Overview

Eric Truett is Deputy Director of Data Strategy & Analytics for ALAS's Data Insights & Analytics team (DIA). In this role, Eric spearheads the development, improvement, and maintenance of the DIA suite of data-driven products.

While members are likely familiar with products such as ALAS DataView, ALAS Coverage Explorer, and ALAS Edge, they might be less familiar with the work that goes on behind the scenes to ensure that they are accurate, timely, and easy-to-use. Eric oversees the ingestion of claims, underwriting, and third-party data into the ALAS data warehouse. He also manages the development, testing, and deployment of products built on this data foundation.

Eric has more than 20 years of experience in the legal and technology fields. Prior to joining ALAS, he served as a government attorney representing agencies in state and federal appellate courts.

Outside of ALAS, Eric works as a pickleball instructor for suburban park districts and private athletic clubs.
