## ACBL Charity Game

Analysis by Brian Gunnell, author of Bridge Bites and founder of The Wednesday Game (www.wednesdaygame.com).

won in Dummy and Declarer's Heart loser goes on the ♠Q. Now the ♠T is finessed and when the dust has cleared Declarer will have 9 tricks.

defenders' cause as they are unable to lead a second one to stop the ruff. The Play in 4♥: North might try a spectacular underlead of her Diamonds (in search of a Club ruff), but that is a dubious strategy when holding natural trump tricks (although great merriment would ensue if North did lead a low Diamond, Dummy played low and South's Eight won the trick!). Instead, North plays Diamonds from the top and Declarer ruffs the second one. The bidding places North with Club shortness and most or all of the missing major suit high cards. That being so, Declarer can make his contract by cashing ♠A and ♠K, and leading a low Heart. North must win but is now end-played ... either she leads a trump and gives up a trick that way ... or she must lead a Diamond and concede a ruff and sluff.

restraint and not force to game with her moderate 12-count. The Play in 3+: Dummy wins the Spade lead, a Club goes on the other high Spade, then ♣A and out a Club. West wins this and fires back a low trump, Declarer takes her Ace and ruffs a Club. West should not overruff! If he does, Declarer's ◆Q drops East's Jack for 10 tricks ... if West does not overruff then Declarer still has a guess in the trump suit and may go wrong (she shouldn't but let's give her the opportunity!).

|             | <b>♣</b> 7      | let's sa | y that Eas    | st leads a   | Diamond.           |

Declarer has lots of potential tricks, but there is blockage in Spades and Diamonds. Should Declarer go after the Spades or the Clubs?

(a) If Declarer goes after Spades, she wins the ♦K in hand, overtakes the ♣K in Dummy, knocks out the ♠Q, wins the Diamond return with Dummy's Ace, runs the Spades, and finesses the ♣Q for the 9<sup>th</sup> trick. This line requires the onside ♣K and 4-2 or 3-3 Spades. That's 42%, apparently. (b) If Declarer goes after Clubs, she wins the first trick with Dummy's ♦A, finesses the ♣Q, cashes the ♣A, loses a Club, wins the Diamond return, and runs the Clubs. 9 tricks again. This line requires the onside ♣K and 3-2 Clubs, and that's a mere 34%.

Did Any Pairs Get to 6♣ or 6♦? Nicely done if you achieved this feat! You needed 3-2 Diamonds, and had to organize that Heart ruff in the South hand, but all in all it's a pretty good slam. Hard to reach, though.

and Declarer will grab her 11 tricks while she still can.

**▲** AK65

If North shows a 4-card major then South would try for slam, but when she responds 3♠, South bids 3♠ (or 3♥ if playing Smolen) showing 5-4 in the majors, and lets North pick the contract. North might well be nervous about the Diamonds and go for the 5-2 Spade fit. The bottom line is 11 tricks in Hearts, Spades or No Trump. Easy to play, awkward to bid.

beats 3♣, but West might well lead Clubs, Declarer ruffing the second round. Now Declarer cashes the ♣A, and leads a Heart to Dummy's Queen and East's King. East shifts to a Diamond but it is too late. Declarer wins that, concedes a Spade, wins the Diamond return, cashes the ♥A and leads a third Heart. Her luck is in when the defender with the long trump also has the long Heart. Now that Diamond loser disappears. Note that it was necessary to lose the Heart while Dummy still had a trump, otherwise Declarer would get forced by

around, and later competes to 3♠.

