.

Dr Nilofer Farjo, Hair Restoration Surgeon, UNITED KINGDOM
Nilofer Farjo has been exclusively performing hair restoration since 1993 in Manchester and London. She is a member of the International Society of Hair Restoration Surgery, Co-editor of their journal Forum International and diplomat of the American Board of Hair Restoration Surgery. Nilofer is a past President and founder member of the British Association of Hair Restoration Surgery, Fellow, of the Institute of Trichologists, past President of The Trichological Society and treasurer of the European Hair Research Society. She currently works with four universities and one public company on basic hair sciences projects.

Dr Greg Williams, Hair Transplant Surgeon, UNITED KINGDOM
Greg Williams spent 9 years as a Burns Consultant in the NHS, was the lead clinician at London’s Chelsea and Westminster Burns Service from 2006-2012 and was the Clinical Director of the London and South East of England Burn Network from 2008-2012. He co-authored the UK national documents for Burn Major Incidents, Burn Advice to National Trauma Networks and Thresholds for Admission to Burn Services. During his Burns and Plastic Surgery training he developed an interest in hair restoration, acquired his early training in the specialty in Brazil and Canada in 2003, and was one of the only providers of hair transplants in the NHS. He now exclusively performs hair transplant surgery at the Farjo Hair Institute. He is on the faculty of the Plastic Surgery MSC programme at University College London and is involved in running the British Association of Hair Restoration Surgery.

Adam Searle is a past President of the British Association of Aesthetic Plastic Surgeons. In 1994 Mr Searle was appointed as consultant plastic and reconstructive surgeon at the Charing Cross Hospital and in 1999 Mr Searle was appointed at the Royal Marsden Hospital where he currently holds the position of Senior Plastic and Reconstructive surgeon. Mr Searle has presented at a range of national and international plastic surgery conferences, is actively involved in postgraduate training, and has contributed to a number of press articles and broadcasts on the subject of plastic and reconstructive surgery. Mr Searle works within a team of surgeons, specialist plastic surgery nurses, personal assistants and receptionists in his private practice, at The Consulting Suite, in central London.

Mr Stephen Hamilton, Consultant Plastic and Reconstructive Surgeon, UNITED KINGDOM
Mr Hamilton qualified from the University of Glasgow Medical School in 1991. He is a fellow of the Royal College of Surgeons of Glasgow and of the Royal College of Surgeons of Edinburgh and trained extensively in plastic surgery in Glasgow, London and Paris. Mr Hamilton holds the post of Consultant Plastic and Reconstructive Surgeon at the Royal Free Hospital in Hampstead and the Whittington Hospital in North London. He is Lead Surgeon for skin cancer treatment in the London Cancer Network. His research has led to numerous national and international presentations at conferences and publications in the UK and international plastic surgical literature.

Andrea James, Senior Associate, Shoosmiths LLP, UNITED KINGDOM
Andrea is an English and Irish qualified solicitor who leads Shoosmiths’ Professional Discipline & Healthcare Regulatory team in Manchester. The main focus of Andrea’s work is to assist healthcare professionals at all stages of regulatory proceedings brought by their regulatory bodies, particularly doctors before the General Medical Council/Medical Practitioners Tribunal Service. Andrea also represents healthcare professionals in claims brought by a wide range of non-disciplinary matters, including Care Quality Commission issues, inquests, judicial review proceedings, registration and specialist registration (CESR) applications, revalidation, Deenery appeals and Freedom of Information Act and Data Protection Act enquiries. Andrea is a recognised expert in her field and writes and lectures extensively, in addition to tweeting as @HealthRegLawyer.

Professor Davinder P. S. Sandhu, Postgraduate Dean & Head of Education, NHS Education South West - Severn Deanship, UNITED KINGDOM
Professor Davinder Sandhu has been Postgraduate Dean of the Severn Deanship for 8 years and was previously a Consultant Urological Surgeon in Leicester for 13 years. He is Lead Dean for Oral Maxillofacial Surgery and for the five interface fellowships in Head and Neck, Aesthetic Reconstructive (Cosmetic), Cleft Lip and Palate, Breast Oncoplastic and Hand Surgery and Nuclear Medicine. He represents the COPMed at the Joint Medical Consultative Council and is the South West Regional Surgical Advisor for the Royal College of Surgeons of Edinburgh. He has published over 60 papers and in 2015 he was awarded the Bruce Medal by the RCSEd, for distinguished service to education and training.

Mr Anthony Armstrong, Consultant Plastic, Reconstructive & Hand Surgeon, UNITED KINGDOM
Anthony Armstrong has extensive experience in Plastic, Reconstructive & Cosmetic Surgery. He trained in Dentistry (BDS Hons) before going on to study Medicine (MB ChB Hons) and Surgery (ChB Hons). He completed his Advanced Training in Plastic, Reconstructive & Aesthetic Surgery in 2000 and was appointed as a Consultant Plastic & Reconstructive Surgeon at the Royal Free Hospital in 2002. He is a member of the British Association of Plastic, Reconstructive & Aesthetic Surgeons (BAPRAS) and is also a member of the British Association of Aesthetic Plastic Surgeons (BAAPS). He is a member of the British Medical Association (BMA).

Miss Katherine George, Consultant Oral & Maxillofacial Surgeon, UNITED KINGDOM
Katherine George is a locum consultant in oral and maxillofacial surgery at Kings College Hospital in London. She studied dentistry at The Royal London Hospital, qualifying in 1998. This was followed by medicine at Bart’s and the Royal London Hospitals, qualifying in 2005. She undertook her higher surgical training on the South Thames Rotation in London and the Royal Marsden. She undertook a fellowship in reconstructive cosmetic surgery at the NHS at the Royal Marsden in 2011. She is a fellow of the Royal College of Surgeons of England and the Royal College of Physicians.

