ICONIC LED LIGHTING

See and be seen. XT6 features advanced LED headlamps that do more than offer visual intrigue—they deliver bright illumination, helping you confidently navigate night-veiled roads. Additionally, XT6's cornering lamps cast light into corners as you take them. Bright, elegantly detailed and beautifully shaped, these stylish LED taillamps are crafted to help you stand out on the road—and are sure to stop onlookers in their tracks.

XT6 INTERIOR

STEP INTO YOUR NEW COMFORT ZONE

INTERIOR SPACE

XT6 brings three full rows of comfort with exceptional third-row head room and leg room, allowing all your passengers to ride in style. Shown with available second-row captain's chairs.

SEMI-ANILINE LEATHER SEATING

XT6 makes the most of its spaciousness, providing premium and luxurious interiors at every trim level. On the available Platinum Package, Semi-Aniline leather seats cover all three rows for the ultimate in comfort.

BOSE® PERFORMANCE SERIES 14-SPEAKER AUDIO SYSTEM

No matter which row you're in, enjoy a crisp, immersive listening experience with the available Bose Performance Series audio system, featuring 14 premium speakers that have been acoustically tuned to provide optimal sound quality in XT6.

XT6 TECHNOLOGY

HIGH-TECH TOOLS TO ELEVATE YOUR RIDE

HANDS-FREE SUPER CRUISE

The future of driving is here. XT6 offers available Super Cruise¹, the first truly hands-free driver-assistance technology with more than 200,000 miles of compatible roads in the U.S. and Canada. XT6 includes 3 years of connectivity to support functionality and map updates, after which an eligible Connected Services² plan must be purchased.

AMAZON ALEXA BUILT-IN

The Alexa functionality you enjoy at home is now fully integrated into the Cadillac user experience.³ With available Amazon Alexa Built-In⁴ you can ask Alexa to stream your favorite music, get directions, make calls, change your radio stations and more. Ask anything. Alexa's on board.

GO WIRELESS

Stay connected without plugging in. Wireless Apple CarPlay⁵ and wireless Android Auto⁶ compatibility allows you to access messages, music, maps and more from your compatible smartphone via the 8" diagonal color touchscreen.

¹ Limited availability. Always pay attention while driving and when using Super Cruise. Do not use a hand-held device. Requires active Super Cruise plan or trial. Terms apply. Visit cadillac.com/supercruise for compatible roads and full details.

² After initial 3-year period, an eligible Connected Services plan must be purchased. Connected Services vary by vehicle and model and require active service plan, working electrical system, cell reception and GPS signal. Does not include safety services. Super Cruise vehicles are connected to emergency services. See onstar.com for details and limitations.

³ Functionality varies by model. Full functionality requires compatible Bluetooth® and smartphone, and USB connectivity for some devices.

⁴ Functionality is subject to limitations and varies by vehicle, infotainment system and location. Select service plan required. Certain Alexa Skills require account linking to use. Amazon, Alexa and all related logos and motion marks are trademarks of Amazon.com, Inc., or its affiliates. See onstar.com for additional details.

⁵ Vehicle user interface is a product of Apple® and its terms and privacy statements apply. Requires compatible iPhone® and data plan rates apply. Apple CarPlay is a trademark of Apple, Inc. Siri, iPhone and Apple Music are trademarks of Apple, Inc., registered in the U.S. and other countries.

⁶ Vehicle user interface is a product of Google and its terms and privacy statements apply. To use Android Auto on your car display, you'll need an Android phone running Android 6 or higher, an active data plan, and the Android Auto app. Google, Android and Android Auto are trademarks of Google LLC.

XT6 PERFORMANCE

STRENGTH IN NUMBERS

AVAILABLE 3.6L V6 ENGINE

The 3.6L V6 offers a smooth, powerful drive with 310 hp and 271 lb-ft of torque (366 newton-meter), offering up to a max 4000 lbs of towing capacity.¹

SPORT CONTROL AWD

Exclusive to the Sport trim, dual-clutch Sport Control AWD is a power play for the driving enthusiast. The standard system offers active support for cornering, acceleration and improved handling on nearly every type of surface. And with front Brembo® brakes, enjoy confidence on the road with sure-footed stopping power.

DRIVER MODE SELECTOR

Personalize your XT6 driving experience and adapt to the road ahead with selectable drive modes. The freedom of available All-Wheel Drive is expanded by Touring, Off-Road and Sport calibrations, while Front-Wheel Drive models deliver the confidence of Snow/Ice, Touring and Sport modes.

BREMBO PERFORMANCE BRAKES

Wield the power of XT6 with Brembo®, a leader in performance brakes. XT6 features durable, 6-piston front Brembo® brakes to offer confident, precise stopping power.

¹ Requires Smart Towing package. Before you buy a vehicle or use it for trailering, carefully review the trailering section of the Owner's Manual. The weight of passengers, cargo and options or accessories may reduce the amount you can tow.

XT6 SAFETY

LOOK STUNNING. FEEL CONFIDENT.

FRONT PEDESTRIAN BRAKING

Front Pedestrian Braking¹ can help you avoid or reduce the severity of a front-end collision with a pedestrian it detects directly ahead of you. The system provides pedestrian alerts and can even automatically provide hard emergency braking or enhance the driver's hard braking. The system works at speeds below 50 mph during the daytime. It has limited nighttime and low-visibility performance.

LANE KEEP ASSIST WITH LANE DEPARTURE WARNING

The Lane Keep Assist with Lane Departure Warning¹ system uses a brief, gentle turn of the steering wheel to alert you when you may be unintentionally drifting out of detected lane lines. If needed, you may also receive Lane Departure Warning haptic seat alerts if selected. System alerts do not occur if you're using your turn signal, or if it detects you may be intentionally leaving your lane.

LANE CHANGE ALERT WITH SIDE BLIND ZONE ALERT

Lane Change Alert with Side Blind Zone Alert¹ can provide side-mirror visual alerts when a detected moving vehicle is quickly approaching or is in your side blind zone. It can help you avoid lane-change collisions.

REAR CROSS TRAFFIC ALERT

When your vehicle is in Reverse, Rear Cross Traffic Alert¹ warns you when it detects left or right cross traffic behind your vehicle. Haptic feedback built into your seat will help you to react once danger is detected.

XT6 SAFETY

LOOK STUNNING. FEEL CONFIDENT.

GO CONFIDENTLY WITH THE CADILLAC SMART SYSTEM

In a world of unpredictability, the Cadillac Smart System™ offers proactive peace of mind. This comprehensive suite of standard driver-assistance features helps inspire confidence on your journey—whether you're backing out of your driveway or boldly taking on the road ahead.

¹ Safety or driver-assistance features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. Read the vehicle Owner's Manual for more important feature limitations and information.

² Feature will not function on certain models without dealer retrofit. See dealer for details.

³ A NOTE ON CHILD SAFETY: Always use seat belts and the correct child restraint for your child's age and size, even with airbags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal airbag. See your vehicle Owner's Manual and child safety seat instructions for more safety information.
