# SOIL OPTIMIZER

For Use on Lawns, Gardens, and Indoor Plants

## HOW IT WORKS

Soil Optimizer is the OPTIMIZE piece of the GrowGreen soil solution. It begins to work as soon as it is watered into the soil. It's easy—all you have to do is spread it on top of your soil and water it in.

Soil optimizer's true humus is mined from a unique deposit of leonardite in New Mexico. This deposit has been composting for thousands of years, making it far more concentrated and richer than surface-decomposed humus. John and Bob's Soil Optimizer may aid in micro-nutrient uptake.