Miss Hiba Al-Reefy, Consultant ENT Surgeon, UNITED KINGDOM
Hiba Al-Reefy is a locum consultant ENT surgeon with a special interest in Rhinology and Facial Plastic surgery at Guy’s and St. Thomas NHS Trust in London. She qualified in 2002 with first class honors. She completed her basic surgical training and completed MRCS Eng in 2004 and completed her basic ENT training at Bart’s and the Royal London Hospitals, qualifying in 2005. Her higher surgical training was on the South Thames Rotation in London and the Royal National Throat Nose and Ear Hospital in 2007. Her higher surgical training was on the South Thames Rotation in London and the Royal National Throat Nose and Ear Hospital in 2007. Her higher surgical training was on the South Thames Rotation in London and the Royal National Throat Nose and Ear Hospital in 2007.

Dr Polly Richards, Consultant Neuroradiologist, UNITED KINGDOM
Dr Polly Richards is a Neuroradiologist specialising in Head and Neck Imaging and has been a consultant at Barts Health NHS Trust since 2002. She trained in Oxford, Bristol and London before doing a subspecialty Fellowship in Head and Neck Imaging in Hong Kong. She has a special interest in Head and Neck imaging and has developed a comprehensive ultrasound service for the Trust along with a new rapid diagnostics service for head and neck patients. She lectures internationally on aspects of head and neck imaging and has contributed and co-authored several books and review articles on the subject.

Mr Andrew Batchelor, Plastic Surgeon, UNITED KINGDOM
Andrew Batchelor qualified at St Mary’s, winning the Challde Medal and trained there in general surgery. Andrew trained in Plastic Surgery in Slough, Nottingham and Glasgow. He was appointed consultant plastic surgeon to Leeds & York where his practice was focused on microsurgery and oncology. He resigned in 2003 and continues in independent practice. Andrew examined for FRCS (Plast) 1996-2003. He served 2 terms on the council of BAPRAS, as well as many committees. Andrew has been elected Fellow ad hominem to the Edinburgh College of Surgeons and was Godrej Professor of Plastic Surgery elected in 2002 by the Indian association. He was Foundation Lecturer of the Australasian College of Surgeons in 2002 being an Honorary Member of the Australian Society. He is an honorary member of the New England Society of Plastic Surgeons. He opines on 80 to 100 cases of alleged medical negligence each year.

Mr David J. Dunaway, Consultant Plastic & Reconstructive Surgeon, UNITED KINGDOM
Mr David Dunaway is a consultant plastic and reconstructive surgeon, and head of the Craniofacial unit at Great Ormond Street Hospital (GOSH). He has a special interest in facial deformity, paediatric craniofacial tumours and vascular anomalies, and earlier this year led the successful separation of conjoined twins Rital and Rag Gaboura. Mr Dunaway also works on the facial deformity service for adults at University College London Hospital (UCLH) and the Eastman Dental Hospital. He is a past president of the plastic surgery section of the Royal Society of Medicine and lead reconstructive surgeon for the Charity Facing Africa.
Mr Julian Rowe-Jones, Consultant Rhinologist & Nasal Plastic Surgeon, UNITED KINGDOM
Mr Julian Rowe-Jones FRCS (ORL) specialises in functional reconstructive and cosmetic nasal surgery. He received his surgical training in London teaching hospitals and has been Director of The Nose Clinic, Guildford and Consultant to The Royal Surrey County Hospital NHS Trust since 1998. Internationally recognised, he has been Chairman of The European Rhinoplasty Society. He has chaired the fellowship committee of the European Academy of Facial Plastic Surgery and is an invited faculty member and speaker on for The Milan Rhinoplasty Masterclass and the Chicago Advances in Rhinoplasty meetings. He has authored papers and book chapters on rhinoplasty. He is a board member of The International Federation of Facial Plastic Surgery Societies. He is co-director and co-founder of the myRhinoplasty London meeting.

Mr Charles A. East, Consultant in Otolaryngology, Rhinology & Facial Plastic Surgery, UNITED KINGDOM
Mr Charles East is a Consultant Surgeon at the Royal National Throat Nose and Ear Hospital and University College London Hospital’s NHS Trust. He is a Director of Rhinoplasty London and ENT@150 Harley Street. Charles is the lead clinician for the Rhinoplasty service at the Royal National Throat Nose and Ear Hospital, and is part of the craniofacial surgery team at University College Hospital Foundation Trust. He is an Honorary Senior lecturer at University College London and is an active member of the European Academy of Facial Plastic Surgery, The Rhinoplasty Society Europe and the British Association of Aesthetic Plastic Surgeons. Charles regularly lectures at national and international meetings, has published regularly in his field of expertise and maintains clinical contacts in many countries.

Mr Lucian Ion, Consultant Plastic, Aesthetic & Reconstructive Surgeon, UNITED KINGDOM
Lucian Ion trained in plastic surgery in the United Kingdom and France and took up a consultant post at the Chelsea and Westminster Hospital, London, where he worked for 12 years whilst at the same time developing his interest in aesthetic surgery and medicine in private practice. From 2012 he stopped his NHS commitment and focused on aesthetic surgery and medicine, with primary interest in rhinoplasty and facial treatments for rejuvenation and sculpting. His current research is focused on the interactive approach to evaluation and planning of facial surgery interventions using advanced imaging techniques in 2D and 3D.