The Play in 3♠: A Diamond lead

**The Play in Clubs:** North never gets in to lead a Heart through Declarer, and eventually a Heart goes away on Dummy's Spades. Making 9 tricks.

|              | ♣ J8765  |            |                     | •                   | ell end up e it? North |
| leads the    | T to South's Ace, and                                | l back co  | mes the             | ♥9, won             | in Dummy.              |

How to play the trumps? As North has long Hearts, South is more likely to have the Diamonds. So Declarer crosses to his ♣A, plays a trump to the Jack and Ace, then later finesses against South's hoped-for Ten. 8 tricks.

what should West do? He is maximum for his earlier Pass, and Partner has since shown some extras, so passing does seem rather feeble, wouldn't you say? With North bidding No Trump, and with both East and South bidding Diamonds naturally, it seems quite likely that East has three Diamonds and 4=4=3=2 shape. If West is convinced by this logic he'll take a shot at 2♥ and will be rewarded with 9 tricks and +140!

bid 3NT directly (avoiding defensive Heart ruffs in 4♠ if South is 3=4=2=4). The Play in 3NT: After West leads a Heart, 3NT cannot be made with accurate defense: Heart won by Declarer, Spade to East's Ace, another Heart, after which West still has an entry to the established Hearts and it's down one. But a wily Declarer such as yourself no doubt made it harder for the defense. You won the opening Heart with Dummy's Ten and led the crafty Spade Ten. It would be a tough play for East to leap up with his Ace but that's what is required. If he fails to rise to the occasion then West can either win the ♠K (using up his entry before Hearts are established) or else duck (in which case you have 9 tricks).

| Declarer     | araa 11 triaka in anla | adid atular | منبيد ٨ معم مط | a tha trum | n abift + A                    |

Declarer scores 11 tricks in splendid style: the ♥A wins the trump shift, ♠A and ♠K are cashed (pitching Diamonds from Dummy), ♦A, Diamond ruff, Spade ruff (West pitches a Diamond), Club ruff, Spade ruff, Diamond ruff. At Trick 12 another Spade is led and West falls victim to a Trump Coup! Anyone for 5♣ Doubled? If the defense leads trumps it's only +500 for N-S ... but if they go after their own ruffs they can score the magic +800.

want of a convenient entry to hand, Declarer leads a small trump to her Nine and West's Queen. West shifts to a Diamond, and if Declarer guesses right she'll hop up with the Ace and play another Heart. The defense never does score a Spade and Declarer has 10 tricks. Nicely played! If the defense is to score 4 tricks then West must find an opening Diamond lead (forcing an entry for a timely Spade shift from East).

like Clubs and have something in Hearts", or it could mean "I have something in Hearts but am nervous about 3NT (Diamond weakness)". If West does bid 3♥, we'd suggest that East make a natural slam invitation of 4NT, after which West must decide whether his lovely Clubs are enough to overcome his abhorrence for the rest of the hand.

The Bottom Line: 6♣ is a reasonable contract, clocking in at 53%. But here it's down one. As for 6NT, that is a poor contract, needing not only Club luck, but also a 12<sup>th</sup> trick from the majors.

ruff and discard. It's a terrific plan but, alas, it is South who wins that Diamond trick after which a Club lead through Declarer holds him to the same 10 tricks as everybody else. Style points only, we are sorry to say.

Using those methods, East bids 3♣, but West has nothing more to say. And without Lebensohl? Then, East has no good bid ... not enough for game ... too much for 34 (which could be bid with a very weak hand).

The Play in 3. 10 tricks are possible when the ♥J comes down in three rounds (allowing Declarer's Diamond loser to disappear).

The Play in 3NT: It's a rotten contract but it makes! Declarer ducks a Spade, and scores 9 tricks when North turns out to have ♥A, ♦Q and ♣A.

Spade battle will lead us to ee destinations:

lays Spades there will be 9 way or the other ... either, se will get a Diamond ruff ... be no ruff, but Declarer e the necessary entries to e Diamonds.

olays Hearts (no doubt after ls auction) then a Spade all suspense and Declarer

plays Hearts (after North overcalls 2♥) then Declarer can do a

bid, wouldn't you say? 4♠ is very

trick better. Her objective is to keep West off lead (avoiding the Spade lead through) while drawing trumps and setting up the Clubs ... Diamond lead is ruffed by Declarer; over to the ♣K; Heart finesse to East's Queen; the Diamond return is ruffed; cash ♥A and ♣A; exit a Club. 10 tricks!

much the winning bid (11 routine tricks), and if South feebly decides to invite game it's possible that North will decline (after all, she does have the useless ♠J and the doubleton ♠KQ as minus factors).
