

CHRISTMAS RAFFLE IN SUPPORT OF JOSH EARNSHAW & HIS MUM

My name is Joshua Earnshaw I'm 19 and in April of this year (2016) my mum was sent into hospital to have a defibrillator fitted for her cardiomyopathy and Ventricular tachycardia. The day after she got out of the hospital, she received another call telling her that she has a cancerous tumor on her liver, from an unknown melanoma. She was unable to work for at least two months after all of this, and after a month of being back at work 1 day a week, her defibrillator went off 4 more times sending her in and out of hospital for a week and a half.

Because of all of this, she has had to be off work. I work casually and am looking for work, while I put in what I can, but we're essentially living off my 12-14 hours a fortnight and sickness allowance from Centrelink which is only \$572 a fortnight. Mum manages to make the mortgage, the home insurance and is able to buy some food, but we're still occasionally left to rely on other people's generosity with supermarket gift cards and gift baskets that are slowly running out.

My loving and amazing mother has kept me alive, fed and sheltered for the past 19 years, at times having to set aside her own health and hunger to do so. The least I can do is try to get some help, any help at all.

Any amount to put towards the home loan would be amazing, and mean that the chance of us having to put the house she's worked so hard for the past 6 years, on the market would be reduced.

Mum has never liked being the object of attention, and hates receiving something for nothing, but I'm sure if anyone would be able to donate she would be joyed and amazed by the generosity.

Thank you so much for even reading this far. It means a lot to me and maybe one day my mum.