Mr Paul Banwell, Plastic & Cosmetic Surgeon, UNITED KINGDOM
Paul Banwell is a Plastic and Cosmetic Surgeon with an international reputation in the fields of cosmetic surgery, anti-ageing, skin health and skin cancer and lectures worldwide on these subjects. He has published extensively and is a Visiting Professor of Plastic Surgery to Harvard Medical School. He has been listed in the Times Magazine as one of the UK’s Top 100 Doctors and appears both on TV and in the Press. He has pioneered some of the latest concepts in anti-ageing, skin health and chemical peels and is an acknowledged expert in cosmeceuticals. Paul is a full member of the BAPRAS, BAAPS and ISAPS and a founder member of the Safer Cosmetic Surgery group.
Lord Howe, Parliamentary Under-Secretary of State, Department of Health, UNITED KINGDOM

Lord Howe has been Parliamentary Under-Secretary of State in the Department of Health since May 2010. Educated at Rugby School and Christ Church, Oxford, Lord Howe began his career in Barclays Bank. In 1987 he was appointed London director of Adam & Co. plc where he remained until 1990. In 1991, Lord Howe became a government whip in the House of Lords and following the General Election of 1992 he was appointed Parliamentary Secretary (Lords) at the Ministry of Agriculture, Fisheries and Food. In 1995 he became Parliamentary Under-Secretary of State at the Ministry of Defence, a post he relinquished at the 1997 General Election. Between 1997 and 2010 he was opposition spokesman for Health and Social Services in the House of Lords. He is an elected hereditary peer under the provisions of the House of Lords Act 1999.

Leonor Stjepic, Chief Executive, Restoration of Appearance & Function Trust (RAFT), UNITED KINGDOM

As the CEO of RAFT, which finds new ways of treating the injured, Leonor Stjepic is very different from the charity norm. She thinks and acts like an entrepreneur (having run her own consultancy for years) and won’t put limits on herself so achieves a lot. One example was launching RAFT’s subsidiary Smart Matrix Ltd in January 2012 and in six months exceeded the £2m fundraising target. Leonor values fairness for others, particularly the vulnerable, because anyone can succeed but with success comes the responsibility to help others facing the same challenges. By heading RAFT and helping lots of people to make lots of little changes, she hopes to create a big difference, because Leonor wants the thing she’s most proud of in her life to be something she has yet to do.

Mr Mohammad Ali Jawad, Plastic, Reconstructive & Burns Surgeon, UNITED KINGDOM

Mohammad Ali Jawad is a Plastic, Reconstructive and Burns Surgeon, practicing predominantly in London and throughout the United Kingdom. His time is divided between work for the NHS and a private cosmetic surgery clinic, Nip n Tuck Surgery, for which he is the Managing Director and lead surgeon. His expertise was honed after he successfully restored the fully melted face of British model Katie Piper and was featured on the Beautiful Face documentary. He has travelled widely to undertake humanitarian projects and aid acid victims across the world. In 2012 a documentary about his work called ‘Saving Face’ won the Oscar for best documentary (short subject).

Mr Shehan Hettiaratchy, Consultant Plastic & Reconstructive Surgeon, UNITED KINGDOM

Shehan Hettiaratchy graduated as a doctor from Oxford University in 1994 with prizes in both medicine and surgery and a blue in boxing. He underwent surgical training in London, Birmingham, Boston and Sydney. He obtained FRCS (Eng) in 1998 and FRCS (Plast) in 2007. Shehan is currently the Lead Clinician for Plastic and Reconstructive Surgery and Honorary Senior Lecturer at Imperial College Healthcare NHS Trust. He is heavily involved in the running of the Major Trauma Centre at St Mary’s Hospital, Paddington. He is also part of the UK Face Transplantation Team and is an Honorary Consultant at the Royal Free Hampstead NHS Trust. He has written over 50 scientific papers, several book chapters and two Plastic Surgical text books.
Dr Gerald Brandacher, Scientific Director, Reconstructive Transplantation Program, Johns Hopkins University School of Medicine, USA

Dr Gerald Brandacher is scientific director of the Johns Hopkins Reconstructive Transplantation program and an associate professor of surgery in the Department of Plastic and Reconstructive Surgery at Johns Hopkins. Prior to joining Johns Hopkins in 2010, Dr Brandacher was a key member of the hand transplant programs in Innsbruck, Austria and at the University of Pittsburgh. Dr Brandacher received his medical degree from Leopold Franzens University and completed further surgical training at the Center of Operative Medicine at Innsbruck Medical University. He is the recipient of many prestigious national and international awards related to his work in reconstructive transplantation. He is the author of numerous peer reviewed papers and has edited two textbooks on hand transplantation.

Professor Steven Jeffery, Consultant Plastic Surgeon, UNITED KINGDOM

Professor Jeffery is a Consultant Plastic Surgeon who specialises in the assessment and treatment of scarring, traumatic wounds and burns. He is consultant to the Royal Centre for Defence Medicine, to the Queen Elizabeth Hospital and to Birmingham Children’s Hospital and has published widely on the topic of burns and wounds. He is a member of the British Burns Association, the International Society for Burn Injury and is a Patron to the charity RAFT.

Mr Baljit Dheansa, Consultant Plastic Surgeon, UNITED KINGDOM

Mr Baljit Dheansa FRCS (Plast) is Lead for Burns Surgery at Queen Victoria Hospital, East Grinstead, a hospital made world famous by Sir Archibald McIndoe for his pioneering work in burns treatment in both clinical and psychological areas. He is also Chairman of the Blond McIndoe Research Foundation and a member of the research advisory group of RAFT. He has a special interest in burns related research with involvement in projects relating to biomaterials, cell culture, psychological aspects of burns and burns outcomes.

