TECHNICAL DATA

CENTER OF ATTENTION.

The Lane Departure Warning¹ system provides support and active assistance to avoid dangerous situations. A camera recognizes the edge of the road and its markings, and the system warns the driver of unintentional lane changes.

¹ Requires clearly definable lane markings that are not obscured by rain, snow, etc. Lane Departure Warning feature is not a substitute for the driver's own responsibility in maintaining safe control of the vehicle.

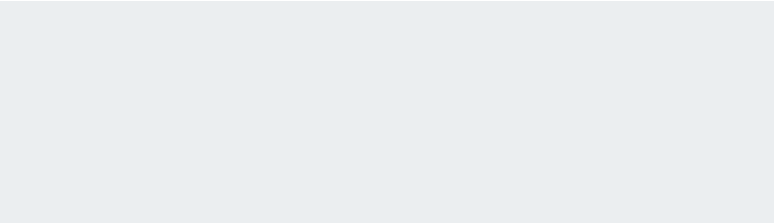

COMMAND CENTER.

It's a cinch to control the 8-speed Steptronic Automatic transmission with Sport and Manual shift modes from the luxurious driver's cabin. The iDrive controller is touch-sensitive and turns navigating into a simple task, while letting you focus on the road ahead.

Y Spoke light alloy wheels (Style 566)
18 x 7.5 front and rear; and 225/50 front and rear run-flat all-season tires^{1,2}

¹ Does not come equipped with spare wheel and tire.

² Driving over rough or damaged road surfaces, as well as debris, curbs and other obstacles, can cause serious damage to wheels, tires and suspension parts. This is more likely to occur with low-profile tires, which provide less cushioning between the wheel and the road. Be careful to avoid road hazards and reduce your speed, especially if your vehicle is equipped with low-profile tires.

³ Performance tires include Mobility Kit; not recommended for driving in ice and snow conditions.
