

IMPORTANT INFORMATION NIGHT

WHO: ALL PARENTS WHEN: 7pm TUESDAY 27th FEBRUARY WHERE: OLA LIBRARY

There is a proposed development which affects our school and is currently in the City of Stirling Planning Approval process:

A Mobile Telecommunications Facility (Mobile Phone Tower)
within 200m of our school, outside the Dianella Shopping Centre.

We invite you to an Information Night where Marc Lehmann will explain the long term detrimental health effects to our children should this development be approved, and why you should consider helping to **object** before it receives Planning Approval.

Mark is a parent at the school, a local to this area and has a Doctorate in Chemistry, but promises to keep it simple.

Mr. Martin, our Principal, has submitted a letter to the City of Stirling strongly opposing the development and also explains the reasons for our opposition.

This can be viewed via our newsletter by clicking on **News from the Board** or the link <https://inewsletter.co/vQVeZY/our-ladys-assumption-school-newsletter-issue-three/#/14>

The planning application is found at www.stirling.wa.gov.au Search: **DA17/1796**

A letter is attached for you to sign should you oppose this Proposed Development. Once signed, please send before Public Comments close on **Thursday 29th February** to:

Marc Lehmann ml1601ss@gmail.com
or hand in to the **Front Office** for the **P&F Box**.

Marc will hand deliver the letters to the City of Stirling.

The letter will also be available on the night for you to sign and hand directly to Marc.

The more letters, the more voice we have as a community.

Your support is greatly appreciated,
Your OLA P&F.