RECONSTRUCTIVE SURGERY CONFERENCE PROGRAMME:

DAY 1

0900-0920 Registration
0920-0930 Chairman’s Welcome and Opening Remarks
0930-1000 Keynote Address: Pushing the Boundaries - The Role of Science & Surgical Research
Lord Howe, Parliamentary Under-Secretary of State, Department of Health, UNITED KINGDOM
1000-1020 Smart Matrix™ – Introduction & Future Plans
Leonor Stjepic, Chief Executive, Restoration of Appearance and Function Trust (RAFT), UNITED KINGDOM
1020-1040 transforming lives
Mr Mohammad Ali Jawad, Plastic, Reconstructive and Burns Surgeon, UNITED KINGDOM
1040-1110 Coffee, Tea, Networking & Exhibition Visit
1110-1130 Reconstructive Surgery - What does the Future Hold?
Mr Shehan Hettiaratchy, Consultant Plastic and Reconstructive Surgeon, UNITED KINGDOM
1130-1210 Innovation in Facial Restoration and Reconstruction – Contemporary Issues and Developments
Professor Jean-Paul Meningaud, Professor & Head of Department of Plastic, Reconstructive and Aesthetic Surgery, University Hospital Henri Mondor, FRANCE and Mr Colin MacIver, Consultant Maxillofacial Surgeon, UNITED KINGDOM
1210-1230 Panel Discussion: Facial Restoration and Reconstruction
1230-1400 Lunch, Networking & Exhibition Visit

1400-1420 Evolution of Hand Transplant Surgery - Key Achievements
Professor Simon Kay, Consultant Plastic and Hand Surgeon, UNITED KINGDOM
1420-1500 Insights from Successful Bilateral Arm Transplants
Professor W. P. Andrew Lee, The Milton T. Edgerton, MD, Professor and Chairman, Department of Plastic and Reconstructive Surgery, Johns Hopkins University School of Medicine, USA and Dr Gerald Brandacher, Scientific Director, Reconstructive Transplantation Program, Johns Hopkins University School of Medicine, USA

1500-1540 Panel Discussion: Vascularized Composite Allotransplantation - Where is the Next Frontier?
1540-1600 Coffee, Tea, Networking & Exhibition Visit
1600-1630 Achieving Best Cosmesis following Burn Injury - Who should we Operate on?
Professor Steven Jeffery, Consultant Plastic Surgeon, UNITED KINGDOM
1630-1700 Burns Treatment Fit for the 21st Century - Research, Clinical and Psychological Aspects
Mr Baljit Dheansa, Consultant Plastic Surgeon, UNITED KINGDOM
1700-1730 Panel Discussion: What’s New in Burns Treatments & Reconstruction?
1730-1740 Chairman’s Closing Remarks
1740 Close & Industry Networking Reception
Professor Claudio Calabrese, Certified Plastic Surgeon, Reconstructive & Regenerative Surgical Oncology Breast Unit Careggi, University Hospital Florence, ITALY

Professor Claudio Calabrese is Chair of the Oncoplastic, Reconstructive and Regenerative Surgery Program of the Azienda Ospedaliera – Universitaria Careggi Breast Unit in Florence (Italy) and Professor in Florence University School of Medicine. He is one of the world leaders in Breast Reconstruction in breast cancer patients. He has extensive experience in oncoplastic surgery of the breast and is a pioneer in the use of adipose stem cells in breast reconstruction. He started using the technologies of intraoperative adipose stem cell isolation at the end of 2007 and now has the largest experience in this specific field with cooperation with the major research institutions including the McGowan Institute for Regenerative Medicine of Pittsburgh.

Dr Corinne M. Becker, Plastic & Reconstructive Plastic Surgeon, FRANCE

Corinne Becker MD, is a plastic and reconstructive surgeon from Paris, France. She has pioneered microsurgical lymph node (LN) transplantation. Dr Corinne Becker has done 4,000 lymph node transfers in the treatment of both upper- and lower-extremity lymphedema over the last 20 years in Paris.

Mr Paul Harris, Consultant Plastic Surgeon, UNITED KINGDOM

Paul Harris is a Consultant Plastic Surgeon in Central London. He operates privately at the Chelsea and Westminster Hospital and within the NHS at The Royal Marsden Hospital, where he is Lead Clinician for the Department of Plastic Surgery. He specialises in both aesthetic and reconstructive surgery of the breast and has been instrumental in developing several microvascular techniques in the UK. Since 2010, he has been a Council member of the British Association of Aesthetic Plastic Surgeons (BAAPS). He is also Specialist Clinical Advisor for NICE and a board member of a plastic surgery specific indemnifier (PRASIS).

Mr David J. Dunaway, Consultant Plastic & Reconstructive Surgeon, UNITED KINGDOM

Mr David Dunaway is a consultant plastic and reconstructive surgeon, and head of the Craniofacial unit at Great Ormond Street Hospital (GOSH). He has a special interest in facial deformity, paediatric craniofacial tumours and vascular anomalies, and earlier this year led the successful separation of conjoined twins Rital and Ragaboura. Mr Dunaway also works on the facial deformity service for adults at University College London Hospital (UCLH) and the Eastman Dental Hospital. He is a past president of the plastic surgery section of the Royal Society of Medicine and lead reconstructive surgeon for the Charity Facing Africa.

Mr Mak Tare, Consultant Plastic Surgeon, UNITED KINGDOM

Mr Makandar (Mak) Tare is a UK and internationally trained Consultant Plastic Surgeon. He qualified as a Plastic Surgeon MCh (Plastic Surgery) and also achieved the National Board certification DNB (Plastic Surgery) in 1997. Mak came to the UK in 1999 to pursue additional specialist training in Plastic surgery and obtained his MRCS (2002) and FRCS in Plastic surgery (2008) qualifications. Mak is currently a NHS Consultant Plastic Surgeon in the renowned St Andrews Centre for Burns and Plastic Surgery at Broomfield Hospital Chelmsford where he provides complex reconstructive procedures for upper and lower limb reconstruction, skin cancer and general plastic surgery cases. In the private sector Mak carries out the entire range of cosmetic and plastic surgical procedures.

