XT4 INTERIOR

STUNNING FROM THE INSIDE OUT

INTERIOR SPACE

A thoughtfully designed interior provides 39.5" of rear leg room, along with the versatile cargo space provided by the 60/40 folding rear seats, which means first-class comfort for all of your friends—and all of their essentials.

FRONT LUMBAR MASSAGING SEATS

Sit back and relax with available front massaging seats that deliver a more comfortable drive. Included and only available with the Comfort and Convenience Package.

COMFORT IN ANY CLIMATE

Even in the coldest of climates, the available heated steering wheel and heated front and rear seats will keep you warm and cozy. On the other end of the spectrum, available ventilated front seats are made to help you keep your cool, even on hot summer days.¹

BOSE AUDIO SYSTEM

Tranquility takes center stage. Next-generation Active Noise Cancellation intelligently measures road vibration and uses the AKG³ speaker system to actively cancel road-induced noise. That technology, coupled with rigorous wind-tunnel testing and acoustic laminated glass, turns traditional road noise into a symphony of solitude.

XT4 TECHNOLOGY

TECHNOLOGY AT YOUR FINGERTIPS

A WORLD OF INTUITION

With the Cadillac user experience,² commanding your world is as intuitive as a simple touch or spoken word. This intelligent infotainment system features an 8" diagonal HD color touchscreen, Natural Voice Recognition and available embedded navigation³ with readily accessible smartphone and app functionality.¹

ADAPTIVE CRUISE CONTROL

Adaptive Cruise Control⁴ is an enhanced version of cruise control that allows you to automatically follow a detected vehicle ahead at a driver-selected following gap.

FULL-COLOR HEAD-UP DISPLAY

Keep your goals clearly in front of you. This available feature projects key information—including speed, navigation, phone and music details—onto the windshield in your line of sight, helping you stay focused on the road ahead.

INTUITIVE CONTROLS

XT4 makes customizing your drive fast and easy with its Rotary Infotainment Controller. Located on the center console, it allows you to quickly rotate and select to adjust phone and audio entertainment, as well as available navigation settings.

¹ Due to current supply-chain shortages, certain features shown have limited or late availability, or are no longer available. See the window label or a dealer regarding the features on an individual vehicle.

² Functionality varies by model. Full functionality requires compatible Bluetooth® and smartphone, and USB connectivity for some devices.

³ Map coverage available in the United States, Puerto Rico and Canada.

⁴ Safety or driver-assistance features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Visibility, weather and road conditions may affect feature performance. Read the vehicle Owner's Manual for more important feature limitations and information.

GO WIRELESS

Stay connected without plugging in. Wireless Apple CarPlay^{®5} and wireless Android Auto^{™6} compatibility allows you to access messages, music, maps and more from your compatible smartphone via the 8" diagonal color touchscreen.

AMAZON ALEXA BUILT-IN

The Alexa functionality you enjoy at home is now fully integrated into the Cadillac user experience.⁷ With Amazon Alexa Built-In, tooltip† you can ask Alexa to stream your favorite music, get directions, make calls, change your radio stations and more. Ask anything. Alexa's on board.

DEVICE PAIRING

Easily pair your device to stay connected to your world. Connect up to two phones and/or tablets simultaneously with Bluetooth^{®8} to ensure an important call isn't missed.

MYCADILLAC MOBILE APP

While you're on the go, you're in tune with your vehicle with the available myCadillac Mobile App.⁹ Send remote commands, manage and schedule your vehicle's maintenance, set and share custom notifications and control your vehicle from the same device you use to control other parts of your life.

XT4 SAFETY

PEACE OF MIND IS PARAMOUNT

AUTOMATIC EMERGENCY BRAKING

Automatic Emergency Braking tooltip† or available Enhanced Automatic Emergency Braking¹ works with Forward Collision Alert¹ to help you avoid or reduce the severity of a potential front-end collision with a detected vehicle you're following. The features use technology to automatically provide hard emergency braking or enhance the driver's hard braking. Automatic Emergency Braking is one of several standard features on all Cadillac vehicles that make up the Cadillac Smart System™.

HD SURROUND VISION

Available HD Surround Vision¹ provides selectable digital camera views of the area around your vehicle to help you park and avoid vehicles and objects. You can also display a guideline to show where your vehicle is heading.

LANE CHANGE AND LANE KEEP ASSIST

Lane Change Alert with Side Blind Zone Alert¹ can provide side-mirror visual alerts when a detected moving vehicle is quickly approaching or is in your side blind zone. It can help you avoid lane-change collisions. The Lane Keep Assist with Lane Departure Warning¹ system uses a brief, gentle turn of the steering wheel to alert you when you may be unintentionally drifting out of detected lane lines. If needed, you may also receive Lane Departure Warning haptic seat alerts. System alerts do not occur if you're using your turn signal, or if it detects you may be intentionally leaving your lane.

REAR CAMERA MIRROR

The available Rear Camera Mirror¹ uses a camera to provide a wide and less-obstructed view behind the vehicle while driving. You can switch between the camera view and a traditional rearview mirror.

¹ Safety or driver-assistance features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Visibility, weather and road conditions may affect feature performance. Read the vehicle Owner's Manual for more important feature limitations and information.