Mr Paul Johnson, Consultant Oral & Maxillofacial Surgeon, UNITED KINGDOM

Paul Johnson is Consultant Oral and Maxillofacial Surgeon at the Royal Surrey County Hospital, Guildford and his main NHS clinical interests at the moment are the treatment of facial deformity and skin cancer. His private practice is based at the Guildford Nuffield Hospital where he has busy maxillofacial practice specialising in the treatment of jaw deformities and facial aesthetic surgery. He is present Chairman of the Royal College of Surgeons Cosmetic and Reconstructive Interface Group. He lectures and teaches on facial deformity and aesthetic surgery nationally and internationally and in the last year has been the invited keynote speaker at 4 National meetings around the world.

Professor Alexander Seifalian, Professor of Nanotechnology & Regenerative Medicine, University College London, UNITED KINGDOM

Alexander Marcus Seifalian is a Professor of Nanotechnology and Regenerative Medicine, and director of Director of UCL. Centre for Nanotechnology & Regenerative Medicine at University College London (UCL-CNRM). He completed his education at University of London and University College London Medical School. He is a Fellow of the Institute of Nanotechnology (FinN) and Fellow of Society of Biology (FSB), and has published over 321 peer-reviewed research papers, 31 book chapter contributions and 4 families of UK and International patents. He has created a huge amount of media interest for his R&D efforts including a first in man bypass graft, lacrimal duct, trachea and many other medical devices, and has over 380 international media reports cited worldwide.

Mr Norbert V. Kang, Consultant Plastic Surgeon, UNITED KINGDOM

Mr Naveen Cavale, Consultant Plastic & Reconstructive Surgeon, UNITED KINGDOM

Naveen Cavale is a fully accredited Plastic Surgeon. Having completed Specialist Surgical Training in the London training scheme, Nave trained FRCS(Ed) (Plast) in 2008 and was fully accredited and admitted to the Specialist Register (Plastic Surgery) in 2009. He is currently a locum consultant at King’s College Hospital, His specialist interests include Orthoplastics (based at the new King’s Major Trauma Centre), Microsurgery, as well as General Plastic, Reconstructive and Aesthetic Surgery. He is a founding member of the London Orthoplastics Network and has set up the largest (and free) online educational resource for trainee plastic surgeons www.fcsplast.com with over 400 members.
Professor Dr Oskar Aszmann, Director of the Center for Extremity Reconstruction & Rehabilitation, Medical University of Vienna, AUSTRIA

Dr Oskar C. Aszmann holds the position of Associate Professor of Plastic and Reconstructive Surgery at the Division of Plastic Surgery at the Medical University of Vienna, Austria and received part of his training at the Johns Hopkins Hospital in Baltimore where he learned the trade of peripheral nerve surgery. Since 2006 he entered a close collaboration with Otto Bock which has led to the establishment of a partly private/government funded Center for Extremity Reconstruction and Rehabilitation. He has been honored by the Royal Society of Medicine, London twice and most recently received the Hans Anderl Award - the most prestigious research prize awarded by the European Association for Plastic and Reconstructive Surgery.

Professor Gordon Blunn, Professor of Biomedical Engineering, University College London, UNITED KINGDOM

Professor Blunn is Professor of Biomedical Engineering and Director of the Institute of Orthopaedics and Musculo-Skeletal Science, University College London. The Institute of Orthopaedics is based on the site of the Royal National Orthopaedic Hospital in Stanmore. Professor Blunn has worked in this field for over 20 years. He was appointed as a lecturer in the Centre for Biomedical Engineering in 1986 where he developed interest in the interface of biomaterials with tissues and in the durability of biomaterials in the body. A project on soft tissue attachment to implants led to the recent development of a transcutaneous prostheses used for amputees.

RECONSTRUCTIVE SURGERY CONFERENCE PROGRAMME:

DAY 2

0830-0910 Registration

0910-0920 Chairman’s Welcome and Opening Remarks

0920-0940 Regenerative Reconstructive Surgery of the Breast – Stem cell enriched Fat Grafting

Professor Claudio Calabrese, Certified Plastic Surgeon, Reconstructive and Regenerative Surgical Oncology Breast Unit Careggi, University Hospital Florence, ITALY

0940-1000 The Management of Post-Mastectomy Lymph-Oedema

Dr Corinne M. Becker, Plastic and Reconstructive Plastic Surgeon, FRANCE

1000-1020 Breast Reconstruction and Post-Mastectomy Reconstruction – Current Concepts

Mr Paul Harris, Consultant Plastic Surgeon, UNITED KINGDOM

1020-1040 PANEL DISCUSSION: What’s new in Breast Reconstruction

1040-1110 Coffee, Tea, Networking & Exhibition Visit

1110-1130 Separating Craniopagus Twins – the Challenge

Mr David J. Dunaway, Consultant Plastic and Reconstructive Surgeon, UNITED KINGDOM

1130-1150 Cosmetic Reconstructive Microsurgery - the Challenges

Mr Mak Tare, Consultant Plastic Surgeon, UNITED KINGDOM

Mr Jonathan Britto trained in plastic surgery in London, Paris, Toronto and Boston. After completion of his surgical training in London and Boston, following specialist fellowships in complex craniofacial aesthetic and reconstructive surgery, he now specialises in craniofacial, orbital and oculoplastic surgery in his UK Health Service and International private practice at Great Ormond Street Hospital for Children. He has published and lectured by invitation on facial aesthetic surgery subjects, including eyelid surgery, nasal surgery and advanced techniques in facial restoration. He is a Syme Professor of the Royal College of Surgeons of Edinburgh and has authored over 40 papers and written a surgical textbook. He is a Section Editor of the Aesthetic Surgery Journal, and author of the interspecialty syllabus in craniofacial surgery.

Miss Julie Brackenbury, Aesthetic Nurse Consultant, UNITED KINGDOM
Miss Julie Brackenbury is owner of JBCOSMETIC and is on the editorial board of the Journal of Aesthetic Nursing. She is a member of the British Association of Cosmetic Nurses and British Dermatological Nursing Group. Julie qualified at St. Mary’s Hospital in London and previously held the position of senior sister in primary care for Westminster Primary Care Trust. She has also worked in women’s health, as well as oncoplastic breast surgery in Harley Street. She is a contributor and reviewer for the Journal of Aesthetic Nursing and has had a number of articles published focusing on post-partum dermatological conditions. She also writes for the International Journal of Medical Aesthetics and Anti-Ageing. Julie was recently presented with an aesthetic nursing award for demonstrating high levels of advocacy to her cosmetic patients.

Mr Norman Wright, Integrative Psychotherapist, UNITED KINGDOM
Mr Norman Wright is an integrative psychotherapist who trained at SPTI achieving a Master of Science Degree and being honoured with the Mairi Evans award. As psychotherapist and Clinical Director at The Wright Initiative he provides psychotherapeutic support, advice and consultation for individual adults, couples, children and families, teams and companies for a variety of psychological, emotional, relational issues and concerns, alongside providing clinical and teaching supervision for the psychotherapist, trainee, social care, health, education and business managers and executives.

Dr Raj Acquilla, Cosmetic Physician, SINGAPORE
Dr Raj Acquilla graduated from Manchester University Medical School in 1999 and during his 14 year medical career has gained 11 years’ experience in private medical care. He is a founding member of the International Society of Aesthetic Plastic Surgeons. Dr Acquilla has published many clinical papers and book chapters for the International Journal of Medical Aesthetics and Anti-Ageing. Julie was recently presented with an aesthetic nursing award for demonstrating high levels of advocacy to her cosmetic patients.

Mr Jonathan Britto, Consultant Plastic & Craniofacial Surgeon, UNITED KINGDOM
Mr Jonathan Britto trained in plastic surgery in London, Paris, Toronto and Boston. After completion of his surgical training in London and Boston, following specialist fellowships in complex craniofacial aesthetic and reconstructive surgery, he now specialises in craniofacial, orbital and oculoplastic surgery in his UK Health Service and International private practice at Great Ormond Street Hospital for Children. He has published and lectured by invitation on facial aesthetic surgery subjects, including eyelid surgery, nasal surgery and advanced techniques in facial restoration. He is a Syme Professor of the Royal College of Surgeons of Edinburgh and has authored over 40 papers and written a surgical textbook. He is a Section Editor of the Aesthetic Surgery Journal, and author of the interspecialty syllabus in craniofacial surgery.
Mike Regan, Laser Protection Adviser at Bioptica Laser Aesthetics Ltd & Chair to Aesthetic Surgery Services Committee CH403 at British Standards Institute, UNITED KINGDOM

Mike Regan has worked in the international standardisation sector since 2001. This experience ideally positions him to advise the BSI CH403 Committee from a process point of view - how Standards are developed, voted on and implemented. His specific technical area of interest is laser safety. With a background in physics and engineering, he has since 2005 represented the UK on the Aesthetic / Medical Working Group (WG4) of the IEC TC/76 Laser Safety Committee. IEC is the International Electrotechnical Commission. He works full time as a Laser Protection Adviser in the aesthetics sector, and also holds the position of Chair to the Association of Laser Safety Professionals.

Liz Osborne, Programme Manager, BSI Group, UNITED KINGDOM

Liz Osborne is Programme Manager at the British Standards Institution (BSI). BSI is recognised as the UK national standards by the UK Government and is a member of both the International Standards Organisation (ISO) and the European Standards Organization (CEN). At BSI, Liz manages the standards development programme in the area of healthcare at a national, European and International level. She manages the committee which provides the UK input into the European standard on aesthetic surgery and aesthetic non-surgical medical services, by providing strategic and policy advice. Prior to joining the BSI, Liz worked in legal publishing and studied Law at Kings College London.

Sharon Bennett, Specialist Aesthetic Nurse & Vice Chair BACN, UNITED KINGDOM

Sharon Bennett has previously worked alongside plastic surgeons and set up and managed cosmetic clinics in London and overseas, and was significantly involved in bringing the first Hyaluronic Acid filler into the UK in 1996. She is current Vice Chair of the British Association of Cosmetic Nurses (BACN) and participated in the 2012/2013 government review into Cosmetic Interventions. She is on the British Standards Institute (BSI) /CEN committee for Aesthetic Surgery and Non Surgical Aesthetic Medical Services and is medical liaison for the BSI on the committee for the Beauty Services Sector standard. She is the nurse board member of the UK Academy of Aesthetic Practitioners (UKAAP). Her specialist areas of practice are predominantly dermal fillers integrated with other supportive methods of skin restoration and skin health, and neuromodulators.

Dr Paul Myers, Cosmetic Doctor, UNITED KINGDOM

Paul Myers is director of Doctors Appraisal Consultancy, an organisation which provides advice and support to independent (non-NHS) doctors undertaking appraisals and working towards their revalidation. His original background was as an NHS General Practitioner, and he also pursued his interest in doctors education needs assessment, through a senior lecturer post with St. Barts. Hospital medical school. Dr Myers is currently a specialist advisor to IHAS, with whom he collaborated on an appraisal pilot. He now provides appraisal services to a wide range of designated bodies, including NHS London and the Independent Doctors Federation. His current research interest is the quality assurance of doctors’ appraisals.

Mr Andrew Batchelor, Plastic Surgeon, UNITED KINGDOM

Andrew Batchelor qualified at St Mary's, winning the Chedele Medal and trained there in general surgery. Andrew trained in Plastic Surgery in Slough, Nottingham and Glasgow. He was appointed consultant plastic surgeon to Leeds & York where his practice was focused on microsurgery and oncology. He resigned in 2003 and continues in independent practice. Andrew examined for FRCS (Plast) 1996-2003. He served 2 terms on the council of BAPRAS, as well as many committees. He has been elected Fellow ad hominem to the Edinburgh College of Surgeons and was Godrej Professor of Plastic Surgery elected in 2002 by the Indian association. He was Foundation Lecturer of the Australasian College of Surgeons in 2002 being made an Honorary Member of the Australian Society. He is an honorary member of the New England Society of Plastic Surgeons. He opines on 80 to 100 cases of alleged medical negligence each year.

Dr Caroline Fryar, The Medical Defence Union (MDU), UNITED KINGDOM

Caroline is a medico-legal adviser at the Medical Defence Union (MDU). She studied medicine at the University of Sheffield and then went on to train as a GP in Cheshire. She gained MRCGP in 2005. Caroline joined the MDU in 2006 and has subsequently completed an LLM in Medical Law at Cardiff University and she has also gained her MFELM.

Andrea James, Senior Associate, Shoosmiths LLP, UNITED KINGDOM

Andrea is an English and Irish qualified solicitor who leads Shoosmiths’ Professional Discipline & Healthcare Regulatory team in Manchester. The main focus of Andrea’s work is defending professionals at fitness to practise proceedings before their regulatory bodies, particularly doctors before the General Medical Council/Medical Practitioners Tribunal Service. Andrea also represents healthcare professionals in connection with a wide range of non-disciplinary matters, including Care Quality Commission issues, inquests, judicial review proceedings, registration and specialist registration (CESR) applications, revalidation, Deanery appeals and Freedom of Information Act and Data Protection Act enquiries. Andrea is a recognised expert in her field and writes and lectures extensively, in addition to tweeting as @HealthRegLawyer.

Barney Calman, Health Editor, The Mail on Sunday, UNITED KINGDOM

Barney is health editor at The Mail on Sunday, our media partner for the awards. He was appointed to the role in January 2011, having been part of the paper's dedicated health team since it was formed in 2008. Previously he was a feature writer on The Mail on Sunday’s sister title, The Daily Mail. Barney has also contributed to other national newspaper titles, including The Independent, The Guardian, The Observer and The Daily Express.

Dr Caroline Fryar, The Medical Defence Union (MDU), UNITED KINGDOM

Leah Hardy, Journalist and Author, UNITED KINGDOM

Leah Hardy is a journalist and author. Her specialist areas include health, beauty, anti-ageing, including aesthetic treatments and surgery. At Cosmopolitan Magazine she was the first journalist to have Botox for a feature when it was a radical new cosmetic treatment more than 20 years ago. Since then Leah has written about developments in these fields for many publications including the Times, Sunday Times, Daily Mail, Evening Standard, Red and Easy Living. She has recently completed a book about women and healthy ageing for Random House. She lives in London with her family.

Amanda Cameron, Director, Aesthetics UK, UNITED KINGDOM

Amanda Cameron is a sales and marketing professional who has worked in the aesthetics industry in the UK and Europe for more than two decades and is, therefore, one of the pioneers of the industry that has evolved today. She started her career as a nurse and was one of the first nurse injector trainers in the UK for dermal fillers before studying for an MBA. She is best known for introducing dermal fillers to the market with Collagen Corporation, closely followed by the introduction of Sculptra to the European market. Amanda has worked for blue chip companies and has headed up European operations for several start-up organisations.

Dr Sandeep H. Cliff, Consultant Dermatologist and Dermatological Surgeon, UNITED KINGDOM

Dr Cliff is a Consultant Dermatologist and Mohs surgeon - as well as being clinical sub-dean Brighton and Sussex Medical School. He undertakes a large number of non-invasive facial rejuvenation procedures, including dermal fillers and botulinum toxin. Dr Cliff has lectured extensively both nationally and internationally on all aspects of aesthetic dermatology, as well as organised and participated in a number of workshops. His main NHS practice is in Surrey and he also works from a number of private hospitals in Surrey.

Mr Niall Kirkpatrick, Consultant Craniofacial Plastic Surgeon, UNITED KINGDOM

Niall Kirkpatrick is a Consultant Plastic surgeon and Lead Clinician of the Craniofacial Unit at Chelsea and Westminster Hospital where he is also a core member of the North West London specialist multidisciplinary team for the management of skin cancers and a member of the multidisciplinary team for Vascular Anomalies. He is Honorary Consultant at Guy’s and St Thomas’ Hospital where he is a member of the national complex Neurofibromatosis-1 multidisciplinary unit. Niall is a Trustee and the Medical Director of “Facing The World” and is Honorary Clinical Senior Lecturer at Imperial College, London. He is an examiner for the Royal Colleges of Surgery Intercollegiate Board in Plastic Surgery and a past President of the Royal Society of Medicine Plastic Surgery Section.

Dr Nick Lowe, Consultant Dermatologist, UNITED KINGDOM

Dr Nick Lowe is Consultant Dermatologist Cranley Clinic for Dermatology, London and Clinical Professor of Dermatology, UCLA School of Medicine, Los Angeles. Dr Lowe has published over 450 clinical and research publications and has edited/ written 15 scientific and 4 educational books for the public. He is on editorial boards of international medical journals and is a founding editor of the Journal of Cosmetic and Laser Therapy. He was principal investigator on over 200 clinical research projects in the last 25 years and since early 1990s he has pioneered research with Botulinum toxins. He has won scientific awards for presentations from the American Academy of Dermatology and has appeared on radio and television.

Mr Alwyn D’Souza, Consultant Facial Plastic & Reconstructive Surgeon, UNITED KINGDOM

Mr Alwyn D’Souza specialises in Aesthetic and Reconstructive Plastic Surgery of the Face and Neck. Following CCT in Otolaryngology, and further training in Facial Plastic Surgery, he was awarded American Board of Facial Plastic and Reconstructive Surgery Examination. He is certified by, “The International Federation of Plastic Surgery Societies” (IFPSS). Mr D’Souza is the founder of London Facial Surgery and has published a number of research articles in peer reviewed medical journals, and has authored textbook chapters. He is frequently an invited speaker in the UK and international events and is one of the two national delegates representing UK in the European Academy of Facial Plastic Surgery (EAFPS) chairing the CME committee for EAFPS.

Mr Magnus Boyd, Legal Director, Hill Dickinson LLP, UNITED KINGDOM

Magnus Boyd is a solicitor who has developed a niche practice in protecting the privacy and reputations of surgeons, doctors, NHS Chief Executives and others in the medical sphere. Leading consultants in private practice regularly consult Magnus over potential libel claims involving professional colleagues, staff, ratings websites and other fora on which patients and competitors may defame them. Magnus frequently litigates against broadcasters and national newspapers on behalf of surgeons to recover damages, costs and apologies. Magnus is the approved solicitor for the British Association of Aesthetic Plastic Surgeons and his medical reputation protection work has been recognised by his peers and Chambers and Partners since 2007.

Amanda Cameron is a sales and marketing professional who has worked in the aesthetics industry in the UK and Europe for more than two decades and is, therefore, one of the pioneers of the industry that has evolved today. www.careworldtv.com
RAFT is:

A highly committed medical research charity producing innovative, cutting-edge results in the field of wound healing research.

A foundation of research resting on a rock-solid bed of 25-years worth of accomplishments including:

- New treatments to encourage the fast healing of wounds
- Anti-scarring agents for burn patients
- Laser hair removal for skin grafts and to aid prosthetic wearers
- Research leading to alternating air pressure mattresses to prevent bed sores
- Advanced treatment for Dupuytren's Contracture, facial palsy & damaged tendons
- Research for skin cancer into new areas leading to major changes how we are protected against harmful UVA rays
- Neo-natal methods of treating cleft lip & palate disorders

A strong research/surgical team pushing current research projects forward:

- Wound Healing – taking artificial skin scaffold to clinical trial later this year.
- Neo-natal methods of treating cleft lip & palate disorders
- Research leading to alternating air pressure mattresses to prevent bed sores
- New treatments to encourage the fast healing of wounds
- Anti-scarring agents for burn patients

When asked to sum up the accomplishments of RAFT and what it has meant to the field of medical research, Mr Norbert Kang, consultant plastic surgeon at Royal Free Hospital and former RAFT surgical research fellow, said: “If RAFT didn’t exist, we’d have to invent it.”
The Nuffield Health Promise: Changing the face of cosmetic surgery.

Our aim is to provide a different kind of treatment for cosmetic surgery patients - the Nuffield Treatment. The difference is we’re an independent not-for-profit organisation, so any surplus we make is reinvested to improve the quality of the procedures and healthcare we offer. This means we can make the following promises:

**Our treatment promise:** We understand that any healthcare procedure can be stressful. We therefore promise to guide and support patients through every stage of their treatment at Nuffield Health. Our Matron-led system sits at the heart of this.

**Our follow up promise:** Our relationship with patients doesn’t end when they walk out of any one of our hospitals. As a Nuffield Health patient, subject to the clinical needs related to your procedure, there are no time limits on your after care.

**Our pricing promise:** If a patient finds an alternative private hospital in the local area offering a better price for the same individual treatment, sold with the same service conditions, we’ll lower our price to match.** Our prices will always be totally transparent and when patients are quoted an inclusive procedure price it will be inclusive of all costs – with no hidden surprises.

To find out more, please visit us at Stand H20. Or go online at nuffieldhealth.com/promise

Terms and conditions apply. Please visit nuffieldhealth.com/hospitals for more information. **Where possible, we promise to assist you to receive any follow up advice, treatment or care that is clinically required from your Consultant for as long as you may require it. If a prosthesis is used as part of your treatment this is guaranteed for the manufacturer’s official lifetime of that prosthesis. **Clinically required** indicates where further intervention and/or monitoring of a patient’s condition is deemed necessary as a direct result of surgical intervention. **Not including private patient units at NHS hospitals. Local area defined as within 15 miles of the Nuffield Health Hospital. We will match against written quotes only.**
NeoGen™ Plasma Skin Regeneration

Smoothens wrinkles & scarring • Eliminates brown spots • Tightens skin

See live NeoGen PSR™ Treatments by Dr Rogge STAND E3

“This technology delivered the clinical results that were promised. It is also backed by extensive research and clinical studies in which I was involved. I’ve seen dramatic results with it.”

Edgar Fincher, M.D., Ph.D.
Fincher Dermatology & Cosmetic Surgery, Beverly Hills, CA

A dramatically different, clinically proven treatment is now available to offer your patients. NeoGen PSR™ is a uniquely non-ablative and non-laser technology, delivering true skin regeneration with remarkable and long lasting results.

To find out more about how your clinic can be among the first UK locations to offer NeoGen Plasma Skin Regeneration, please contact Energist Medical Group today

Only from ENERGIST MEDICAL GROUP
